## Mirightone Full Size Wood Teepee Floor Bed

# Mirightone Full Size Wood Teepee Floor Bed Instruction Manual

Model: Full Size Wood Teepee Floor Bed (B0CZF23F23)

## INTRODUCTION

---

Thank you for choosing the Mirightone Full Size Wood Teepee Floor Bed. This manual provides essential information for the safe assembly, operation, and maintenance of your new bed frame. Please read these instructions carefully before beginning assembly and retain them for future reference.

This floor bed is designed to provide a stable and imaginative sleeping space for children, featuring a low-to-ground profile for easy access and a unique house-shaped frame for creative decoration.

## SETUP AND ASSEMBLY

---

Assembly of the Mirightone Full Size Wood Teepee Floor Bed requires two adults. Ensure all parts are present before starting. A detailed instruction manual with diagrams is included in the package.

### Required Tools (Not Included):

- Phillips head screwdriver
- Allen wrench (if not provided with hardware)

### Assembly Steps:

1. **Unpack and Identify Parts:** Carefully unpack all components and hardware. Compare them against the parts list provided in your package to ensure nothing is missing or damaged.
2. **Assemble the Base Frame:** Begin by connecting the side rails and end rails to form the rectangular base of the bed. Use the provided screws and fasteners, ensuring all connections are secure but do not overtighten initially.
3. **Attach the Teepee Support Posts:** Insert the four vertical teepee support posts into the designated slots or connectors on the base frame. Ensure they are firmly seated.
4. **Connect the Top Horizontal Beam:** Attach the long horizontal beam that connects the two teepee structures

at the top. This beam forms the peak of the teepee.

5. **Form the Triangle Structure:** Connect the upper ends of the teepee support posts to create the stable triangle structure. This step is crucial for the bed's stability.
6. **Tighten All Connections:** Once all parts are assembled, go back and securely tighten all screws and fasteners. Do not overtighten to avoid stripping screws or damaging wood.
7. **Place Mattress:** Position your full-size mattress directly onto the assembled base frame. No box spring is required for this floor bed design.

## OPERATING INSTRUCTIONS

---

The Mirightone Full Size Wood Teepee Floor Bed is designed for children and offers a safe, accessible sleeping environment. Its low-to-ground design allows children to easily get in and out of bed independently.

### Usage Guidelines:

- **Mattress Placement:** Place a standard full-size mattress directly onto the bed frame. No box spring is needed.
- **Decoration:** The teepee frame can be decorated with lights, fabrics, or hanging toys to create a personalized and imaginative space. Ensure any decorations are securely attached and do not pose a choking or entanglement hazard.
- **Safety:** Regularly check all connections to ensure they remain tight. Do not allow children to climb on the

teepee structure as it is not designed for climbing.

## MAINTENANCE AND CARE

---

Proper care and maintenance will extend the life of your Mirightone Full Size Wood Teepee Floor Bed.

### Cleaning:

- **Wood Surfaces:** Wipe down wood surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the finish.
- **Spills:** Clean spills immediately with a dry cloth to prevent staining or moisture damage.

### Inspection:

- **Regular Checks:** Periodically inspect all screws and fasteners to ensure they are tight. Retighten if necessary to maintain stability and safety.
- **Damage:** Check for any signs of wear, cracks, or damage to the wood components. If significant damage is found, discontinue use and contact customer support.

## TROUBLESHOOTING

---

This section addresses common issues you might encounter with your Mirightone Full Size Wood Teepee Floor Bed.

Problem	Possible Cause	Solution
Bed feels wobbly or unstable	Loose screws or fasteners.	Inspect all connections and tighten any loose screws. Ensure the triangle structure of the teepee is properly secured.
Squeaking noises	Loose connections or friction between wood parts.	Tighten all screws. If squeaking persists, disassemble and reassemble the affected section, ensuring all parts are aligned correctly.
Missing parts during assembly	Packaging error or lost during unpacking.	Double-check all packaging materials. If parts are still missing, contact Mirightone customer support with your purchase details.

## PRODUCT SPECIFICATIONS

---
