## SETUP AND ASSEMBLY INSTRUCTIONS

Assembly typically requires two adults and takes approximately 30 minutes. All necessary tools are included in the hardware kit.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, soft surface to prevent scratches. Identify each part using the provided parts list in the installation manual.
2. **Attach Headboard Legs:** Secure the support legs to the upholstered headboard using the provided bolts and Allen wrench. Ensure they are firmly tightened.
3. **Assemble Side Rails:** Connect the side rails to the headboard and footboard (if applicable) using the designated hardware. The side rails feature EVA silent strips and Velcro for noise reduction and easier slat installation.
4. **Install Center Support:** Attach the center support beam and its legs to the bed frame. This provides additional stability and weight distribution.
5. **Place Wooden Slats:** Unroll the wooden slats across the bed frame. The slats are designed with Velcro

to secure them in place and prevent movement, contributing to a noise-free design.

6. **Final Checks:** Double-check all bolts and connections to ensure they are tight and secure.

## MAINTENANCE

Regular maintenance will help prolong the life and appearance of your VEGELO bed frame.

- **Cleaning:** For the velvet upholstery, gently vacuum with a soft brush attachment to remove dust. For spills, blot immediately with a clean, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- **Hardware Check:** Periodically (every 3-6 months) check all bolts and screws to ensure they are tight. Retighten if necessary to maintain stability and prevent squeaking.
- **Slats:** Ensure wooden slats are properly seated and not damaged. Replace any broken slats immediately to maintain mattress support.
- **LED Lights:** Keep the LED strip clean and free from dust. Avoid bending or damaging the light strip.
- **Charging Ports:** Keep USB and Type-C ports free of dust and debris.

## TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Bed frame is wobbly or squeaks.	Loose bolts or uneven assembly.	Check and tighten all bolts. Ensure the bed frame is on a level surface. Verify slats are properly installed.
LED lights are not working.	Power connection issue, remote battery, or damaged LED strip.	Ensure the power adapter is securely plugged into the wall and the bed frame. Check the inline switch. Replace remote batteries. If issues persist, contact customer support.
Charging ports are not functioning.	Power connection issue or device incompatibility.	Verify the bed frame is powered. Test with a different device and cable. Ensure your device is compatible with USB charging.
