HUACO CARE H3 PLUS

HUACO CARE 2-in-1 Oral Clean Kit Instruction Manual

Model: H3 PLUS

INTRODUCTION

The HUACO CARE 2-in-1 Oral Clean Kit combines a water flosser and an electric toothbrush to provide comprehensive oral hygiene. This manual provides detailed instructions for the setup, operation, and maintenance of your new oral care system.

WHAT'S IN THE BOX

- Electric Toothbrush (Black)
- Cordless Water Flosser (Black)
- Toothbrush Travel Case
- Travel Bag for Water Flosser
- Wireless Charging Dock
- USB Charging Cable
- USB Charging Adapter
- 6 Brush Heads (for toothbrush)
- 4 Flossing Tips (including periodontal, orthodontic, and classic jet tips)
- Cleaning Brush (for reservoir)

Image: All components included in the HUACO CARE 2-in-1 Oral Clean Kit.

SETUP

Initial Charging

Before first use, ensure both the electric toothbrush and water flosser are fully charged. Use the provided wireless charging dock for the toothbrush and the USB charging cable for the water flosser. A full charge provides approximately 6 weeks of battery life for the toothbrush and 2000 mAh for the flosser.

Video: Overview of the Oral Clean Kit, including unboxing and initial setup steps.

Attaching Brush Heads/Flossing Tips

For the electric toothbrush, firmly push a brush head onto the metal shaft until it clicks into place. For the water flosser, insert the desired flossing tip into the top opening until it clicks. Ensure it is securely locked by twisting if necessary.

Reduce plaque and improve gum health.

Water flosser

high frequency pulse rate
1800 pulses per minute

3 pressure modes

cordless & rechargeable

Filling the Water Flosser Reservoir

Open the reservoir cap at the bottom of the water flosser. Fill the 200ml water tank with lukewarm water. Close the cap securely to prevent leaks. The reservoir is detachable for easy cleaning.

Reduce plaque and improve gum health.

ultrasonic toothbrush

Long lasting battery
only needs to be
charged 4 times a year

38000 VPN motor

4 modes

30 sec. quadrant intervals

shower safe

water resistant IPX7

cordless & rechargeable

OPERATING INSTRUCTIONS

Electric Toothbrush Operation

Press the power button to turn on the toothbrush. Cycle through the 4 brushing modes (Clean, White, Polish, Gum Care) by pressing the power button repeatedly. The ultrasonic motor generates 38,000 micro-vibrations per minute for effective cleaning. An intelligent automatic timer provides 30-second intervals to guide brushing in different mouth quadrants, ensuring the dentist-recommended 2-minute brushing time is met. The toothbrush will automatically turn off after 2 minutes.

3 Clean modes & 2 Water Pressure Intensities

Suit for different people (25-110PSI)

Normal
Deeply clean

Soft
For beginner
& sensitive teeth

Pulse
Massage & protect gum

Water Flosser Operation

After filling the reservoir and attaching a tip, press the power button to turn on the water flosser. Select from 3 flossing modes (High, Low, Pulse) using the mode button. The water flosser combines water pressure with high-frequency pulses (1800 pulses per minute) to deeply clean between teeth and massage gums. Specialized tips are included for orthodontic care and periodontal pockets.

Effective to Solve the 6 Oral Problems

Bad breath

Bleeding gums

Decay

Orthodontic tooth

Dental plaque

Tooth plant

MAINTENANCE

Cleaning the Water Flosser

The water flosser reservoir is detachable for easy cleaning. Use the provided cleaning brush to clean the inside of the reservoir. Ensure all parts are dry before reassembling.

Replacing Brush Heads

The bristles on the toothbrush heads are designed to lose color over time, indicating when it's time for replacement. Replace brush heads every 3 months or sooner if bristles become frayed.

Waterproof Design

Both the electric toothbrush and water flosser feature an IPX7 rated waterproof design, allowing for safe use during showers and easy rinsing under water.

Electric toothbrush and water flosser combo take good care of your teeth
