ULTIMEA U0200

ULTIMEA Apollo P10 Mini Projector User Manual

Model: U0200

1. Introduction

Thank you for choosing the ULTIMEA Apollo P10 Mini Projector. This portable projector is designed to provide a high-quality visual experience with its FHD 2K decoding, 300 ANSI lumens brightness, and versatile connectivity options including 5G/2.4G WiFi and Bluetooth. Its compact size and electric focus feature make it ideal for various entertainment and presentation needs. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure you get the most out of your device.

2. Safety Information

- Do not look directly into the projector lens when the lamp is on. The bright light can cause eye damage.
- Ensure proper ventilation around the projector. Do not block ventilation openings.
- Use only the power adapter supplied with the projector.
- Keep the projector away from water or other liquids.
- Avoid placing the projector in direct sunlight or near heat sources.
- Do not attempt to disassemble or repair the projector yourself. Refer all servicing to qualified personnel.
- Clean the projector with a soft, dry cloth. Do not use liquid or aerosol cleaners.

3. Package Contents

Please check that all items are present in your package:

- ULTIMEA Apollo P10 Mini Projector
- Power Cord
- Remote Control
- HDMI Cable
- User Manual

4. Product Overview

The ULTIMEA Apollo P10 is a compact and portable projector designed for ease of use and high-quality projection. Its small form factor makes it easy to transport and set up in various locations.

Figure 4.1: Front view of the ULTIMEA Apollo P10 Mini Projector, showcasing its compact design and lens.

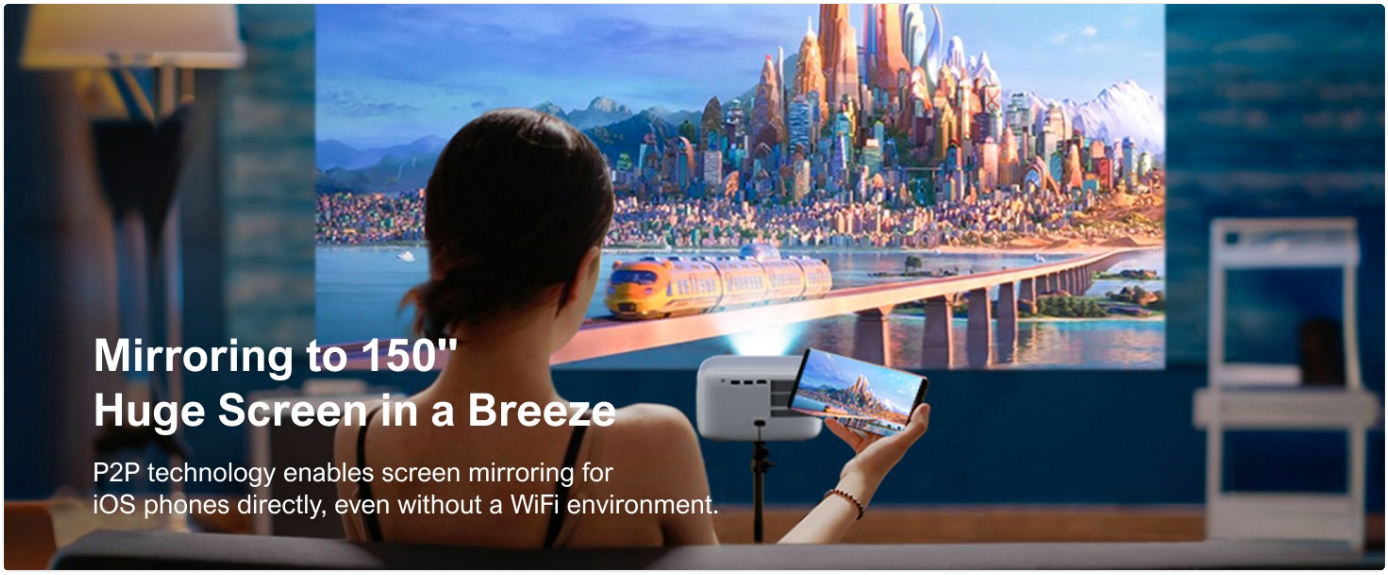

Figure 4.2: The projector's ultra-mini design allows for easy portability, fitting conveniently into a backpack for on-the-go use.

Key Features:

- **Electric Focus:** One-click adjustment for sharp images.
- **Dual-band WiFi (2.4G/5G):** For stable and fast screen mirroring.
- **Bluetooth 5.1:** Bidirectional connection for audio output and input.
- **FHD 2K Decoding:** Supports high-definition content.
- **300 ANSI Lumens:** Provides clear and bright images.

- **Enclosed Optical Engine:** Designed to prevent dust entry and extend lifespan.

5. Setup

5.1 Placement

Place the projector on a stable, flat surface. For optimal viewing, position the projector directly in front of the projection surface (wall or screen). The ideal projection distance is 7.8-9.8 feet for an 80-100 inch screen. The projector can project up to a 150-inch screen.

5.2 Power Connection

1. Connect the power cord to the projector's power input port.
2. Plug the other end of the power cord into a power outlet.
3. The projector will power on or enter standby mode.

5.3 Electric Focus Adjustment

The Apollo P10 features one-click electric focus for quick and precise image clarity.

1. Turn on the projector.
2. Using the remote control, press the "F+" or "F-" buttons.
3. The projector will automatically adjust the focus to achieve a sharp image. This process typically takes about 3 seconds.

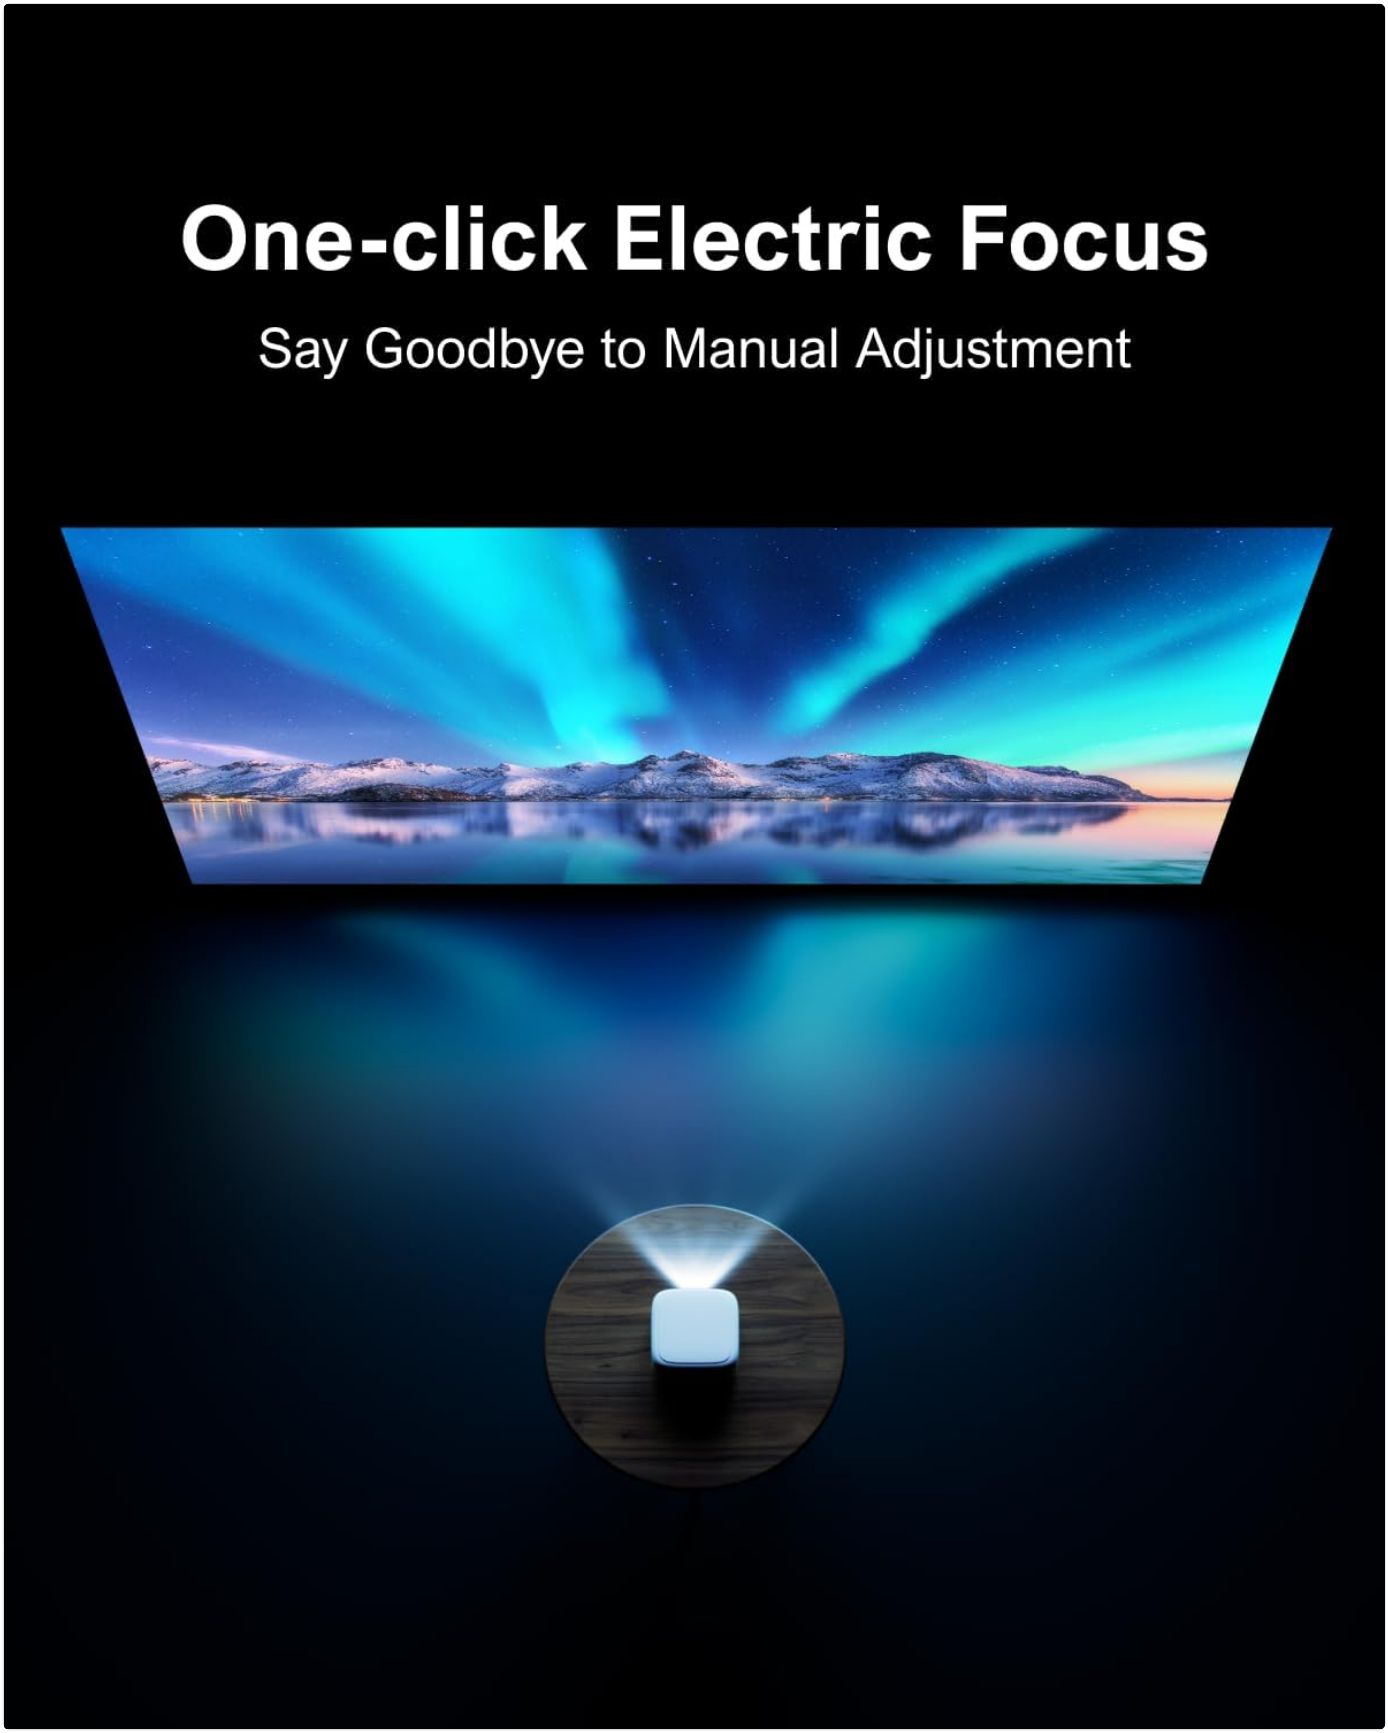

Figure 5.1: The electric focus feature allows for quick and precise image sharpening with a single click on the remote.

Figure 5.2: Accurate electric focus eliminates the need for manual adjustments, ensuring sharp and square images.

6. Operating Instructions

6.1 Power On/Off

Press the power button on the projector or the remote control to turn the device on or off.

6.2 User Interface Navigation

The projector features an intuitive ULTIMEA user interface for easy navigation.

Figure 6.1: The ULTIMEA user interface provides easy access to various functions and media types.

Use the arrow keys and OK button on the remote control to navigate through the menus and select options.

6.3 Screen Mirroring (Wireless & Wired)

The Apollo P10 supports both wireless and wired screen mirroring from various devices.

Wireless Screen Mirroring (WiFi)

The projector supports 2.4GHz and 5GHz WiFi bands for stable and low-latency screen mirroring.

1. Select "Wireless Mirroring" from the main menu.
2. Ensure your mobile device (iOS, Android, Windows, Mac) is connected to the same WiFi network as the projector.
3. Follow the on-screen instructions to connect your device. For iOS, use AirPlay/Screen Mirroring. For Android, use

Cast/Smart View.

Figure 6.2: Seamless wireless screen mirroring from iOS, Android, and Windows devices to the projector using 2.4G and 5G WiFi.

Figure 6.3: Enjoy high-speed 5G+2.4G WiFi screen mirroring without the need for an HDMI adapter.

Figure 6.4: The premium WiFi chipset ensures low latency (below 15ms) for smooth streaming and gaming experiences.

Wired Screen Mirroring (USB Cable)

For iOS devices, you can mirror your screen directly using a USB cable, even without a WiFi network.

1. Select "Wired Mirroring" from the main menu.
2. Connect your iOS device to the projector using a USB cable.
3. Follow the on-screen prompts on your device to trust the connection.

Figure 6.5: P2P technology allows for direct iPhone screen mirroring via USB, even without a home WiFi connection.

Figure 6.6: The projector offers both wireless and wired (USB cable) connection options for screen mirroring from various devices.

6.4 Connecting External Devices

The Apollo P10 offers multiple connectivity options for external devices.

- **HDMI:** Connect TV sticks (e.g., Roku, Fire TV), laptops, gaming consoles (e.g., Switch), or other HDMI-enabled devices using the provided HDMI cable. Select the HDMI input source from the projector's menu.
- **USB:** Insert a USB drive into the USB port to play media files (movies, music, photos). Select "Media" from the main menu and choose the desired file type.
- **AV:** Use the AV port for older devices (AV cable not included).

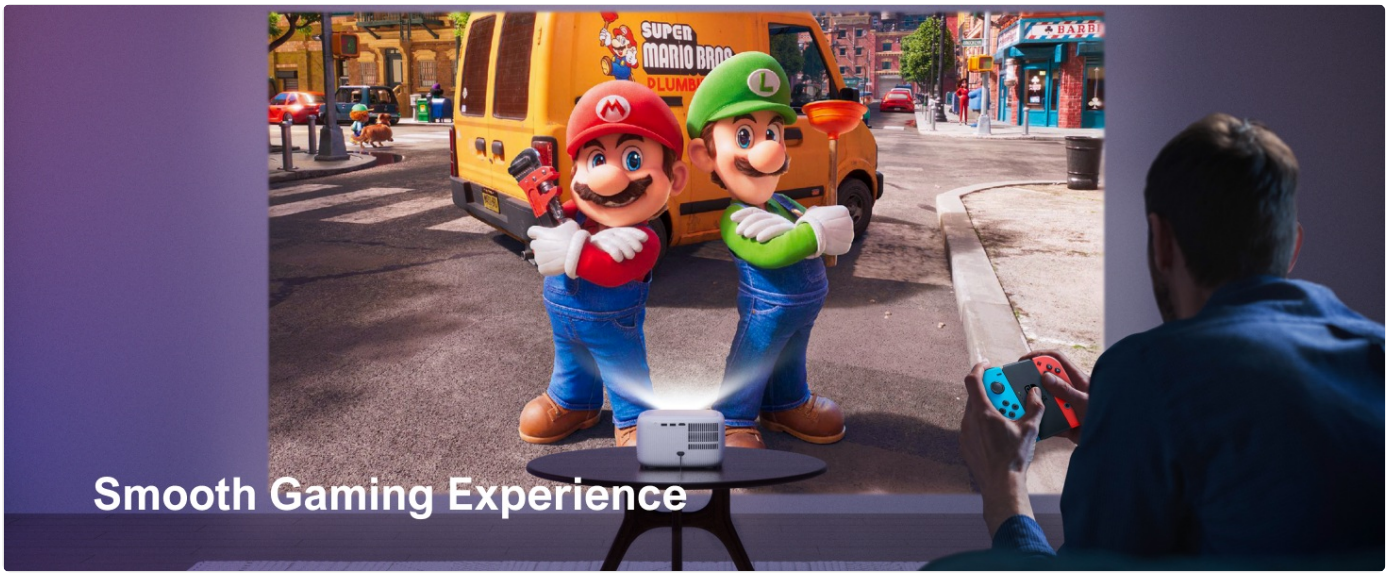

Figure 6.7: Connect a TV Stick to enjoy massive entertainment from various streaming platforms.

Figure 6.8: Experience smooth gaming by connecting your console to the projector.

6.5 Audio Connection (Bluetooth)

The projector has built-in high-fidelity speakers. For enhanced audio, you can connect external Bluetooth speakers or soundbars.

1. Go to the Bluetooth settings in the projector's menu.
2. Enable Bluetooth and search for available devices.
3. Select your Bluetooth speaker or soundbar from the list to pair.

Figure 6.9: The projector supports 5.1 bidirectional Bluetooth connection, allowing it to connect to external speakers or act as a Bluetooth speaker itself.

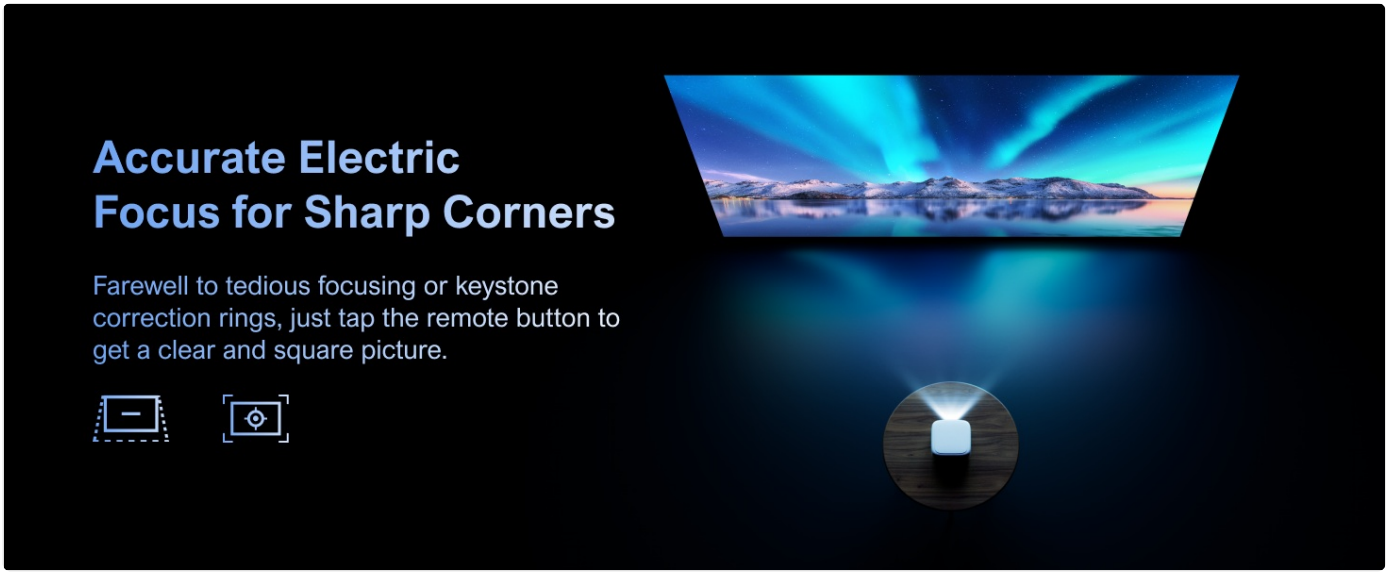

Figure 6.10: Connect your Apollo P10 with an ULTIMEA soundbar for an immersive surround sound experience.

7. Maintenance

Proper maintenance ensures the longevity and optimal performance of your projector.

7.1 Dust Prevention

The ULTIMEA Apollo P10 features a fully enclosed optical engine design, which significantly reduces dust entry and extends the lifespan of the projector.

Figure 7.1: The enclosed optical engine design prevents dust from entering, ensuring clearer images and a longer lifespan compared to open optical engines.

7.2 Cleaning

- **Projector Body:** Wipe the exterior with a soft, dry, lint-free cloth. Do not use abrasive cleaners or solvents.
- **Lens:** Use a lens cleaning cloth or a soft brush specifically designed for optical lenses to gently remove dust. Avoid touching the lens with your fingers.
- **Ventilation Ports:** Periodically check and gently clean any dust accumulation around the ventilation ports using a soft brush or compressed air (held at a distance).

8. Troubleshooting

Problem	Possible Cause	Solution
No image or blurry image	Projector not powered on; Focus not adjusted; Input source incorrect; Lens dirty.	Ensure power is connected and unit is on. Use electric focus (F+/F-) to adjust. Select correct input source (HDMI, USB). Clean the lens.
No sound	Volume too low; Muted; External audio device not connected or paired correctly.	Increase volume. Check if muted. Ensure Bluetooth speaker is paired or HDMI audio is selected.
Screen mirroring issues	Incorrect WiFi network; Device compatibility; Network interference.	Ensure projector and device are on the same 2.4G or 5G WiFi network. Try wired mirroring for iOS. Reduce distance to router.
Remote control not working	Batteries low/dead; Obstruction between remote and projector; Remote not pointed correctly.	Replace batteries. Remove any obstructions. Point remote directly at the projector's IR receiver.
Overheating	Blocked ventilation; Prolonged use in hot environment.	Ensure ventilation ports are clear. Turn off projector and allow it to cool down. Use in a well-ventilated area.

9. Specifications

Feature	Specification
Brand	ULTIMEA
Model Name	Apollo P10
Model Number	U0200
Display Technology	LCD
Image Brightness	300 ANSI Lumens
Display Resolution	1280 x 720 Pixels (Supports 2K Decoding)
Image Contrast Ratio	1000:1
Aspect Ratio	4:3
