Ediliow M1S

Ediliow 380W 8-Port USB C Charging Station M1S User Manual

Model: M1S | Brand: Ediliow

INTRODUCTION

Thank you for choosing the Ediliow 380W 8-Port USB C Charging Station. This device is designed to provide a powerful and efficient charging solution for multiple devices simultaneously. Featuring advanced GaN III chip technology, it offers high energy efficiency, reduced size, and enhanced heat dissipation for safer and faster charging. This manual provides essential information for the proper setup, operation, and maintenance of your charging station.

PRODUCT OVERVIEW

The Ediliow 380W 8-Port USB C Charging Station is equipped with a total of 8 charging ports: 5 USB-C ports and 3 USB-A ports. It intelligently distributes power to ensure optimal charging for all connected devices.

- **Dual 100W USB-C Ports (USB-C1/C2):** Ideal for charging high-power devices such as laptops (MacBook Pro/Air, Dell XPS, Microsoft Surface) and tablets (iPad Pro).
- **Three 30W USB-C Ports (USB-C3/C4/C5):** Suitable for fast charging smartphones, smaller tablets, and other USB-C powered accessories.
- **Three 30W USB-A Ports (USB-A1/A2/A3):** For charging a wide range of USB-A compatible devices.

The integrated GaN III chip technology ensures efficient power delivery while maintaining a compact form factor and superior heat management.

Image: Diagram illustrating the GaN III chip technology, highlighting its benefits like over-voltage protection, over-current protection, higher efficiency, and upgraded heat dissipation.

SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Connect Power:** Plug the provided 5ft power cord into the charging station and then into a standard 100-240V AC wall outlet.
3. **Connect Devices:** Use the appropriate USB cables (USB-C to USB-C, USB-C to USB-A, etc.) to connect your devices to the desired charging ports on the station.
4. **Verify Connection:** Ensure all cables are securely connected. The charging station will automatically detect and distribute power to your devices.

OPERATING INSTRUCTIONS

The Ediliow 380W Charging Station is designed for ease of use. Simply plug in your devices, and the smart GaN III chip will manage power distribution efficiently.

- **Automatic Power Distribution:** The charging station automatically detects the power requirements of each connected device and delivers the optimal charging current.
- **Simultaneous Charging:** Charge up to 8 devices concurrently, including laptops, smartphones, tablets, and other USB-powered gadgets.
- **High-Speed Charging:** Utilize the 100W USB-C ports for rapid charging of power-hungry devices like laptops, significantly reducing charging times.
- **Universal Compatibility:** Compatible with a wide range of devices, including iPhone 11-17 series, iPad Pro/Air/Mini, MacBook Pro/Air, Dell XPS, Microsoft Surface, Samsung Galaxy S series, Google Pixel, Steam Deck, and more.

100W PD Charging for Laptops

MAINTENANCE

- **Cleaning:** Disconnect the charging station from the power outlet before cleaning. Use a soft, dry cloth to wipe the exterior. Avoid using liquid cleaners or abrasive materials.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Management:** Keep cables organized to prevent tangling and damage. Avoid bending cables sharply.

TROUBLESHOOTING

- **Device Not Charging:**
 - Ensure the charging station is properly plugged into a live power outlet.
 - Check if the charging cable is securely connected to both the device and the charging station.
 - Try a different port or cable to rule out a faulty connection.
 - Verify that your device is compatible with the charging port's output specifications.
- **Slow Charging:**

- Ensure you are using the correct port for your device (e.g., 100W USB-C for laptops).
 - Check the quality of your charging cable; low-quality cables can restrict charging speed.
 - The charging station intelligently distributes power. If many high-power devices are connected, individual port output might be adjusted.
- **Overheating:**
- The GaN III technology provides efficient heat dissipation, but ensure the charging station is placed in a well-ventilated area.
 - Avoid covering the charging station during operation.

SPECIFICATIONS

Feature	Detail
Brand	Ediliow
Model Number	M1S
Total Power Output	380W
USB-C Ports	5 (2x 100W, 3x 30W)
USB-A Ports	3 (30W each)
Input Voltage	100-240V (AC)
Technology	GaN III Chip
Special Feature	Fast Charging, Multi-Protection System
Form Factor	Desktop

WHAT'S IN THE BOX

- 1x Ediliow 380W 8-Port USB C Charging Station
- 1x 3.3ft 100W USB C Braided Cable
- 2x 3.3ft USB C to C Cables
- 1x 6.6ft USB C to C Cable
- 1x 5ft Power Cord
- 1x User Manual

Equipped with 4 Fast Charging Cables

Includes 4 USB Cable

Free

Braided Charging Cable

USB C Fast Charger speed

Copperwire technology
