**eufy T8L40**

# eufy Indoor Floor Lamp E10 User Manual

Model: T8L40 | Brand: eufy

## 1. Introduction

The eufy Indoor Floor Lamp E10 is a smart RGBWW LED floor lamp designed to enhance the ambiance of your living space. It features 16 million colors, adjustable white light from warm to cool, and up to 1700 lumens of brightness. This lamp can be controlled via the eufy Life App and is compatible with voice assistants like Alexa and Google Assistant. Its hexagonal design and skin-friendly silicone light strip offer both modern aesthetics and practical durability.

## 2. What's in the Box

Carefully unpack all components and ensure everything listed below is present. If any items are missing or damaged, please contact eufy customer support.

- Lamp Base
- Silicone Strip Light
- Pole A (with a lid pre-installed on the upper end)
- Pole B (x2)
- Power Adapter
- Control Unit
- Quick Start Guide
- Screws (x9, including 3 spare screws)

## 3. Setup and Assembly

Follow these steps to assemble your eufy Indoor Floor Lamp E10:

1. **Assemble the Poles:** Connect Pole B to Pole A, then connect the second Pole B to the first Pole B. Ensure the connections are secure.
2. **Attach the Silicone Strip Light:**

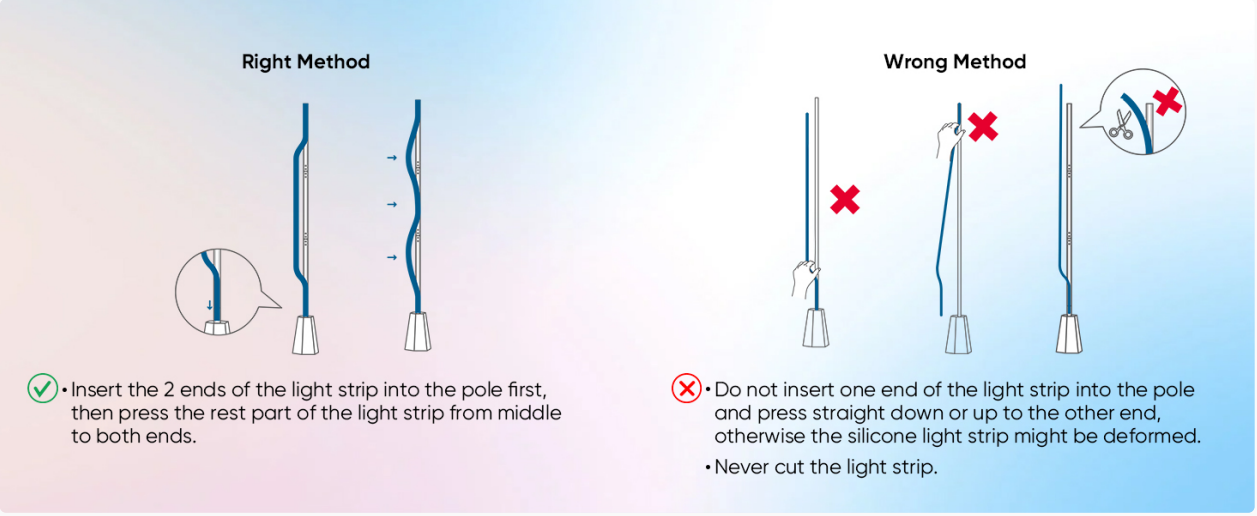

*Image: Illustration showing the correct and incorrect methods for inserting the silicone light strip into the lamp pole. The correct method involves inserting both ends first, then pressing the middle. The incorrect method shows pushing one end straight down, which can deform the strip.*

   - Insert the 2 ends of the light strip into the pole first.
   - Then, gently press the rest of the light strip from the middle towards both ends until it is fully seated.
   - **Important:** Do not insert one end of the light strip into the pole and press straight down or up to the other end, as this might deform the silicone light strip. Never cut the light strip.
3. **Secure the Base:** Attach the assembled pole to the lamp base using the provided screws. The pre-installed bar connector simplifies this process, requiring only six screws for completion.

*Image: A screwdriver is shown tightening a screw to secure the lamp pole to its base, illustrating the easy installation process.*

4. **Connect Power:** Connect the power adapter to the control unit, and then connect the control unit to the lamp. Plug the power adapter into a wall outlet.

## 4. Operating Instructions

The eufy Indoor Floor Lamp E10 offers multiple ways to control its lighting features.

### 4.1. Initial Power On

Once plugged in, the lamp will power on. You can then proceed with app setup for smart control.

## 4.2. eufy Life App Control

Download the eufy Life App from your device's app store to unlock the full potential of your lamp.

- **Color and Brightness Adjustment:** Select from 16 million colors and adjust brightness levels up to 1700 lumens. The lamp integrates RGB, warm white, and cool white LEDs for a wide color temperature range (1500K to 9000K).

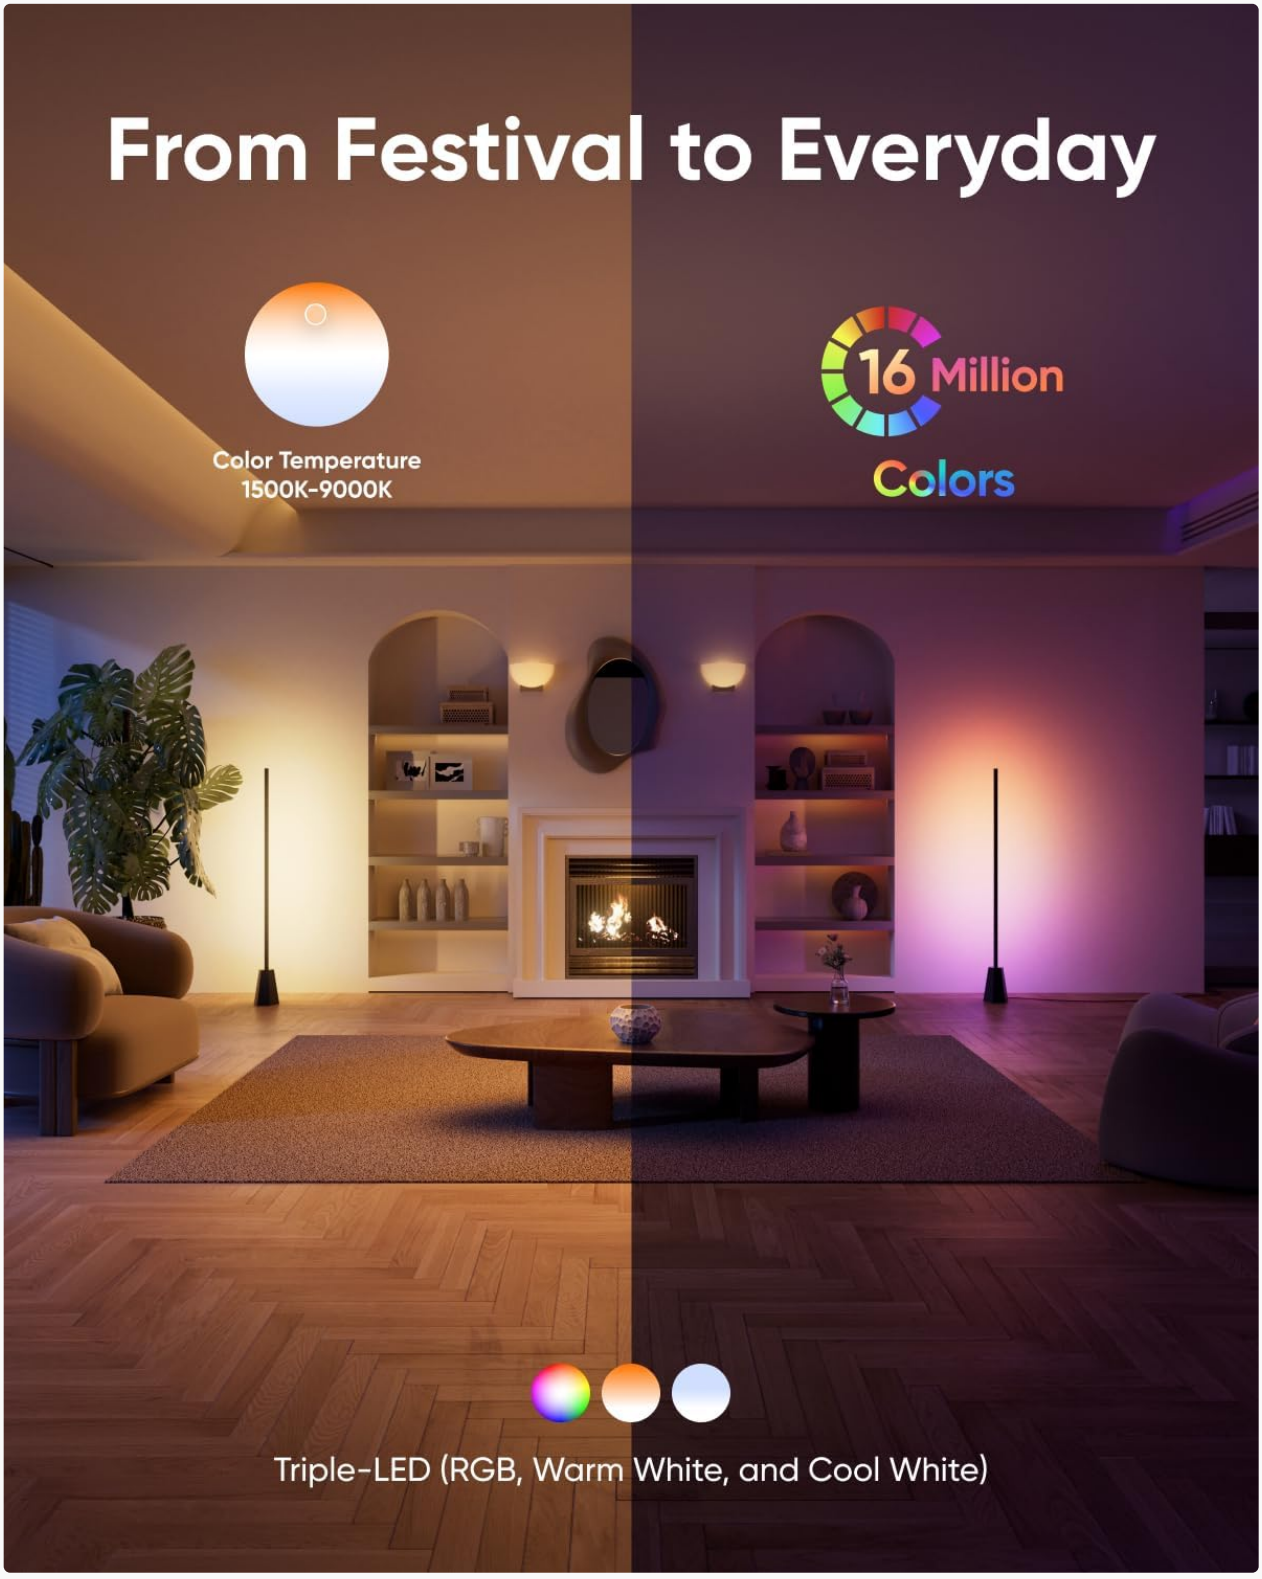

*Image: The eufy floor lamp illuminates a living room, showcasing its ability to produce 16 million colors and adjust color temperature from warm (1500K) to cool (9000K).*

*Image: Three eufy floor lamps demonstrate different white light color temperatures: 3000K for leisure time, 4000K for reading, and 6500K for working, highlighting the lamp's versatility.*

- **Smooth Color Transitions:** Powered by advanced algorithms and 12 independent control chips, the lamp ensures smooth color transitions and gradients.

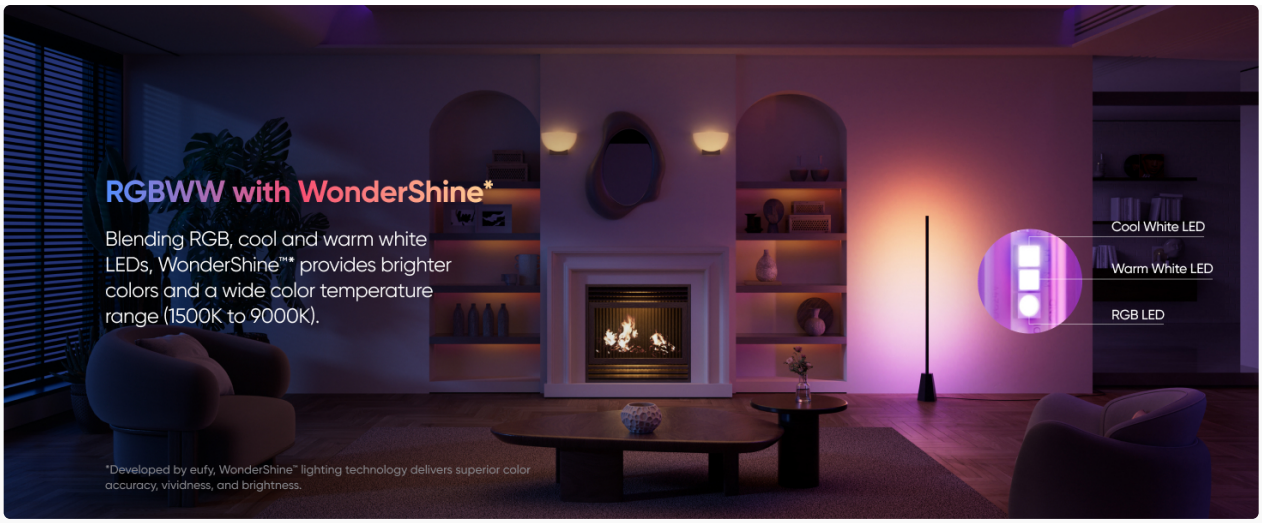

*Image: A close-up view of the eufy floor lamp's LED strip, illustrating the smooth and seamless color transitions achieved by its 72 LED groups and advanced algorithms.*

- **Preset Lighting Themes:** Choose from over 80 preset lighting themes for various moods and occasions.
- **Custom Patterns:** Create and save your own custom lighting patterns and scenes.
- **AI-Powered Lighting:** Utilize the AI feature to curate lighting themes based on your preferences, adapting to celebrations, moods, or special occasions.

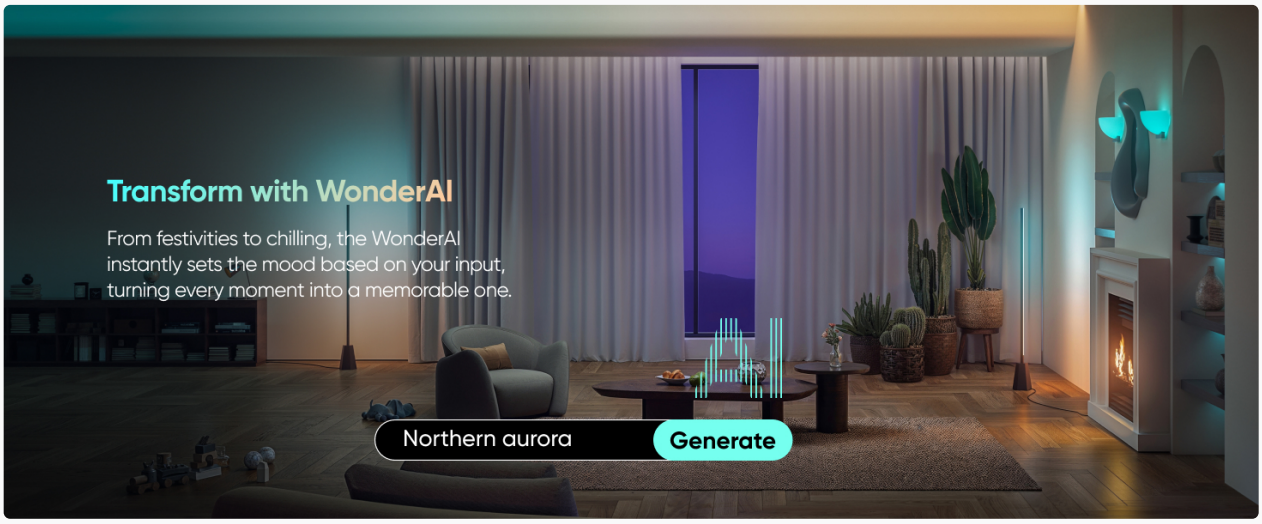

*Image: A living room illuminated by the eufy lamp, with an on-screen interface demonstrating the 'Transform with WonderAI' feature, allowing users to generate lighting themes based on input.*

- **Scheduling:** Set schedules for the lamp to turn on/off or change themes automatically.

*Image: A calendar display illustrating the 'Year-Long Illumination' feature, where users can auto-arrange lighting for daily use or special occasions throughout the year.*

## 4.3. Voice Control

The eufy Indoor Floor Lamp E10 is compatible with Amazon Alexa and Google Assistant for convenient hands-free control.

- **Connecting to Voice Assistants:** Follow the instructions in the eufy Life App to link your lamp with your Alexa or Google Assistant account.
- **Voice Commands:** Once linked, you can use commands such as:
  *"Alexa, turn on the floor lamp."*
  *"Hey Google, set the floor lamp to blue."*
  *"Alexa, dim the floor lamp to 50%."*

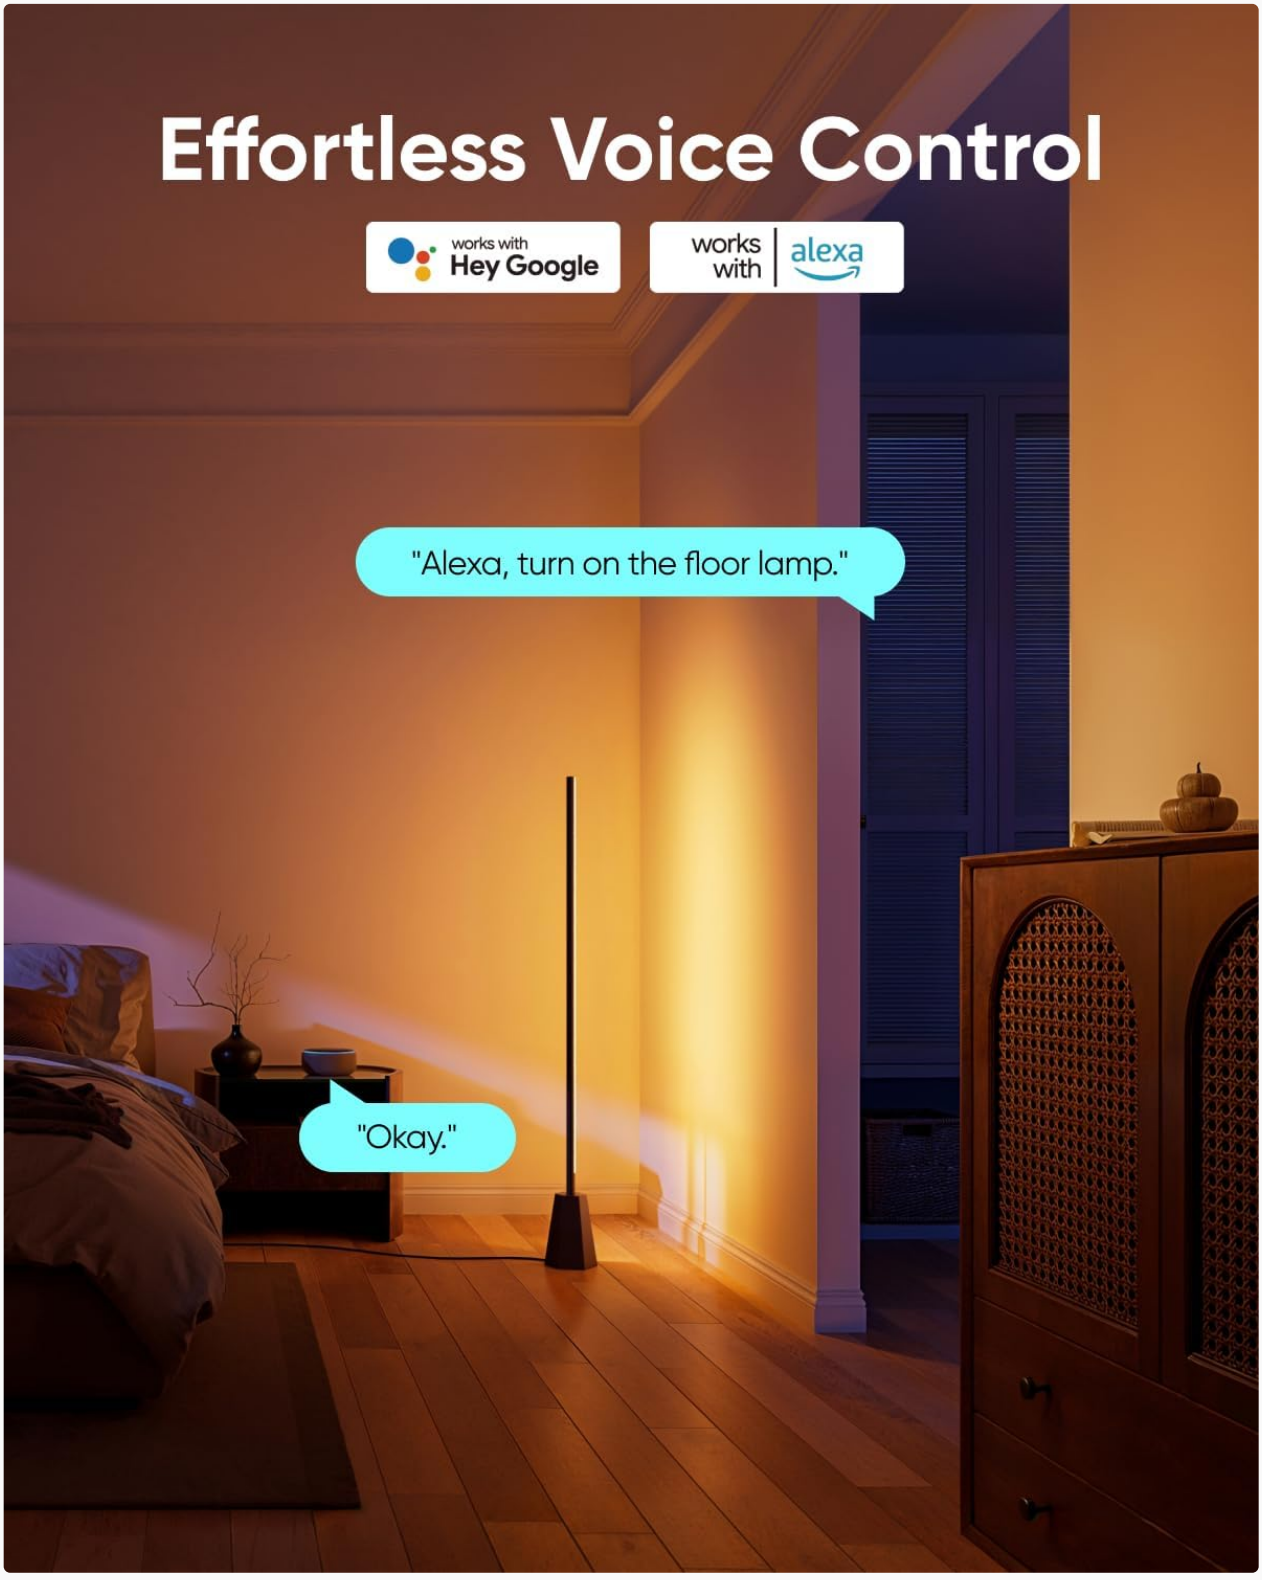

*Image: A bedroom scene featuring the eufy floor lamp, with speech bubbles indicating voice commands like "Alexa, turn on the floor lamp." and the response "Okay.", demonstrating effortless voice control.*

### 4.4. WonderLink Integration

The eufy Indoor Floor Lamp E10 supports WonderLink technology, allowing it to integrate with other eufy smart home devices, particularly eufy cameras, for enhanced security and lighting interactions.

- **Security Lighting:** Configure your lamp to respond to camera detections, such as turning on a 'Hello Halo Light' when someone approaches or a 'Stay Away Light' to deter intruders.

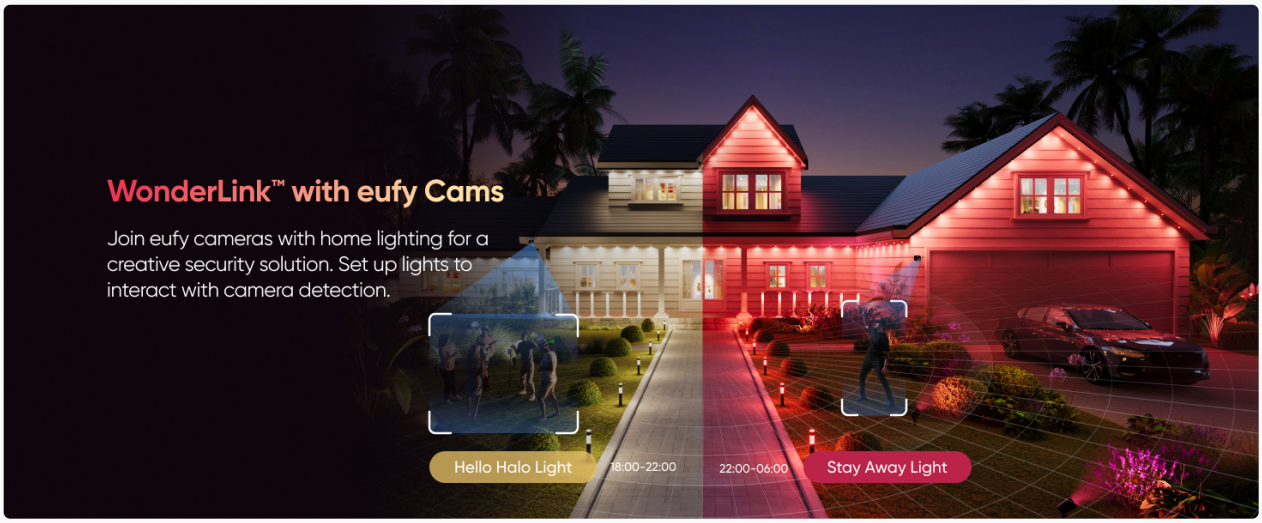

*Image: An illustration of a house exterior at night, demonstrating how eufy cameras and WonderLink-enabled lights can create 'Hello Halo Light' and 'Stay Away Light' zones for security and convenience.*

- Refer to the eufy Life App for detailed instructions on setting up WonderLink features with compatible devices.

## 5. Maintenance

To ensure the longevity and optimal performance of your eufy Indoor Floor Lamp E10, follow these maintenance guidelines:

- **Cleaning:** The lamp features a skin-friendly silicone light strip that resists dust and is easy to clean. Use a soft, dry cloth to wipe down the lamp pole and base. For stubborn marks, a slightly damp cloth can be used, followed by a dry cloth. Avoid abrasive cleaners or solvents.
- **Dust Removal:** Regularly dust the lamp to prevent accumulation, which can affect light output and appearance.
- **Stability Check:** Periodically check that the lamp base is stable and the pole connections are secure. The weighted, wobble-free base is designed to stay upright within 25 degrees, resisting accidental knocks.

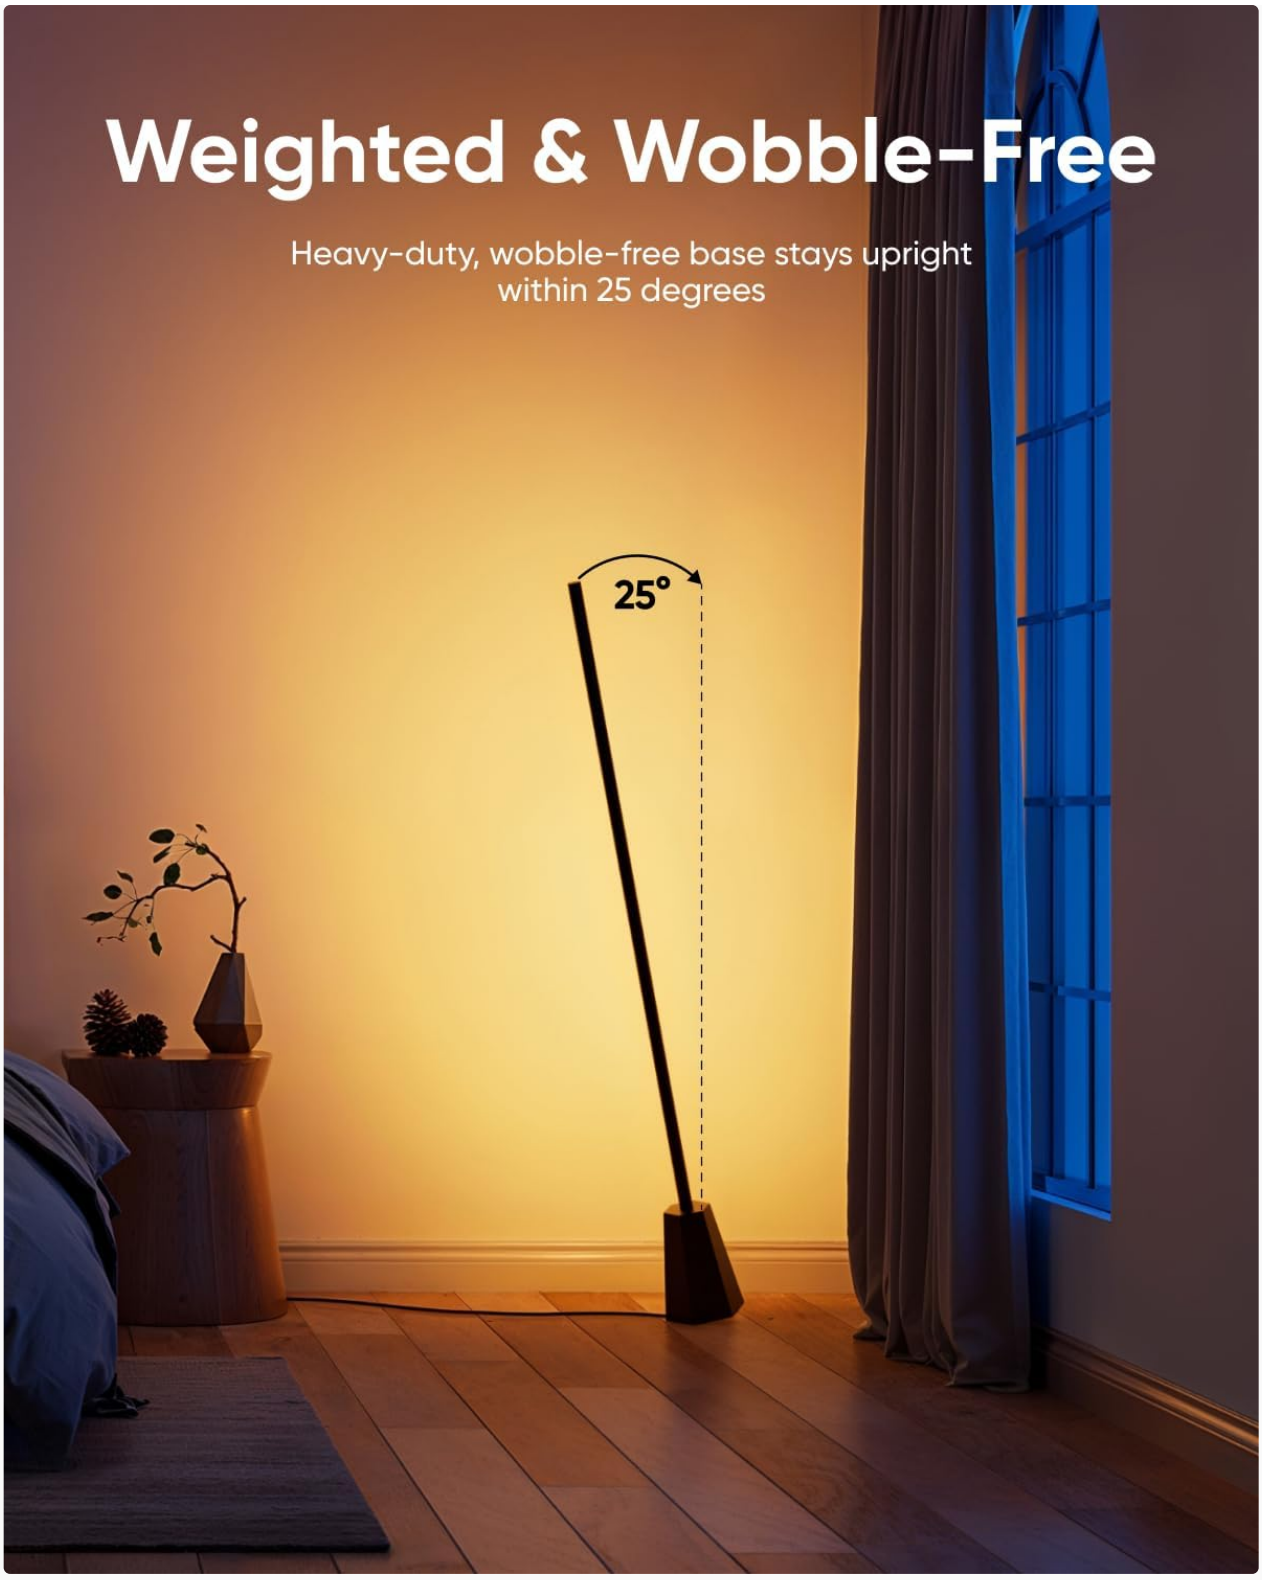

*Image: A bedroom setting with the eufy floor lamp shown tilted at a 25-degree angle, illustrating the stability provided by its heavy-duty, wobble-free base.*

- **Storage:** If storing the lamp for an extended period, disassemble it carefully and store it in its original packaging in a cool, dry place.

## 6. Troubleshooting

If you encounter issues with your eufy Indoor Floor Lamp E10, refer to the following common problems and solutions:

| Problem | Possible Cause | Solution |
| --- | --- | --- |

| Problem | Possible Cause | Solution |
|---|---|---|
| Lamp does not turn on. | No power connection. | Ensure the power adapter is securely plugged into the lamp and a working wall outlet. Check if the outlet has power. |
| Cannot connect to Wi-Fi or eufy Life App. | Incorrect Wi-Fi password; Lamp too far from router; Router issues. | Verify Wi-Fi password. Move the lamp closer to the router. Restart your Wi-Fi router. Ensure your phone is connected to a 2.4GHz Wi-Fi network during setup. |
| Voice control not working. | Not linked to Alexa/Google Assistant; Incorrect device name. | Ensure the lamp is correctly linked in the eufy Life App and the respective voice assistant app. Use the exact device name configured in the app. |
| Colors are not smooth or appear segmented. | Firmware outdated; App issue. | Check for firmware updates via the eufy Life App. Restart the app or reinstall it if necessary. |
| Lamp flickers or behaves erratically. | Power fluctuation; Internal fault. | Unplug the lamp for 30 seconds and plug it back in. If the issue persists, contact customer support. |

If the problem persists after trying these solutions, please contact eufy customer support for further assistance.
