HXWEIYE 6 Pack Pink Fairy Lights Instruction Manual

Model: HY100150-20

1. INTRODUCTION

Thank you for choosing the HXWEIYE 6 Pack Pink Fairy Lights. These battery-operated LED string lights are designed to add a decorative touch to various indoor and outdoor settings. This manual provides essential information for the safe and effective use of your new lights.

Each pack contains six individual strands of pink LED fairy lights, each 7 feet long with 20 LEDs, powered by CR2032 batteries.

2. PRODUCT OVERVIEW

The HXWEIYE Pink Fairy Lights feature a flexible, silver-coated copper wire that can be easily shaped and wrapped around objects. The mini battery box is designed for discreet placement, and the lights are waterproof, making them suitable for diverse applications.

Image 2: Versatile applications of the pink fairy lights. Examples include wrapping around candles, placing inside vases, and decorating glass ornaments.

Key Features:

- **Flexible Copper Wire:** Each 7ft strand is made of high-quality silver-coated copper wire, allowing for easy shaping and durability.
- **Compact Battery Box:** The mini battery box (1.1 x 0.9 inches) is designed to be easily concealed, enhancing aesthetic integration.
- **Battery Operated:** Each light set requires 2x CR2032 batteries (included and replaceable), providing over 72 hours of continuous operation under optimal conditions.
- **Waterproof Lights:** The LED string lights are waterproof, suitable for both indoor and outdoor use.
Note: The battery pack is not waterproof.
- **Low Energy Consumption:** The LED lights remain cool to the touch even after extended use, ensuring safety.

3. PACKAGE CONTENTS

Upon opening your package, please verify that all items are present and in good condition:

- 6 x Pink Fairy Light Strands (7ft, 20LEDs each)

- 1 x Small Screwdriver (for battery compartment)
- 12 x CR2032 Batteries (2 per strand, pre-installed)

4. SPECIFICATIONS

Feature	Detail
Model Number	HY100150-20
Light Color	Pink
Number of LEDs per Strand	20
Strand Length	7 feet (2.1 meters)
Power Source	2 x CR2032 batteries per strand
Battery Life	Approximately 72+ hours continuous use (varies with environment)
Wire Material	Silver-coated Copper Wire
Waterproof Rating	Lights: IP67 (Waterproof); Battery Box: Not waterproof
Control Method	On/Off switch on battery box

5. SETUP

5.1 Battery Installation/Replacement

Your fairy lights come with batteries pre-installed. When the batteries need replacement, follow these steps:

1. Locate the battery compartment on the mini battery box.
2. Use the included small screwdriver to loosen the screw on the battery compartment cover.
3. Gently press down on the cover and slide it open.
4. Remove the old CR2032 batteries.
5. Insert two new CR2032 batteries with the positive (+) side facing upwards.
6. Slide the cover back into place and secure it with the screw.

HOW TO REPLACE A NEW BATTERY

WHEN THE ORIGINAL BATTERY RUNS OUT

Image 3: Battery Replacement Guide. This image illustrates the process of opening the battery compartment, inserting new CR2032 batteries, and securing the cover.

5.2 Placement and Shaping

Uncoil the fairy light strands carefully. Due to the flexible copper wire, you can bend and wrap the lights around various objects such as stair railings, Christmas trees, mason jars, plants, wreaths, or mirrors. Ensure the battery box is placed in a dry location, especially if using the lights outdoors, as it is not waterproof.

6. OPERATING INSTRUCTIONS

Each fairy light strand has a small on/off switch located on its battery box. To operate the lights:

1. Ensure batteries are correctly installed (refer to Section 5.1).
2. Locate the small switch on the side of the battery box.
3. Slide the switch to the "ON" position to illuminate the lights.
4. Slide the switch to the "OFF" position to turn off the lights.

7. MAINTENANCE

7.1 Cleaning

To clean the fairy lights, gently wipe the LED bulbs and wire with a soft, dry cloth. Do not immerse the battery box in water or use liquid cleaners directly on the lights.

7.2 Storage

When not in use for extended periods, turn off the lights and consider removing the batteries to prevent leakage. Coil the strands neatly to avoid tangling and store them in a cool, dry place.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Lights do not turn on.	Batteries are dead or incorrectly installed.	Replace batteries (CR2032) and ensure correct polarity.
Lights are dim.	Batteries are low.	Replace with fresh CR2032 batteries.
Lights flicker or turn off intermittently.	Loose battery connection or low batteries.	Check battery installation. Replace batteries if necessary.
Lights stopped working after exposure to water.	Battery box was exposed to water.	The battery box is not waterproof. Ensure it remains dry. Damage from water exposure to the battery box is not covered by warranty.

9. SAFETY INFORMATION

- Always ensure the battery box remains dry. It is not waterproof.
- The LED lights generate minimal heat and remain cool to the touch, reducing burn risk.
- Keep CR2032 batteries out of reach of small children and pets, as they can be a choking hazard. Seek immediate medical attention if swallowed.
- Do not attempt to modify or repair the lights yourself. Contact customer support for assistance.
- Dispose of used batteries responsibly according to local regulations.

10. WARRANTY AND SUPPORT

For warranty information or technical support, please refer to the purchase documentation or contact HXWEIYE customer service directly. Details are typically available on the product packaging or the retailer's website where the product was purchased.
