SETUP

1. Powering On

Connect the provided USB power cable to the clock and plug the adapter into a standard wall outlet. The clock will automatically power on. For backup, insert 2 AAA batteries (included) into the battery compartment on the back of the clock to retain settings during power outages.

2. Bluetooth Time Synchronization

The clock is designed for easy time setup. Once powered on, it will automatically start the Bluetooth time sync function. Simply activate Bluetooth on your smartphone and connect to the device named "C3016". The clock will automatically set its time and synchronize daily with your phone's time.

3. Manual Time Setting (Optional)

If Bluetooth synchronization is not desired or available, you can manually set the time using the buttons on the top of the clock or the remote control. Refer to the User Manual for detailed instructions on manual time and date adjustments.

OPERATING MODES AND FEATURES

The XREXS Digital Wall Clock offers multiple modes and customizable features:

- **Clock Mode:** Displays time in 12 or 24-hour format, day of the week, month, date, and indoor temperature (Celsius or Fahrenheit).
- **Alarm Clock Mode:** Set multiple alarms with snooze function.
- **Count Up/Down Timer Mode:** Ideal for workouts, cooking, or other timed activities. Easily set hours, minutes, and seconds.

INSTALLATION

The XREXS Digital Wall Clock offers flexible installation options:

- **Wall Mount:** Utilize the two keyhole slots on the back of the clock for easy wall mounting. Screws and a mounting guide are provided for precise placement.
- **Desktop Placement:** The clock features a folding back frame that allows it to stand gracefully on any flat surface, such as a desk or shelf.

MAINTENANCE

To ensure the longevity and optimal performance of your XREXS Digital Wall Clock, follow these maintenance guidelines:

- **Cleaning:** Wipe the clock's surface with a soft, dry cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these may damage the finish.
- **Power:** Keep the clock connected to power for continuous operation. The battery backup is for retaining settings during brief power interruptions.

TROUBLESHOOTING

If you encounter any issues with your XREXS Digital Wall Clock, try the following solutions:

- **Display Not Working:** Ensure the power cable is securely connected to both the clock and the power outlet. Check if the outlet is functioning correctly.
- **Time Not Syncing:** Verify that Bluetooth is enabled on your smartphone and that the clock is within range. Ensure your phone's time is accurate. Try disconnecting and reconnecting the "C3016" Bluetooth device.
- **Remote Control Not Responding:** Check if the batteries in the remote control are correctly inserted and have sufficient charge. Ensure there are no obstructions between the remote and the clock.
- **Incorrect Temperature:** Allow some time for the clock to acclimate to the room's temperature. Ensure it is not placed near heat sources or in direct sunlight.

If problems persist after trying these steps, please refer to the comprehensive User Manual or contact customer support.
