

trifuns P01W

trifuns Automatic Pet Feeder P01W User Manual

Model: P01W

1. INTRODUCTION

The trifuns Automatic Pet Feeder P01W is a Wi-Fi enabled smart pet feeder designed to provide scheduled meals for your cat or dog. It features app control, dual power supply options, a voice recorder, and anti-clogging mechanisms to ensure reliable operation. This manual provides instructions for setting up, operating, maintaining, and troubleshooting your feeder.

2. SETUP

2.1 Unpacking and Components

Carefully remove all components from the packaging. Ensure the following items are present:

- Feeder Base
- Transparent Food Tank
- Lid
- Stainless Steel Bowl

- Bowl Tray
- USB-C Power Cord
- Power Adapter
- Desiccant Bag (pre-installed or separate)

2.2 Power Supply

The feeder supports dual power supply for continuous operation.

1. **AC Power:** Connect the USB-C power cord to the feeder and the power adapter to a wall outlet.
2. **Battery Backup:** For uninterrupted feeding during power outages, install three (3) D-size batteries (not included) into the battery compartment located at the bottom of the feeder. It is recommended to use both AC power and battery backup.

Image 2.1: Illustration of the dual power supply options, including AC adapter connection and D-size battery installation for backup.

2.3 Assembly

1. Place the feeder base on a flat, stable surface.
2. Insert the transparent food tank onto the feeder base, ensuring it is securely seated.
3. Place the bowl tray onto the designated slot at the front of the feeder base.
4. Place the stainless steel bowl into the bowl tray.
5. Fill the food tank with dry pet food. The feeder has a 4-liter capacity.
6. Secure the lid onto the food tank. Ensure it is twisted to lock for airtight storage.

Hold up to 4L Food

Up to 2 weeks of Feeding

Image 2.2: The feeder's 4-liter capacity, capable of holding sufficient dry food for extended periods.

2.4 App Installation and Wi-Fi Connection

The feeder requires a 2.4GHz Wi-Fi network for app control.

1. Download the companion app from your smartphone's app store (search for "trifuns" or refer to the QR code in the quick start guide).
2. Register or log in to your account.
3. Follow the in-app instructions to add your device. This typically involves putting the feeder into pairing mode and

connecting it to your 2.4GHz Wi-Fi network.

3. OPERATION

3.1 Setting Feeding Schedule

Use the mobile app to customize your pet's feeding schedule.

- You can set up to 10 meals per day.
- Each meal can be configured with 1 to 30 portions.
- Each portion dispenses approximately 8-10 grams of dry food.
- The feeder is compatible with dry kibble sizes between 2mm and 15mm.

Scheduled Meals Everyday

Feed your Pet Easily with Smart App

1-10 meals

1-30 portions

2-15mm

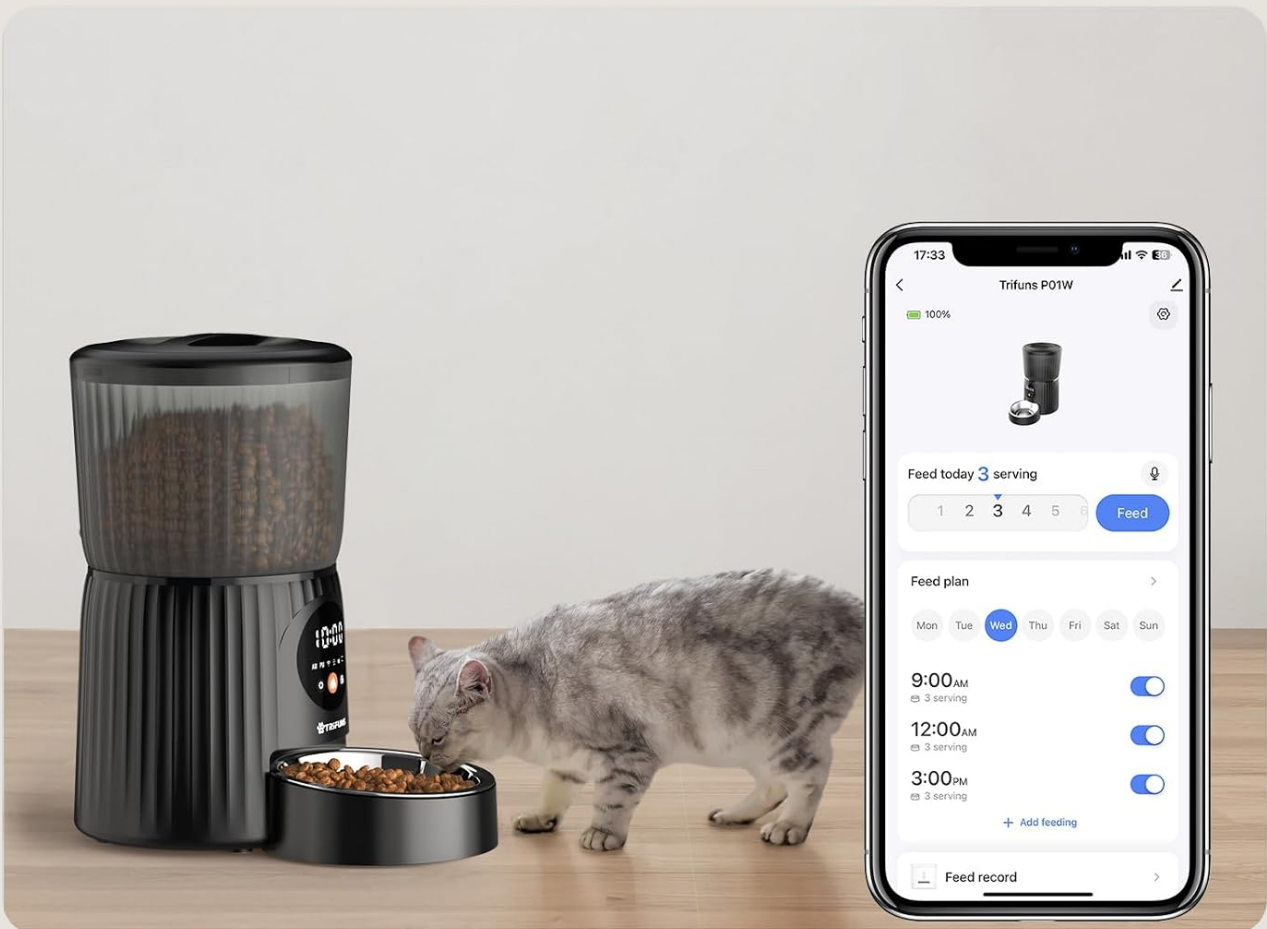

Image 3.1: The mobile application interface for setting daily feeding schedules, including meal times and portion sizes.

3.2 Voice Recording

Record a personalized voice message (up to 10 seconds) through the app. This message will play during meal times to call your pet to eat.

Image 3.2: Recording a custom voice message via the app to alert pets at mealtime.

3.3 Slow Feed Mode

Activate the Slow Feed Mode in the app to dispense food gradually. This mode allows you to set an interval time per portion from 1 to 10 minutes, helping to prevent pets from eating too quickly and promoting better digestion.

Stop Overeating with Slow Feed Mode

Set Interval Time Per Portion from 0-10mins

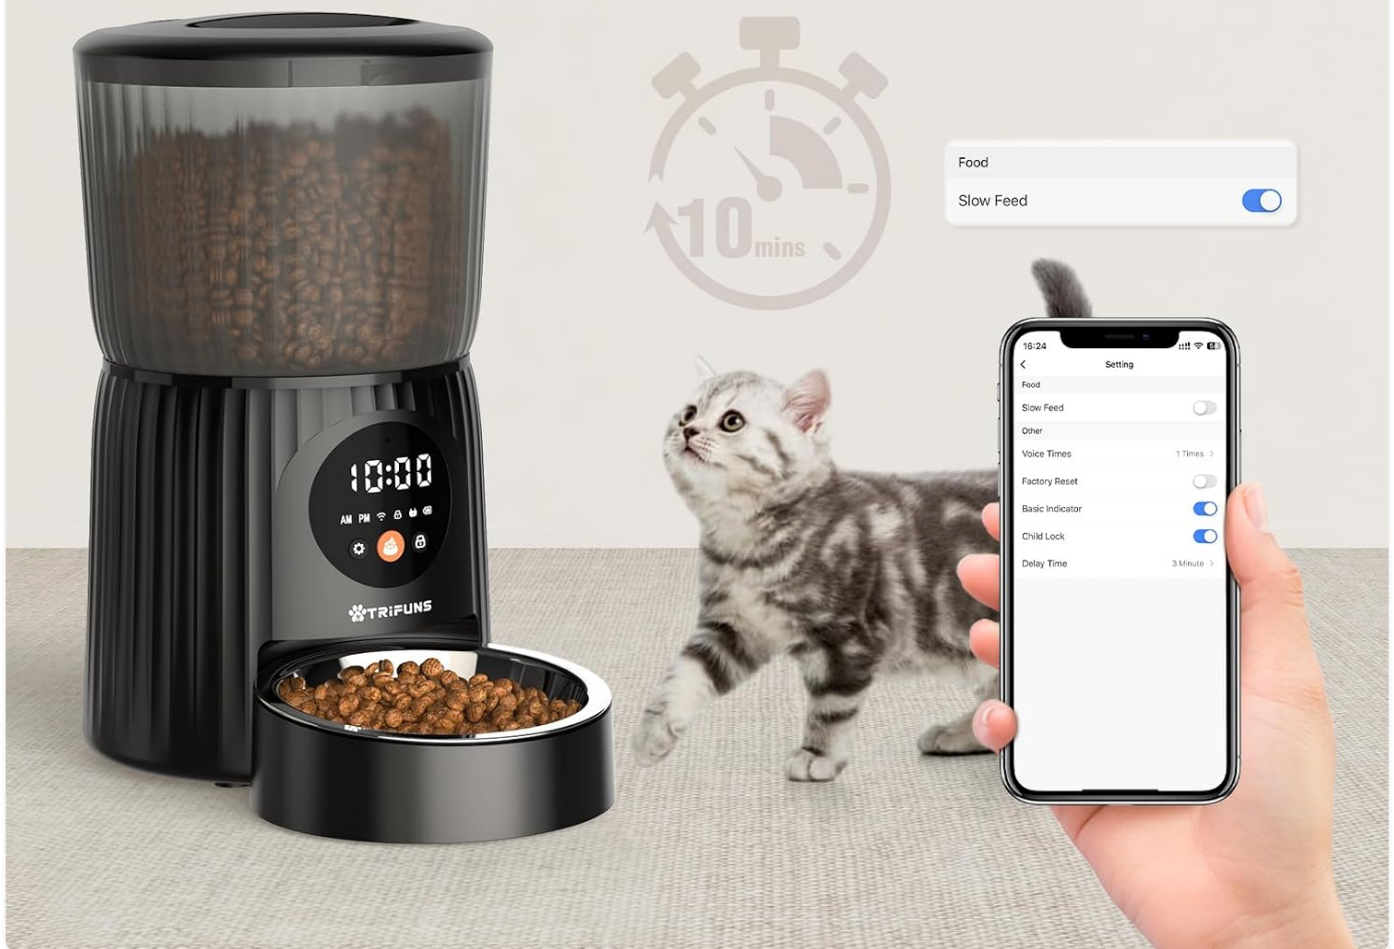

Image 3.3: The Slow Feed Mode setting within the app, designed to regulate feeding speed.

3.4 Manual Feeding

You can manually dispense food at any time using the app. Look for the 'Feed Now' or similar option within the app interface.

4. MAINTENANCE

4.1 Cleaning

Regular cleaning ensures hygiene and proper functioning of the feeder.

- The food tank, lid, bowl tray, and stainless steel bowl are removable and can be hand washed with mild soap and water. Rinse thoroughly and dry completely before reassembly.
- **Important: Do not wash the feeder base.** The base contains electronic components. Wipe the exterior of the base with a clean, damp cloth.

Easy to Clean

Note: Do Not Wash the Base

Image 4.1: Removable components of the feeder, such as the lid, food tank, and bowl, are designed for easy hand washing.

4.2 Desiccant Bag Replacement

The feeder includes a desiccant bag to keep the dry food fresh. Replace the desiccant bag periodically (e.g., every 1-2 months) to maintain optimal food freshness. The desiccant bag is typically located in the lid or a dedicated compartment.

5. TROUBLESHOOTING

- **Food Not Dispensing:**
 - Check if the feeder is powered on and connected to AC power or has charged batteries.
 - Verify the food tank is not empty.
 - Check for food jams in the dispenser mechanism. The feeder has an infrared anti-blocking detector and a reversible rotor to prevent clogging. If a jam occurs, the app may send an alert.
- **Wi-Fi Connection Issues:**

- Ensure your Wi-Fi network is 2.4GHz. The feeder does not support 5GHz networks.
- Check your Wi-Fi signal strength. Move the feeder closer to your router if necessary.
- Restart your router and the feeder, then attempt to reconnect via the app.

- **App Not Responding:**

- Ensure your smartphone has a stable internet connection.
- Close and reopen the app.
- Check for app updates in your app store.

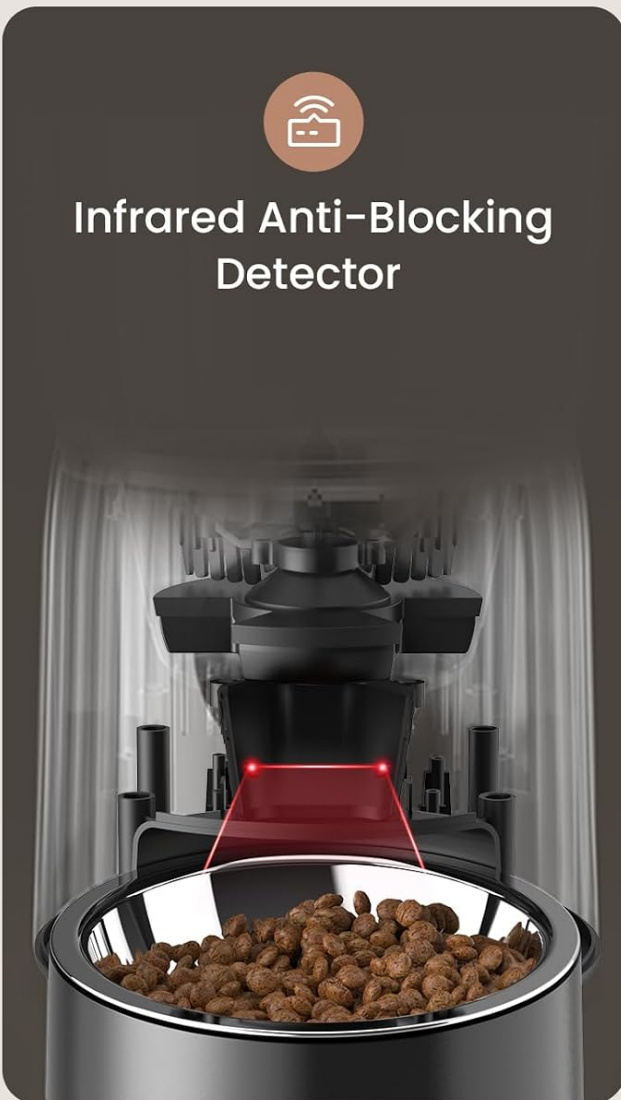

- **Voice Recording Not Playing:**

- Ensure the voice recording feature is enabled in the app settings.
- Verify the volume setting on the feeder (if adjustable) or within the app.

Kibble Never Get Stuck Inside

Infrared Anti-Blocking Detector

Smart APP Anti-clog Alert

* Recommended kibble size under 15mm/0.6in
