ATTOP 18"X18"X9" single bowl

ATTOP 18x18 Inch Nano Coating Stainless Steel Topmount Single Bowl Sink Instruction Manual

Model: 18"X18"X9" single bowl

INTRODUCTION

Thank you for choosing the ATTOP 18x18 Inch Nano Coating Stainless Steel Topmount Single Bowl Sink. This manual provides essential information for the proper installation, operation, and maintenance of your new sink. Please read these instructions carefully before beginning installation and retain them for future reference.

PRODUCT OVERVIEW

The ATTOP 18x18 Inch Drop-in Bar Sink is designed for durability and ease of use, featuring advanced nano-coating technology and robust construction. It is ideal for various kitchen and bar setups.

Key Features:

- **Dimensions:** 18" L x 18" W (front-to-back) x 9" deep single bowl.
- **Material:** 3.0mm edge plate and 20 Gauge bowl stainless steel thickness.
- **Nano Coating:** Prevents scratches, oil stains, and floating rust, making it easier to clean with a lotus leaf effect for liquid flow.
- **Finish:** Commercial grade brushed finish for easy cleaning and long-lasting satin appearance.
- **Sound Dampening:** Heavy-duty sound guard undercoating and thick rubber padding minimize noise and reduce condensation.
- **Drainage:** USA standard 3.5" drain opening compatible with garbage disposal units. Rear drain placement ensures dishes do not obstruct drainage.

- **Accessories:** Includes a stainless steel basket strainer drain.

SETUP AND INSTALLATION

This ATTOP sink is designed for **Drop-in** installation. Ensure your countertop cutout size is approximately 17"x17" and your cabinet size is at least 21" to accommodate the sink properly. Professional installation is recommended to ensure correct sealing and functionality.

Installation Considerations:

- Verify countertop cutout dimensions match the sink's specifications.
- Ensure adequate clearance for plumbing and garbage disposal unit (if applicable).
- Use appropriate sealant for a watertight installation.

OPERATING INSTRUCTIONS

Your ATTOP Nano Coating Stainless Steel Sink is designed for efficient and hygienic use in your kitchen or bar area.

Daily Use:

- The nano-coated surface provides excellent scratch and oil resistance, ensuring durability during daily tasks.
- The sloped bottom and X-grooves facilitate quick water drainage, preventing water pooling.
- The fingerprint-proof surface helps maintain a clean appearance with minimal effort.
- The included basket strainer effectively traps food waste, preventing drain clogs.

NANO SINK DESCRIPTION

ATTOP

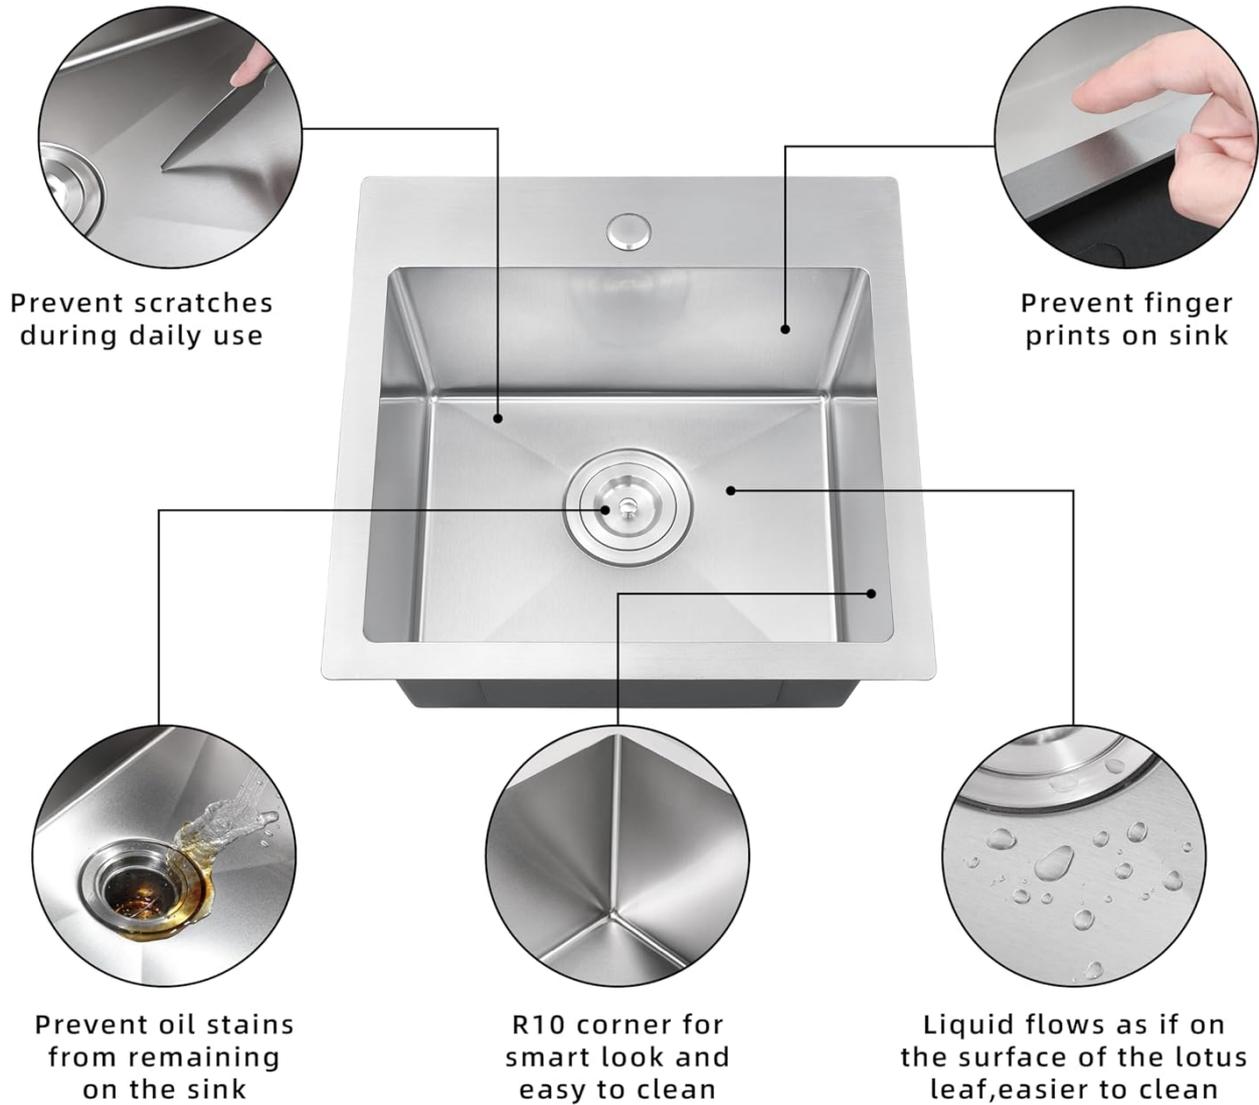

Image: Visual demonstration of the Nano Sink's scratch resistance, oil resistance, and fingerprint prevention.

Thick Rubber Pads

Thick sound-absorbing pads for noise reduction from dish washing.

Sound Barrier Technology

Innovative foil layer enhances sound-deadening and improves insulation.

Non-Toxic Undercoating

Thick paint coating Prevents condensation.

Fast Drain

Sloped bottom and x grooves design make drain fast.

2.85mm thickness panel for good installation.

Image: Water draining efficiently from the sink, showcasing the quick water drainage feature.

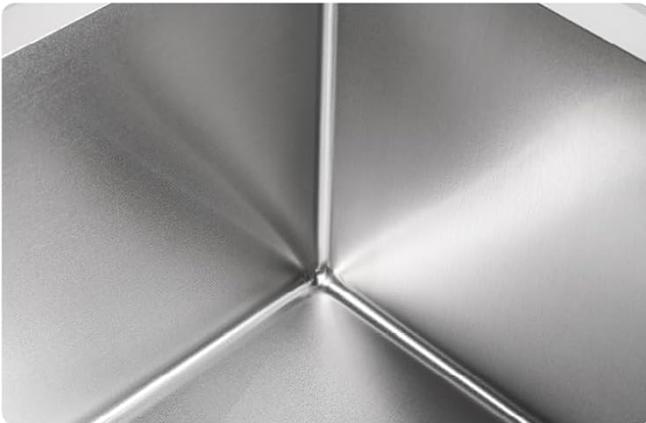

Scratch Proof

Nano coating prevent scratches during daily use

Oil Resistant

Prevent oil stains from remaining on the sink

Round Corner

R10 corner for smart look and easy to clean

Lotus Leaf Effect

Liquid flows as if on the surface of the lotus leaf, easier to clean

MAINTENANCE

Proper care and maintenance will ensure the longevity and pristine appearance of your ATTOP sink.

Cleaning Instructions:

- Clean regularly with normal detergent and warm water.
- Always dry your sink after use and buff with a soft cloth to prevent limescale or mineral deposits.
- Clean the sink once a week using a non-abrasive cleanser (e.g., Comet) and a clean soft sponge.
- Scrub in the same direction as the natural grain of the sink for best results.

TROUBLESHOOTING

While your ATTOP sink is built for durability, occasional issues may arise. Here are some general troubleshooting tips:

- **Slow Drainage:** Check the basket strainer for debris. If the issue persists, inspect the P-trap for blockages.
- **Water Spots/Stains:** Ensure you are drying the sink after each use. For stubborn spots, use a mild vinegar solution followed by a thorough rinse and dry.
- **Scratches:** While the nano-coating is scratch-resistant, deep scratches can occur from sharp objects. Minor scratches may be less noticeable due to the brushed finish.

For persistent issues, please contact ATTOP customer support.
