H2ofloss HF-6

H2ofloss Portable Water Dental Flosser

MODEL: HF-6

Introduction

The H2ofloss Portable Water Dental Flosser is designed to provide deep and gentle cleaning for improved gum health. This oral irrigator utilizes optimal pulsations and high-pressure water flow to effectively remove plaque and debris, promoting better oral hygiene. Its portable and waterproof design makes it suitable for both home use and travel.

Product Features

- **Deep and Gentle Cleaning:** Delivers powerful water flow with 1300 pulsations per minute, removing 99.99% of stains without harming gums.
- **Five Modes:** Offers multiple pressure settings (Strong High 110 psi, High 95 psi, Medium 80 psi, Soft 40 psi, Low 20 psi) to suit various oral care needs, from deep cleaning to sensitive gum massage.
- **IPX7 Waterproof Design:** Features dual internal and external protection against water leakage, ensuring safe use in wet environments like bathrooms.
- **Long Battery Life:** Equipped with a 2500mAh lithium battery, providing up to 30 days of use on a single charge.
- **360° Rotatable Nozzles:** Allows for easy cleaning of hard-to-reach areas, aiding in the prevention of tooth decay, dental calculus, bad breath, and gingival bleeding.
- **Patented Gravity Ball Design:** Ensures smooth water flow from any angle during use.
- **Ergonomic Design:** Provides a comfortable and secure grip for ease of use.

Setup

1. **Charge the Unit:** Before initial use, fully charge the oral irrigator using the provided USB charging cable. The battery indicator lights will show charging progress.

2. **Fill the Water Tank:** Open the water tank cover at the back of the unit. Fill the 300ml detachable water tank with lukewarm water. You may add a small amount of mouthwash if desired. Close the cover securely.
3. **Attach the Jet Tip:** Select your desired jet tip and insert it into the opening at the top of the unit until it clicks into place. Ensure it is firmly secured.

30 Days of Long Battery Life

Operating Instructions

1. **Select Mode:** Press the 'M' (Mode) button to cycle through the 5 available modes and select the proper pressure setting for your comfort and cleaning needs.
2. **Position the Tip:** Lean over a sink and place the jet tip in your mouth, aiming it at the gum line at a 90-degree angle.
3. **Start Flossing:** Press the 'On' button to start the water flow. Move the tip along your gum line and between your teeth, pausing briefly between each tooth.
4. **Rotate as Needed:** Utilize the 360° rotatable nozzle to easily reach all areas of your mouth.
5. **Finish:** Turn off the unit by pressing the 'On' button once you have completed flossing.

Modes and Pressure Settings

The H2ofloss Water Dental Flosser offers 5 distinct pressure modes to cater to individual preferences and oral health needs:

Mode	Pressure (psi)	Description
Strong High	110	For deep cleaning and stubborn debris.
High	95	Effective for daily use, removes 99% of food plaque.
Medium	80	Massages and stimulates gums, promoting circulation.
Soft	40	Gentle cleaning for sensitive areas.
Low	20	Ideal for sensitive gums and beginners.

Maintenance

- **Cleaning the Unit:** After each use, empty any remaining water from the tank. The detachable tank can be removed for thorough cleaning. Use the provided cleaning brush to clean the inside of the tank and any hard-to-reach areas.
- **Cleaning Jet Tips:** Remove the jet tip after use and rinse it under running water. Store it in a dry place or the provided carrying case.
- **Recharging:** Recharge the oral irrigator when the battery level is low. A full charge typically lasts up to 30 days.
- **Reservoir Cleaning Tablets:** Use the provided reservoir cleaning tablets as directed to naturally remove stains and odors from the water tank.

Troubleshooting

- **No Water Flow:** Ensure the water tank is properly filled and the jet tip is securely attached. Check if the unit is charged.
- **Weak Water Pressure:** Verify that the selected mode is appropriate for your desired pressure. Ensure the water tank is not low.
- **Unit Not Turning On:** Confirm the unit is fully charged. If issues persist, contact customer support.

Specifications

Feature	Detail
Model Number	HF-6
