Safety Instructions

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury to persons.

- Read all instructions before using the appliance.
- Do not install or store this appliance where it will be exposed to the weather.
- Do not tamper with controls.
- Do not repair or replace any part of the appliance or attempt any servicing unless specifically recommended in the user-maintenance instructions or in published user-repair instructions that you understand and have the skills to carry out.
- Keep flammable materials and vapors away from the appliance.
- Ensure the appliance is properly grounded.
- Supervise children when the appliance is in use.
- Do not overload the washing machine.
- Always unplug the appliance before cleaning or performing maintenance.

Setup and Installation

Unpacking

Carefully remove all packaging materials from the washing machine. Check for any damage during transit. Keep packaging materials out of reach of children.

Location

Place the washing machine on a firm, level floor. Ensure there is adequate space around the appliance for ventilation and maintenance. Avoid direct sunlight or extreme temperatures.

Water Connection

Connect the supplied water hose to a cold water tap. Ensure all connections are tight to prevent leaks. The appliance requires a 220 Volts power supply.

Included components: Water Hose.

Drainage

Position the drain hose into a suitable drain pipe or sink, ensuring it is securely fastened to prevent displacement during operation.

Leveling

Adjust the leveling feet at the bottom of the washing machine to ensure it is perfectly stable and level. This minimizes vibration and noise during operation.

Operating Instructions

Control Panel Overview

The washing machine features a 6-digit digital display and a program selection dial for intuitive control.

Program Selection

Turn the program selection dial to choose one of the 16 available programs. The digital display will show the selected program and estimated time.

- **Common Programs:** Cottons, Mixed & Coloured, Synthetics & Coloured, Delicates, Wool, Hand Wash.
- **Special Programs:** Special49', Rapid 14'/30'/44', Steam Hygiene Plus, Easy Iron Plus 39'.
- **Utility Programs:** Rinse, Drain + Spin.
- **Smart Programs:** Smart Wash, ECO.

Starting a Wash Cycle

Press the "Start/Pause" button to begin the selected wash cycle. The door lock feature will engage for safety during operation.

Delay Start Function

Utilize the 24-hour delay start timer to schedule your wash cycle to begin at a more convenient time.

Smart Connectivity (WiFi + Bluetooth)

Connect your washing machine to your home WiFi network and pair it via Bluetooth to control and monitor cycles using the dedicated smartphone app. Refer to the app's instructions for detailed setup.

Maintenance

Cleaning the Exterior

Wipe the exterior of the washing machine with a soft, damp cloth. Avoid abrasive cleaners or solvents.

Cleaning the Detergent Drawer

Regularly remove and clean the detergent drawer to prevent residue buildup. Rinse it under running water and dry thoroughly before reinserting.

Cleaning the Drum

Run a maintenance wash cycle (e.g., a hot wash with no laundry and a washing machine cleaner) periodically to clean the drum and remove any odors or residue.

Door Seal Care

After each wash, wipe the door seal dry to prevent mold and mildew growth. Periodically check for any trapped debris.

Filter Cleaning

Consult the full product manual for instructions on how to access and clean the drain pump filter, which should be done regularly to ensure optimal performance.

Troubleshooting

This section provides solutions to common issues you might encounter. For more complex problems, please contact customer support.

Problem	Possible Cause	Solution
Machine does not start	Power cord unplugged, door not closed properly, "Start/Pause" not pressed.	Check power connection, ensure door is securely latched, press "Start/Pause" button.
Excessive vibration/noise	Machine not level, transit bolts not removed, overloaded drum.	Adjust leveling feet, ensure transit bolts are removed (during installation), reduce laundry load.
Water not draining	Drain hose kinked or blocked, drain pump filter clogged.	Check drain hose for kinks, clean the drain pump filter.
Detergent residue in drawer	Insufficient water pressure, drawer not cleaned regularly, too much detergent.	Check water supply, clean detergent drawer, use recommended detergent amount.
Unpleasant odors	Mold/mildew buildup, detergent residue.	Run a maintenance wash, clean door seal and detergent drawer.
