## POPETPOP C10PO2Q1B1VWL144H51MUKPZ

# POPETPOP LED Aquarium Light Clip-on Fish Tank Lamp User Manual

Model: C10PO2Q1B1VWL144H51MUKPZ

## INTRODUCTION

Thank you for choosing the POPETPOP LED Aquarium Light. This manual provides essential information for the safe and effective use of your new aquarium lamp. Please read these instructions carefully before installation and operation, and retain them for future reference.

Image: The POPETPOP LED Aquarium Light, featuring a flexible gooseneck, a circular LED head, an inline power switch, and a USB power cable with a clip for attachment.

## SAFETY INFORMATION

- Ensure the power source is compatible with the device's USB input (3W).
- Do not immerse the light head or USB connector in water. This product is not submersible.
- Keep out of reach of children.
- Disconnect power before performing any maintenance or cleaning.
- Do not attempt to disassemble or repair the unit yourself. Contact qualified personnel for service.
- Ensure the clip is securely attached to the aquarium wall to prevent accidental detachment.

## PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x POPETPOP LED Aquarium Lamp

Image: A detailed view of the light's components, showing the LED array, the USB plug, and the inline power switch.

## PRODUCT FEATURES

- **Durable Construction:** Made of plastic material, designed for wear resistance and safety in an aquatic environment.
- **Flexible Neck:** Allows for easy adjustment of light angle and position.
- **Secure Clip:** Designed for stable attachment to aquarium walls with a thickness between 2-5mm (0.08-0.2 inches).
- **Colorful LED Light:** Provides illumination that enhances fish colors and supports aquatic plant growth through comprehensive photosynthesis.

- **Compact Design:** Small and lightweight, minimizing space usage.

## ▶ SAFE

The material is safe and light

## ▶ PRACTICAL

practical for the lasting time use

## SETUP INSTRUCTIONS

1. **Unpack the Light:** Carefully remove the LED aquarium light from its packaging.
2. **Identify Mounting Location:** Choose a suitable location on the edge of your aquarium where the light can be securely clipped. Ensure the aquarium wall thickness is between 2-5mm.
3. **Attach the Clip:** Align the light's clip with the aquarium wall and press down firmly to secure it in place. Ensure it is stable and does not wobble.
4. **Position the Light:** Adjust the flexible neck to direct the light over your desired area of the aquarium.
5. **Connect Power:** Plug the USB connector into a compatible USB power adapter (not included) or a USB port on another device.

## OPERATING INSTRUCTIONS

1. **Power On:** Once the USB cable is connected to a power source, press the inline switch located on the cable to turn the light on.
2. **Adjust Position:** If needed, gently adjust the flexible neck to fine-tune the light's direction.
3. **Power Off:** Press the inline switch again to turn the light off.

## MAINTENANCE

- **Cleaning:** Disconnect the power before cleaning. Use a soft, dry cloth to wipe the light head and flexible neck. Do not use abrasive cleaners or immerse any part of the light in water.
- **Regular Inspection:** Periodically check the USB cable for any signs of damage or wear. Ensure the clip remains securely attached to the aquarium.

- **Storage:** If storing the light for an extended period, ensure it is clean and dry. Store in a cool, dry place away from direct sunlight.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on.	No power supply, loose USB connection, faulty switch.	<ul style="list-style-type: none"> <li>• Ensure the USB cable is securely plugged into a working USB power source.</li> <li>• Try a different USB power adapter or port.</li> <li>• Press the inline switch firmly.</li> </ul>
Light flickers.	Unstable power supply, loose connection.	<ul style="list-style-type: none"> <li>• Check USB connection for looseness.</li> <li>• Try a different USB power source.</li> </ul>
Light falls off the aquarium.	Improper clip attachment, aquarium wall too thick/thin.	<ul style="list-style-type: none"> <li>• Re-attach the clip, ensuring it is firmly secured.</li> <li>• Verify that your aquarium wall thickness is within the 2-5mm range.</li> </ul>

## SPECIFICATIONS

Feature	Detail
Model Number	C10PO2Q1B1VWL144H51MUKPZ
Brand	POPETPOP
Power	3W
Light Type	Colorful LED Light
Cable Length	1 meter (39.37 inches)
Material	Plastic
Product Dimensions	18.00cm L x 4.00cm W x 2.00cm H (7.09"L x 1.57"W x 0.79"H)
Suitable Aquarium Thickness	2-5mm (0.08-0.2 inches)
Item Weight	1.76 ounces (0.11 Pounds)
