## Puig 20500F

# Puig GTS Sport Windshield Instruction Manual

For Piaggio Vespa GTS 125 (2007-2023) and Vespa GTS 300 (2008-2023)

## INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Puig GTS Sport Windshield. Please read this manual thoroughly before installation and use to ensure proper function and safety. This windshield is designed to enhance the riding experience by offering improved wind protection.

## PACKAGE CONTENTS

Verify that all components are present before beginning installation.

- 1x Puig GTS Sport Windshield (Dark Smoke)
- Mounting Brackets (specific to Vespa GTS models)
- Hardware Kit (screws, washers, spacers, nuts)

Image: All components included with the Puig GTS Sport Windshield, showing the dark smoke windshield, black mounting brackets, and various screws, washers, and spacers.

## SETUP AND INSTALLATION

---

Installation should be performed by a qualified technician if you are unfamiliar with motorcycle accessory installation. Ensure the scooter is stable and turned off before starting.

- 1. Prepare the Scooter:** Park the scooter on a level surface using its center stand. Ensure the engine is off and cool.
- 2. Identify Mounting Points:** Locate the designated mounting points on your Vespa GTS 125 or GTS 300. These are typically near the handlebar or headlight assembly. Refer to your scooter's service manual for exact locations if needed.
- 3. Attach Brackets:** Secure the provided mounting brackets to the scooter's frame using the appropriate screws and washers from the hardware kit. Do not fully tighten at this stage.
- 4. Position Windshield:** Carefully align the Puig GTS Sport Windshield with the attached mounting brackets.
- 5. Secure Windshield:** Attach the windshield to the brackets using the remaining hardware. Ensure the windshield is centered and level.
- 6. Final Tightening:** Once the windshield is correctly positioned, progressively tighten all screws and bolts. Do not overtighten, as this can damage the components.
- 7. Inspect:** After installation, gently shake the windshield to ensure it is securely mounted and does not have excessive play.

## USAGE CONSIDERATIONS

---

The Puig GTS Sport Windshield is designed for improved aerodynamics and wind protection. Consider the following for optimal use:

- **Visibility:** Ensure the windshield does not obstruct your line of sight. Always maintain clear visibility, especially in varying weather conditions.
- **Weather Conditions:** While providing protection, extreme weather conditions (heavy rain, strong winds) may still affect riding stability and visibility. Exercise caution.
- **Speed:** The windshield is designed for typical scooter speeds. Always adhere to local speed limits and ride responsibly.

## MAINTENANCE

---

Proper maintenance will extend the life and clarity of your windshield.

- **Cleaning:** Clean the windshield regularly with a soft cloth and mild soap and water. Avoid abrasive cleaners, solvents, or harsh chemicals, as these can damage the acrylic material.
- **Inspection:** Periodically check all mounting hardware for tightness. Vibrations during riding can cause fasteners to loosen over time.
- **Damage:** Inspect the windshield for cracks or deep scratches. Significant damage may compromise its structural integrity and should be addressed.

## TROUBLESHOOTING

---

If you encounter issues with your windshield, consider the following:

- **Vibration:** If the windshield vibrates excessively, check all mounting bolts and screws for proper tightness. Ensure no components are loose.
- **Reduced Visibility:** Ensure the windshield is clean. If scratches or hazing are present, consider professional polishing or replacement if visibility is significantly impaired.
- **Loose Fit:** Re-tighten all mounting hardware. If the issue persists, inspect brackets for damage or deformation.

## SPECIFICATIONS

---

Feature	Detail
Model	WINDSHIELD GTS SPORT
Manufacturer Part Number	20500F
Brand	Puig
Color	DARK SMOKE
Material	High-end CN Acrylic
Auto Part Position	Front
Number of Pieces	1 (windshield) + mounting hardware
Item Weight	1.98 pounds (approx.)
Package Dimensions	14.76 x 12.79 x 3.74 inches (approx.)

## **WARRANTY AND SUPPORT**

---

For information regarding product warranty, please refer to the documentation provided at the time of purchase or contact your retailer. For technical support or inquiries, please visit the official Puig website or contact their customer service department.
