**CuPiLo CPL-5530**

# **CuPiLo CPL-5530 Knee Massager with Heat User Manual**

Model: CPL-5530

## **1. INTRODUCTION**

---

Thank you for choosing the CuPiLo CPL-5530 Knee Massager with Heat. This device is designed to provide targeted relief for knee, elbow, and shoulder discomfort through a combination of heat and vibration therapy. Please read this manual thoroughly before use to ensure safe and effective operation.

## 2. IMPORTANT SAFETY INFORMATION

---

To reduce the risk of electric shock, burns, fire, or injury, always follow these basic safety precautions:

- Always follow manufacturer instructions and use the device for recommended durations.
- Consult a healthcare professional before use if you have any existing medical conditions, are pregnant, have a pacemaker, or have any concerns about using a massage device.
- Do not use the massager on swollen, inflamed, or injured skin areas.
- Do not use while sleeping or if you are drowsy.
- Keep out of reach of children.
- Do not disassemble or attempt to repair the device yourself. Contact customer support for assistance.
- Ensure the device is fully charged before initial use.
- The device features a 10-minute auto-shutoff and overheating protection for your safety.

**Disclaimer: Statements regarding this device have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition.**

## 3. PACKAGE CONTENTS

---

Please check the package for the following items:

- CuPiLo CPL-5530 Knee Massager Unit
- Adjustable Straps
- USB Charging Cable
- User Manual

## 4. PRODUCT OVERVIEW

---

### 4.1 Components

The CuPiLo CPL-5530 Knee Massager consists of the main unit with a control panel and adjustable straps for secure attachment.

# Soothing Heat Therapy

*Image 4.1: Detailed view of the control panel with buttons and indicators.*

## 4.2 Control Panel

The control panel features three simple buttons and an LED display for easy operation:

- **ON/OFF Button:** Powers the device on or off.
- **Vibration Button:** Cycles through three vibration modes (Pulse, Continuous, Rhythmic) and three intensity levels.
- **Heat Button:** Cycles through three heat levels (Low, Medium, High).
- **LED Display:** Shows current settings for vibration and heat.
- **Indicator Lights:** Provide visual prompts for battery status and selected functions.

## 5. SETUP

### 5.1 Charging the Device

1. Before first use, fully charge the massager using the provided USB charging cable.
2. Connect the USB cable to the charging port on the device and to a suitable USB power source (e.g., wall adapter, computer USB port).
3. The battery indicator lights will show the charging status. A full charge can provide up to 5 hours of operation.

## 5.2 Attaching the Massager

The ergonomic design and adjustable straps allow for comfortable and secure placement on various body parts.

1. Place the massager unit over the desired area (knee, elbow, or shoulder).
2. Secure the device using the adjustable straps, ensuring a snug but comfortable fit. The straps can extend to fit most users.

**The Ideal Gift  
For Your  
Loved One**

*Image 5.1: The massager's ergonomic design and adjustable straps for various body parts.*

## 6. OPERATING INSTRUCTIONS

Once the massager is securely attached and charged, you can begin your therapy session.

## 6.1 Power On/Off

- Press the **ON/OFF Button** to turn the device on. The LED display will illuminate.
- Press and hold the **ON/OFF Button** again to turn the device off.

## 6.2 Vibration Modes

The massager offers three distinct vibration modes and three intensity levels.

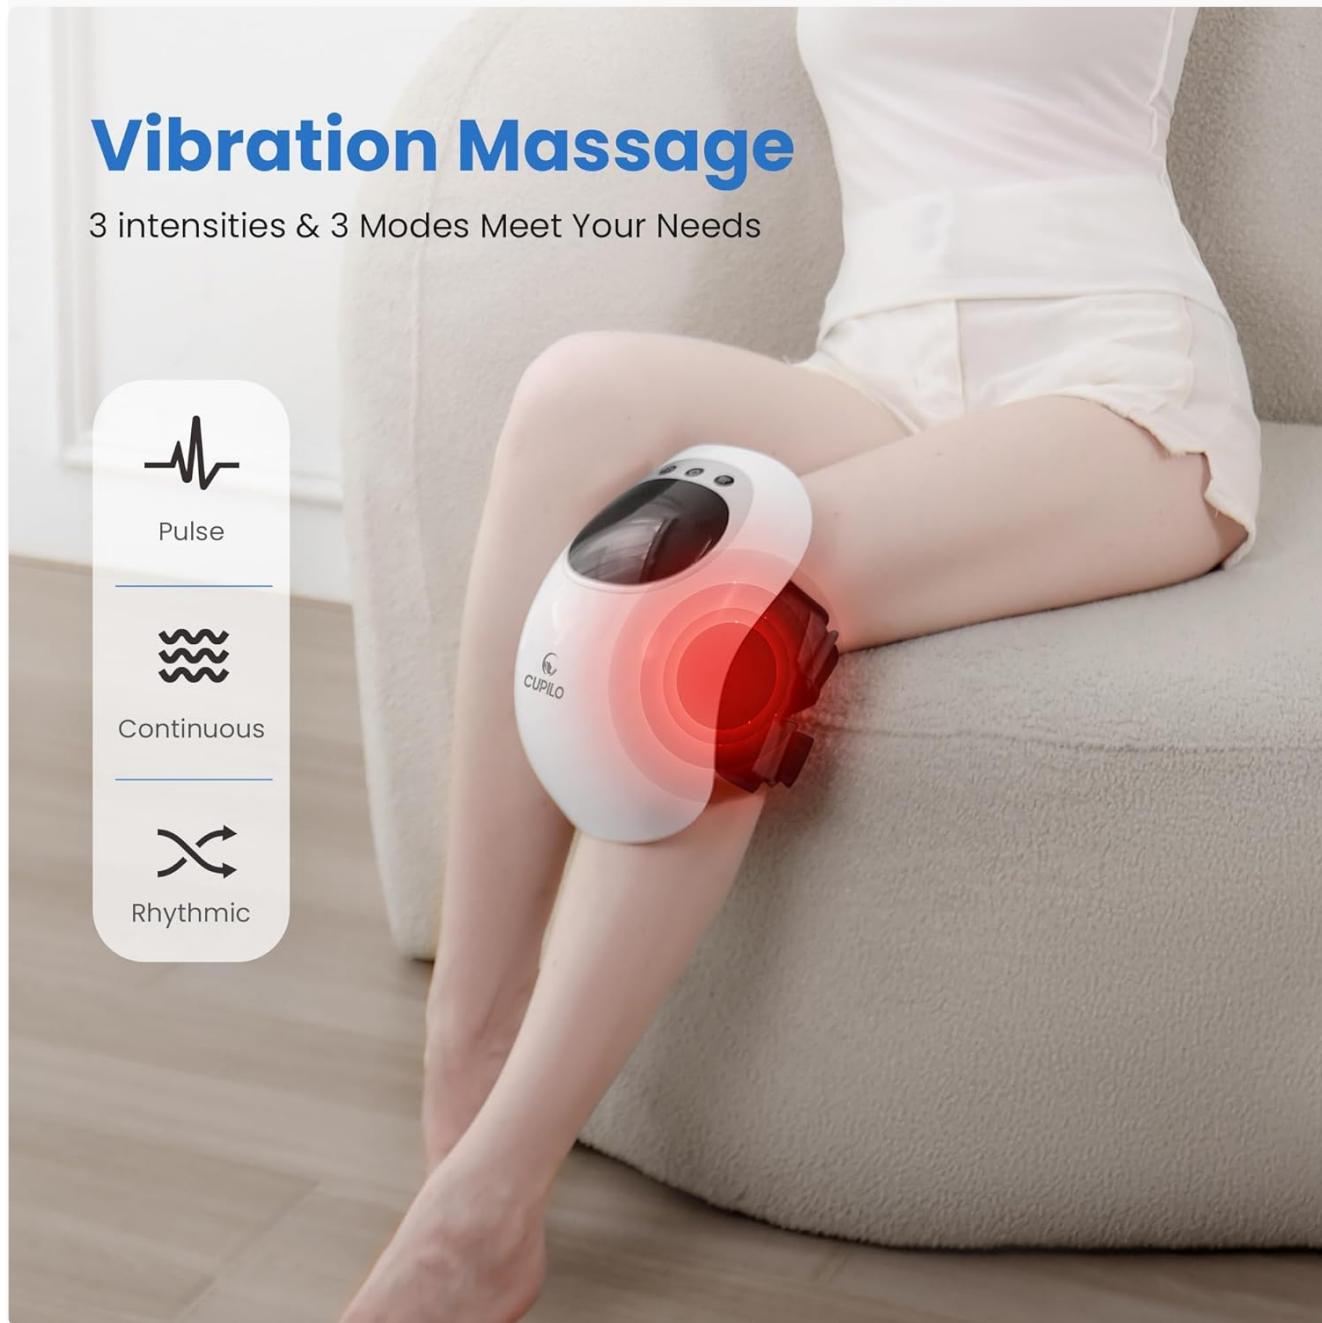

Image 6.1: The three vibration modes available: Pulse, Continuous, and Rhythmic.

- Press the **Vibration Button** repeatedly to cycle through the modes and intensities.
- The LED display will indicate the currently selected vibration mode and intensity.
- Choose from: **Pulse**, **Continuous**, or **Rhythmic** vibration, each with adjustable intensity.

## 6.3 Heat Levels

The device provides soothing heat therapy with three adjustable temperature settings.

# Red & Infrared Light Therapy

*Image 6.2: The three heat levels for customized comfort.*

- Press the **Heat Button** repeatedly to cycle through the heat levels.
- The LED display will show the selected heat level.
- Available heat levels: **Low (105°F)**, **Medium (122°F)**, **High (140°F)**.

## 6.4 Automatic Shut-off

For safety and to prevent overuse, the massager is equipped with a 10-minute automatic shut-off feature. The device will power off after 10 minutes of continuous operation. You can restart it if further use is desired.

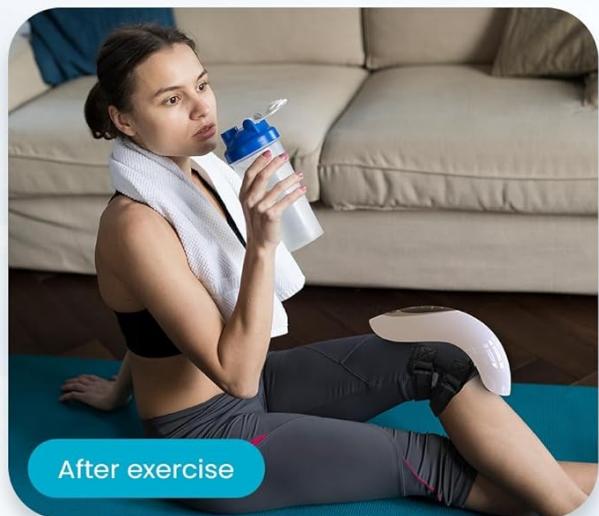

## 6.5 Usage Scenarios

The portable and cordless design allows for use in various settings:

# Enjoy Knee Relaxation Anywhere Anytime

2000mAh Battery

*Image 6.3: Examples of where the CuPiLo Knee Massager can be used.*

- At home on the sofa or bed.
- In the office during breaks.
- Post-workout for muscle recovery.
- While traveling.

## 7. MAINTENANCE

### 7.1 Cleaning

- Ensure the device is turned off and unplugged before cleaning.
- Wipe the surface of the massager with a soft, slightly damp cloth.
- Do not use abrasive cleaners, solvents, or immerse the device in water.
- Allow the device to air dry completely before storing or next use.

## 7.2 Storage

- Store the massager in a cool, dry place, away from direct sunlight and extreme temperatures.
- Keep the device and its accessories in its original packaging or a protective case to prevent damage.

## 8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on	Low battery or no charge	Charge the device fully. Ensure the charging cable is properly connected.
No heat or weak heat	Heat function not activated or set to low	Press the Heat Button to cycle through heat levels. Ensure the device is properly positioned.
Weak or no vibration	Vibration mode not activated or set to low intensity	Press the Vibration Button to cycle through modes and intensities.
Device shuts off unexpectedly	Automatic 10-minute shut-off or low battery	This is a normal safety feature. Restart the device if needed. If it happens frequently, recharge the battery.
