### **App Control:**

The fan can also be controlled via a smartphone application. Download the Surtime app (refer to the full installation guide for app details) to access all remote control functions and potentially additional smart features.

### **Reversible DC Motor:**

## Reversible motor Two Modes for Summer and Winter

Image: Explanation of the reversible motor, showing how it creates downdraft for cooling in summer and updraft for air circulation in winter.

- **Summer Season (Downdraft Mode):** The fan blades rotate counter-clockwise, pushing cool air downwards to create a cooling effect.
- **Winter Season (Updraft Mode):** The fan blades rotate clockwise, drawing air upwards to circulate warm air trapped near the ceiling, helping to warm the room.

### Smart Memory Function:

The fan's light features a smart memory function. If you turn off the light for at least ten seconds, it will remember your last brightness and color temperature settings when turned back on. If the light is turned on within ten seconds of being turned off, the color temperature may change to the default setting.

### MAINTENANCE

---

Regular maintenance ensures the longevity and optimal performance of your Surtime ceiling fan.

- **Cleaning:** To clean the fan, wipe with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these

can damage the finish or electrical components.

- **Blade Cleaning:** Dust the fan blades regularly to prevent dust buildup, which can affect performance and balance.
- **Tighten Fasteners:** Periodically check all screws and fasteners on the fan and mounting bracket to ensure they are secure.
- **No Lubrication Required:** The DC motor is permanently lubricated and does not require additional oiling.

**CAUTION: Always disconnect power to the fan at the circuit breaker before cleaning or performing any maintenance.**

## TROUBLESHOOTING

---

If you encounter issues with your Surtime ceiling fan, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Fan does not start	No power to the fan; Loose wire connections; Remote control battery low or not paired.	Check circuit breaker and wall switch; Verify all wire connections are secure; Replace remote battery or repair remote.
Light does not work	Loose wire connection; LED light kit faulty; Remote control battery low or not paired.	Check light wire connections; Contact customer support for LED kit replacement; Replace remote battery or repair remote.
Fan wobbles	Loose fan blades; Uneven blade balance; Loose mounting bracket.	Ensure all blade screws are tight; Use a balancing kit (not included) if necessary; Tighten mounting bracket screws.
Remote control not responding	Low or dead battery; Remote not paired with fan; Obstruction between remote and receiver.	Replace remote battery; Follow pairing instructions in the full manual; Ensure clear line of sight to the fan.

If the problem persists after attempting these solutions, please contact Surtime customer support.
