Operating Instructions

Active Noise Cancellation (ANC)

The Space One Pro features adaptive active noise cancellation with a 4-step noise reduction system, effectively blocking out a wider range of sounds. Use the Soundcore app to switch between Noise Cancellation, Normal, and Transparency modes based on your environment.

Maintenance

Cleaning and Care

To maintain the performance and appearance of your headphones, wipe them regularly with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials. Note that these headphones are not water-resistant.

Storage

The Soundcore Space One Pro features a super foldable design for easy storage and portability. When not in use, fold the earcups inwards and store them in the provided storage pouch to protect them from dust and scratches.

TROUBLESHOOTING

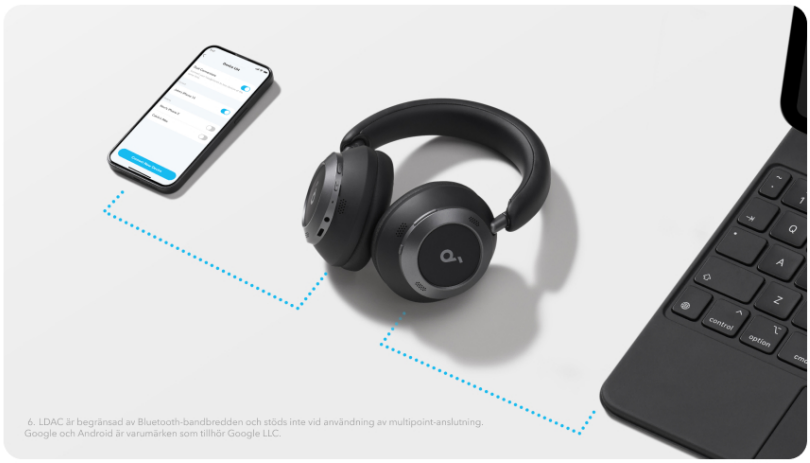

Common Issues and Solutions

- **No Power:** Ensure the headphones are fully charged. Connect them to a power source using the USB-C cable.

- **Cannot Pair:** Make sure Bluetooth is enabled on your device and the headphones are in pairing mode. Try turning Bluetooth off and on again on your device. If issues persist, try resetting the headphones (refer to the Soundcore app or online support for specific reset instructions).
- **Poor Sound Quality:** Check the audio source. Ensure the headphones are within the 15-meter operating range of your device. Adjust EQ settings in the Soundcore app. If using the AUX cable, ensure it is securely connected.
- **ANC Not Effective:** Ensure the earcups are properly sealed around your ears. Adjust ANC modes via the Soundcore app.
