AKIRES 36f85b45-e7ce-47e7-8302-ff1f64996f56

AKIRES Portable Evaporative Air Cooler User Manual

Model: 36f85b45-e7ce-47e7-8302-ff1f64996f56 | Brand: AKIRES

1. IMPORTANT SAFETY INSTRUCTIONS

- Read all instructions before using the appliance.
- Do not operate the unit with a damaged cord or plug.
- Ensure the power supply matches the voltage specified on the rating label.
- Always unplug the unit before cleaning, servicing, or moving.
- Do not immerse the unit, plug, or cord in water or other liquids.
- Keep the unit out of reach of children and pets.
- Place the unit on a stable, level surface.
- Do not block air inlets or outlets.
- Use only clean water in the water tank.
- Do not use the cooling function without water in the tank.

2. PRODUCT OVERVIEW

The AKIRES Portable Evaporative Air Cooler is a versatile 3-in-1 device functioning as a fan, humidifier, and air cooler. It is designed for indoor use, providing efficient cooling and humidification for areas up to 600 square feet.

Key Features:

- **3-in-1 Functionality:** Fan, Humidifier, and Air Cooler.
- **Large Water Tank:** 4.2-gallon capacity for extended operation.

- **Ice Packs:** Includes 4 ice packs for enhanced cooling.
- **Oscillation:** 100° automatic oscillation for wide air coverage.
- **Timer:** 1-12 hour timer for scheduled operation.
- **Control:** Remote control and touch panel for convenient operation.
- **Portability:** Equipped with 4 universal wheels for easy movement.
- **Modes:** Normal, Natural, and Sleep modes.
- **Speeds:** Low, Medium, High fan speeds.

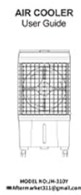

Product Components:

PACKAGE INCLUDES

1X Remote Control

1X User Manual

4X 360°Wheels

4X Ice Boxes

SPECIFICATIONS

Rated power	130w
Rated voltage	AC120V
Product size	12.6*12*31.1*inch
Weight	14.8lbs
Wire length	6 Feet
Frequency	60HZ

3. SETUP

3.1 Unpacking and Assembly

1. Carefully remove the air cooler from its packaging.
2. Attach the 4 universal wheels to the bottom of the unit for easy mobility.

3. Ensure all packaging materials are removed before operation.

Image: The AKIRES Portable Evaporative Air Cooler on its wheels, being easily moved across a room, emphasizing that no complex installation is required.

3.2 Adding Water and Ice Packs

1. Open the top cover of the water tank.
2. Pour clean water into the tank. The unit has a 4.2-gallon capacity. Do not exceed the 'MAX' line and ensure the water level is above the 'MIN' line.
3. For enhanced cooling, place the provided ice packs (pre-frozen) into the top water tank.
4. Close the top cover securely.

4.2-Gal Large Water Tank

You don't need to refill water frequently

*Top filling, no bending over, elderly and pregnancy friendly

Image: A hand pouring water into the top-fill opening of the AKIRES Portable Evaporative Air Cooler, demonstrating the convenient top-filling design.

3.3 Placement

Place the air cooler in a location where it can draw in fresh air and distribute cooled air effectively. For optimal evaporative cooling, it is recommended to place the unit in front of an open door or window to allow for proper ventilation.

Wider Air Coverage for Supreme Comfort

Powered by
High quality motor

600 Sq.ft
Max Room Size

1800 CFM
Air volume

Tips: Evaporative Cooler is recommended to run in front of an open door or window for maximum cooling effect

4. OPERATING INSTRUCTIONS

The air cooler can be operated using the touch control panel on the top of the unit or the included remote control.

4.1 Control Panel and Remote Control

Powerful Long-distance Air Supply

3 Speeds:

3 Modes:

Up to 33ft/s

Equipped with high-speed motors, the wind speed can reach 33ft/s

Image: The AKIRES Portable Evaporative Air Cooler in a living room setting, illustrating its powerful long-distance air supply and indicating the availability of 3 speeds and 3 modes.

The control panel features buttons for Power (ON/OFF), Speed, Timer, Mode, Cool, and Swing. The remote control duplicates these functions for convenience.

4.2 Power ON/OFF

- Press the **ON/OFF** button to turn the unit on or off.

4.3 Speed Settings

- Press the **SPEED** button repeatedly to cycle through Low, Medium, and High fan speeds.

4.4 Operating Modes

Press the **MODE** button to select from the following modes:

- **Normal Mode:** Provides a constant airflow at the selected speed.
- **Natural Mode:** Simulates natural breeze by varying fan speeds.
- **Sleep Mode:** Operates at a lower noise level and gradually reduces fan speed for comfortable sleep.

AKIRES 3-IN-1 Swamp Cooler

Fan
Without Water

Humidifier
Add Water

Cooler
Add Water & Ice

Image: The AKIRES Portable Evaporative Air Cooler showcasing its three primary functions: Fan (without water), Humidifier (add water), and Cooler (add water & ice).

4.5 Cooling Function (Humidifier/Air Cooler)

- Press the **COOL** button to activate the evaporative cooling/humidifying function. This circulates water from the tank over the cooling pad, releasing cooler, humidified air.
- Ensure the water tank is filled before activating the cooling function.
- For maximum cooling, use ice packs in the water tank.

4.6 Oscillation

- Press the **SWING** button to activate the 100° automatic oscillation, distributing air across a wider area.
- Press the button again to stop oscillation.

4.7 Timer

- Press the **TIMER** button repeatedly to set the desired operating time from 1 to 12 hours. The unit will automatically turn off after the set time.

5. MAINTENANCE

5.1 Draining the Water Tank

- Regularly drain the water tank to prevent stagnant water and maintain hygiene.
- Locate the drain hole at the bottom rear of the unit.
- Unscrew the cap and allow the water to drain completely.
- Securely replace the cap after draining.

5.2 Cleaning the Cooling Pad/Filter

- The unit features a removable dust cover and cooling pad for easy cleaning.
- Periodically remove the dust cover and cooling pad from the back of the unit.
- Rinse the cooling pad with clean water to remove dust and mineral deposits.
- Allow the cooling pad to air dry completely before reinserting.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit does not turn on	No power supply; Power cord not plugged in; Power button not pressed.	Check power outlet; Plug in power cord; Press ON/OFF button.
No cool air	Water tank empty; Cooling function not activated; Ice packs not used.	Fill water tank; Press COOL button; Add frozen ice packs.
Weak airflow	Fan speed too low; Air inlets/outlets blocked.	Increase fan speed; Clear any obstructions.
Unusual noise	Unit not on a level surface; Foreign object inside; Water pump issue.	Place on level surface; Check for obstructions; Contact customer support.
