OLEVS BF-Q-004

OLEVS Queen Bed Frame Instruction Manual

Model: BF-Q-004

INTRODUCTION

Thank you for choosing the OLEVS Queen Bed Frame. This manual provides detailed instructions for assembly, operation, maintenance, and troubleshooting to ensure safe and optimal use of your new bed frame. Please read this manual thoroughly before beginning assembly and retain it for future reference.

The OLEVS Queen Bed Frame is designed for comfort and convenience, featuring a sturdy metal platform, an integrated headboard with a charging station, and LED lighting.

SAFETY INFORMATION

Please observe the following safety precautions to prevent injury or damage to the product:

- Ensure all parts are present and undamaged before assembly. Do not use if any parts are missing or broken.
- Assemble the bed frame on a soft, clean surface (e.g., carpet) to prevent scratches.
- Do not overtighten screws during assembly, as this may damage the threads or components.
- Keep small parts away from children during assembly to avoid choking hazards.
- Ensure the bed frame is placed on a level surface to prevent instability.
- Do not exceed the maximum weight capacity of 1000 lbs.
- Only use the provided power adapter for the charging station and LED lights.
- Unplug the bed frame from the power outlet before cleaning or performing any maintenance.

PACKAGE CONTENTS

Verify that all components listed below are included in your package. If any parts are missing or damaged, please contact customer support.

Part	Description	Quantity
Headboard Assembly	Includes upholstered headboard, storage shelf, charging station.	1
Side Rails	Left and Right metal side rails.	2
Center Support Beam	Metal beam with mute sponge bar.	1
Metal Slats	Cross support rods for mattress.	11
Bed Legs	Metal support legs.	9
LED Light Strip	RGB LED strip for under-bed lighting.	1
Remote Control	For LED light operation.	1
Hardware Pack	Screws, bolts, Allen wrench, etc.	1

SETUP AND ASSEMBLY

Assembly is designed to be straightforward. It is recommended to have two people for easier assembly, though one person can complete it. All components are delivered in a single box with clear labeling.

Tools Required:

- Included Allen Wrench
- Phillips Head Screwdriver (not included, for some minor adjustments if needed)

Assembly Steps:

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a soft, clean surface. Refer to the "Package Contents" section to ensure all parts are present.
2. **Assemble the Headboard:** Attach the upholstered headboard to the main headboard frame. Secure the storage shelf to the top of the headboard using the provided screws. Ensure the charging station is properly seated and secured.
3. **Attach Side Rails to Headboard:** Connect the left and right side rails to the assembled headboard using the designated bolts. Do not fully tighten yet.
4. **Attach Footboard (if applicable):** If your model includes a separate footboard, attach it to the other end of the side rails.
5. **Install Center Support Beam:** Place the center support beam, which includes a mute sponge bar, along the middle of the frame. Secure it to the headboard and footboard (or the opposite end of the side rails if no footboard).
6. **Install Bed Legs:** Attach the 9 metal bed legs to the designated points on the side rails and center support beam. Ensure they are firmly tightened.
7. **Install Metal Slats:** Lay the 11 metal slats across the frame, connecting them to the side rails and center support beam. Ensure they are evenly spaced and securely fastened. The design with metal rods instead of traditional wooden slats provides exceptional stability.
8. **Tighten All Connections:** Once all major components are in place, go back and fully tighten all screws and bolts. This ensures the frame's stability and prevents creaking.
9. **Attach LED Light Strip:** Carefully attach the LED light strip to the underside of the bed frame using the adhesive backing or clips provided. Ensure the cable is routed neatly and securely.
10. **Connect Power:** Plug the charging station and LED light power cord into a wall outlet. The cable management system helps keep the 6.6ft cord organized.

OPERATING INSTRUCTIONS

Charging Station:

The integrated headboard features a charging station for your convenience. It includes:

- 2 AC Outlets
- 2 USB Ports
- 1 Type-C Port

Simply plug your devices into the appropriate ports. The charging station is powered when the bed frame's main power cord is connected to a wall outlet.

LED Lights:

The under-bed RGB LED light strip can be controlled using the provided remote control. Ensure the LED light strip is properly connected to the power source.

- **Power On/Off:** Press the power button on the remote to turn the lights on or off.
- **Color Selection:** Use the color buttons on the remote to choose from various RGB colors.
- **Brightness Adjustment:** Use the brightness up/down buttons to adjust the intensity of the lights.
- **Mode Selection:** Cycle through different lighting modes (e.g., flash, strobe, fade, smooth) using the mode buttons to create a personalized atmosphere.

MAINTENANCE

Regular maintenance will help prolong the life and appearance of your OLEVS bed frame:

- **Cleaning:**
 - For metal parts, wipe with a soft, damp cloth. Avoid abrasive cleaners.
 - For the upholstered headboard, spot clean with a mild fabric cleaner as needed. Test on an inconspicuous area first.
 - Ensure the charging station is unplugged before cleaning around electrical components.
- **Tightening:** Periodically check all screws and bolts and retighten them as necessary to maintain stability and prevent squeaking. The mute sponge bar in the center beam helps reduce friction and noise.
- **Clearance:** The 10.4-inch under-bed clearance provides ample space for storage. Keep this area clear to allow for proper air circulation and easy cleaning.

TROUBLESHOOTING

If you encounter any issues with your OLEVS bed frame, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Bed frame is squeaking.	Loose connections; uneven floor; friction between metal parts.	Ensure all bolts and screws are fully tightened. Check if the bed is on a level surface. The mute sponge bar is designed to reduce noise, but re-tightening is key.
Charging station not working.	Not plugged in; power outlet issue; device cable issue.	Verify the bed frame's main power cord is securely plugged into a working wall outlet. Test the outlet with another device. Try a different charging cable for your device.
LED lights not turning on/responding to remote.	Power connection issue; remote battery dead; remote not paired.	Check if the LED light strip is properly connected to its power source and the main power cord is plugged in. Replace the remote control battery. Refer to the LED light manual (if separate) for pairing instructions.
Parts missing or damaged upon arrival.	Shipping damage; packaging error.	Do not proceed with assembly. Contact OLEVS customer support immediately with your order details.

SPECIFICATIONS

Key specifications for the OLEVS Queen Bed Frame:

- **Model:** BF-Q-004
- **Size:** Queen
- **Product Dimensions (LWH):** 85"L x 62"W x 41"H
- **Color:** Vintage Brown
- **Material:** Metal (frame), Upholstered (headboard)
- **Weight Capacity:** Up to 1000 lbs
- **Under-bed Clearance:** 10.4 inches
- **Charging Station:** 2 AC Outlets, 2 USB Ports, 1 Type-C Port
- **LED Lights:** RGB, Remote Controlled
- **Assembly Required:** Yes
- **Box Spring Needed:** No
- **Item Weight:** 57.2 pounds
