onerbl IGS0-20

onerbl AC Adapter User Manual

For Golumup Hydroponics Growing System IGS0-20 / IGS020

1. Introduction

This manual provides essential instructions for the safe and effective use of your onerbl AC Adapter. This adapter is designed to be compatible with the Golumup Hydroponics Growing System 12 Pods Indoor Herb Garden Kit, specifically models IGS0-20 and IGS020, which utilize 26W LED Grow Lights. Please read this manual thoroughly before use and retain it for future reference.

2. Safety Information

To ensure safe operation and prevent damage, observe the following precautions:

- **Over Voltage Protection (OVP):** The adapter is equipped with OVP to prevent damage from excessive output voltage.
- **Over Current Protection (OCP):** OCP safeguards against damage caused by excessive output current.
- **Short Circuit Protection (SCP):** SCP protects the adapter and connected device from short-circuit conditions.
- **Over Heat Protection:** The adapter includes protection against overheating during operation.
- Ensure the adapter is used within its specified input voltage range (100-240VAC, 50/60Hz).
- Do not expose the adapter to water, moisture, or extreme temperatures.
- Avoid dropping or subjecting the adapter to severe impact.
- Do not attempt to disassemble or modify the adapter.
- Keep out of reach of children.

4. Setup

1. **Verify Compatibility:** Ensure your device, such as the Golumup Hydroponics Growing System (models IGS0-20 or IGS020), requires a 26W AC adapter with the specified input/output.
2. **Connect to Device:** Insert the barrel connector of the onerbl AC Adapter firmly into the power input port of your hydroponics growing system.
3. **Connect to Power Outlet:** Plug the AC adapter's two-prong plug into a standard wall power outlet (100-240VAC, 50/60Hz).
4. **Power On:** Once connected, your device should receive power. Refer to your device's manual for specific power-on procedures.

5. Operating Instructions

The onerbl AC Adapter operates automatically once connected to a power source and a compatible device. It provides continuous power as long as it is plugged in and functioning correctly.

- Ensure all connections are secure before operating your device.
- The adapter is designed for continuous use within its specified operating parameters.
- If the adapter feels excessively hot to the touch, disconnect it immediately and allow it to cool.

6. Maintenance

Proper maintenance ensures the longevity and safe operation of your AC adapter.

- **Cleaning:** Disconnect the adapter from the power outlet and the device before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or solvents.

- **Storage:** When not in use, store the adapter in a cool, dry place, away from direct sunlight and moisture. Avoid tightly coiling the cable to prevent damage.
- **Inspection:** Periodically inspect the adapter and cable for any signs of damage, such as frayed wires, cracked casing, or bent pins. If damage is observed, discontinue use and replace the adapter.

7. Troubleshooting

If you encounter issues with your onerbl AC Adapter, refer to the following common problems and solutions:

- **No Power to Device:**
  - Ensure the adapter is securely plugged into both the wall outlet and the device.
  - Check if the wall outlet is functional by plugging in another device.
  - Verify that the device itself is powered on and functioning correctly.
  - Inspect the adapter cable for any visible damage.
- **Adapter is Hot:**
  - A slight warmth is normal during operation. If the adapter is excessively hot, disconnect it immediately.
  - Ensure adequate ventilation around the adapter; do not cover it.
  - Verify that the connected device is compatible and not drawing excessive power.
- **Device Not Charging/Operating Correctly:**
  - Confirm that the adapter's specifications (voltage, wattage) match your device's requirements.
  - Ensure the connection to the device is firm and the barrel connector is fully inserted.
  - If the issue persists, the device itself may have a fault.

If troubleshooting steps do not resolve the issue, please contact customer support.

8. Specifications

Brand	onerbl
Compatible Devices	Golumup Hydroponics Growing System IGS0-20, IGS020
Input Voltage	100-240VAC, 50/60Hz (Worldwide AC Input)
Wattage	26 Watts
Power Source	Corded Electric
Main Power Connector Type	2 Pin (US Standard)
Cable Length	Approximately 76 inches (6.3 feet)
Protection Features	OVP (Over Voltage Protection), OCP (Over Current Protection), SCP (Short Circuit Protection), Over Heat Protection

9. Warranty and Support

For warranty information or technical support, please refer to the documentation provided with your purchase or contact the seller directly. Keep your purchase receipt as proof of purchase.
