

ANVIL TSA23021

ANVIL TSA Approved Luggage Locks Model TSA23021 Instruction Manual

High Security TSA008 Combination Travel Locks with Inspection Indicator

1. PRODUCT OVERVIEW

The ANVIL TSA Approved Luggage Lock (Model TSA23021) provides enhanced security for your belongings during travel. Featuring an industry-leading TSA008 core, this lock is designed to prevent unauthorized access while allowing TSA agents to inspect your luggage without damage. Its robust zinc alloy casing ensures maximum protection and durability.

Key features include:

- **Enhanced Security:** Utilizes the advanced TSA008 core.
- **Robust Construction:** Made with a sturdy zinc alloy casing.
- **Search Alert:** Notifies you if TSA agents have opened your luggage.
- **Easy-to-Set Combination:** Simple and quick personal code setup.
- **Versatile Design:** Suitable for various luggage types, including suitcases, gun cases, and backpacks.

2. SETTING YOUR COMBINATION

Follow these steps to set your personal combination code:

1. Ensure the lock is set to the default code, which is **0-0-0**.
2. With the default code set, push the silver button to open the lock.
3. Locate the small switch on the side or back of the lock (often requiring a pen tip to move). Flip this switch to the **right**.
4. Rotate the dials to your desired three-digit combination. Choose a memorable number.
5. Flip the switch back to the **left** to secure your new code.
6. Scramble the dials to lock the device. Test your new combination to ensure it opens correctly.

3. OPERATING INSTRUCTIONS

To open the lock, align the dials to your set combination and press the silver button. To secure your luggage, thread the cable through the zipper pulls or attachment points and insert the cable end back into the lock body until it clicks. Scramble the dials to lock it.

TSA Inspection Indicator (Search Alert)

Your ANVIL lock features a unique Search Alert indicator. If a TSA agent opens your lock using their master key, a small red dot will pop up on the top of the lock. This visually confirms that your luggage has been inspected by the TSA, providing peace of mind.

POP-UP INSPECTION INDICATOR

Immediately know if the TSA has opened your luggage.

Opened: Red dot will pop out

Not opened: Red dot remains hidden

This lock is operated by a combination. The keyhole is for TSA agents who use a master key to open the lock.

4. CARE AND MAINTENANCE

To ensure the longevity and smooth operation of your ANVIL luggage lock, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the lock periodically with a soft, dry cloth to remove dust and grime. Avoid using abrasive cleaners or solvents, as these can damage the finish and internal mechanisms.
- **Lubrication:** If the dials become stiff, apply a small amount of graphite lubricant or a silicone-based spray to the moving parts. Do not use oil-based lubricants, which can attract dirt.
- **Storage:** Store the lock in a dry environment when not in use. Avoid extreme temperatures or humidity.
- **Avoid Force:** Never force the dials or the shackle. If the lock is difficult to operate, recheck your combination or apply lubricant.

5. TROUBLESHOOTING COMMON ISSUES

If you encounter any issues with your ANVIL luggage lock, refer to the following common problems and solutions:

- **Lock Will Not Open:**
 - Double-check that you have entered the correct combination. Ensure each number is precisely aligned.
 - If you have recently changed the combination, try the old one in case the new one was not set correctly.
 - Ensure the cable is fully inserted into the lock body.
- **Dials Are Stiff or Hard to Turn:**
 - Apply a small amount of graphite powder or silicone spray lubricant to the dials.
 - Clean any visible dirt or debris from around the dials.
- **Forgotten Combination:**
 - Unfortunately, if you have forgotten your combination and did not record it, there is no master reset function

for personal combinations. The lock cannot be opened without the correct code or a TSA master key (for TSA agents only).

If these steps do not resolve your issue, please contact customer support.
