3. SETUP INSTRUCTIONS

The Heybly Cactus Cat Tree is designed for hassle-free assembly. Please follow these steps carefully:

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify that all components listed in the included parts list are present.
2. **Identify Base:** Place the largest, flat base piece on a stable, level surface.
3. **Attach Lower Posts:** Securely attach the lower sisal-wrapped posts and the cat condo to the base using the provided screws and tools. Ensure all connections are tight.

4. **Assemble Cat Condo:** If the cat condo is a separate piece, assemble it according to the diagram, then attach it to the main structure.
5. **Install Hammocks and Platforms:** Attach the two hanging baskets and any intermediate platforms to the posts as indicated in the assembly diagram.
6. **Mount Top Platform:** Secure the comfortable top platform to the highest post.
7. **Attach Dangling Toys:** Hook the dangling toys (e.g., balls with bells) to the designated points on the cat tree.
8. **Install Anti-Tip Kit:** For enhanced stability and safety, especially with active cats, install the anti-tip kit to secure the cat tree to a wall. Follow the specific instructions provided with the kit.
9. **Final Check:** Gently shake the assembled cat tree to ensure all parts are stable and securely fastened before allowing your cats to use it.

An illustrated instruction manual and necessary tool pack are included with your purchase to guide you through the assembly process.

4. OPERATING INSTRUCTIONS

The Heybly Cactus Cat Tree is designed for intuitive use by your feline companions. No complex operation is required.

- **Scratching Posts:** Encourage your cat to use the sisal-wrapped posts for scratching to maintain claw health and protect furniture.
- **Cat Condo:** The built-in cat condo offers a secluded space for resting, sleeping, or observing surroundings.
- **Hammocks and Platforms:** Cats can relax in the soft hammocks or perch on the platforms for elevated views.
- **Dangling Toys:** The attached dangling toys provide interactive play and mental stimulation.

Place the cat tree in an area accessible to your cat, preferably near a window or in a common living space, to maximize its appeal.

5. MAINTENANCE

Regular maintenance will extend the life of your Heybly Cactus Cat Tree and ensure a hygienic environment for your pet.

- **Cleaning:**
 - Use a vacuum cleaner to remove loose fur and debris from all carpeted surfaces regularly.
 - Spot clean any soiled areas with a mild pet-safe cleaner and a damp cloth. Avoid excessive moisture.
 - Allow cleaned areas to air dry completely before your cat uses the tree again.
- **Sisal Posts:** Inspect sisal-wrapped posts for wear and tear. While durable, heavy scratching may eventually fray the material.
- **Structural Integrity:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary to maintain stability.
- **Dangling Toys:** Inspect dangling toys for damage. Replace if they become detached or pose a choking hazard.

6. TROUBLESHOOTING

If you encounter any issues with your Heybly Cactus Cat Tree, refer to the following common solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Cat tree feels wobbly.	Loose connections or uneven placement.	Ensure all screws are tightened. Place the tree on a flat, stable surface. Utilize the anti-tip kit to secure it to a wall.
Cat is not using scratching posts.	Preference for other surfaces or unfamiliarity.	Sprinkle catnip on the sisal posts. Gently guide your cat's paws to the posts. Ensure the posts are stable.
Dangling toys are damaged or detached.	Normal wear and tear from play.	Remove damaged toys to prevent ingestion. Contact customer support for replacement options if available.
Cat condo or hammocks are too small for adult cats.	Product designed for average-sized cats; larger breeds may find spaces snug.	While the product can handle up to two average-sized cats, individual cat size varies. Ensure your cat can comfortably enter and exit. Consider larger models if space is insufficient.
