### MAINTENANCE

To ensure the longevity and hygiene of your Heybly Cat Tree, follow these maintenance guidelines:

- **Cleaning:** The cat tree is made with materials that require dry cleaning only. Do not use liquid cleaners or immerse parts in water. For minor spills or dirt, gently spot clean with a damp cloth and mild detergent, then air dry completely.
- **Vacuuming:** Regularly vacuum the plush surfaces to remove loose fur and dust.
- **Sisal Posts:** Inspect sisal scratching posts for wear and tear. While durable, heavily used posts may eventually need replacement to maintain their effectiveness.
- **Structural Integrity:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary to maintain stability.

## TROUBLESHOOTING

If you encounter any issues with your Heybly Cat Tree, consider the following common solutions:

Problem	Possible Cause	Solution
Cat tree feels wobbly or unstable.	Loose connections or improper assembly. Not secured to wall.	Check all screws and re-tighten. Ensure the anti-tip kit is correctly installed and secured to a sturdy wall. Place on a level surface.
Cats are not using the scratching posts.	Cats may prefer other surfaces or need encouragement.	Try sprinkling catnip on the sisal posts. Gently guide your cat's paws to the posts to demonstrate. Ensure the posts are stable.
Dangling toys are broken or detached.	Normal wear and tear from active play.	Reattach if possible. If broken, consider replacing with similar cat-safe toys.
Cat condo or baskets seem too small for adult cats.	Product is designed for average-sized cats; larger breeds may find some areas snug.	Ensure your cat can comfortably access and exit these areas. If too small, encourage use of larger platforms.
