

## EasyKeys CF67

# EasyKeys Replacement Key for Yale Lock CF67 Instruction Manual

## INTRODUCTION

---

This instruction manual provides essential information for the proper identification and use of your EasyKeys Replacement Key for Yale Lock CF67. Please read these instructions carefully before attempting to use your new key to ensure compatibility and correct operation.

## IDENTIFYING YOUR LOCK CODE

---

Before ordering or using your replacement key, it is crucial to correctly identify the code for your Yale Lock. The replacement key is custom-cut based on the provided code (CF67 in this case) and is compatible with Yale Lock manufacturers. Incorrect code identification may result in an incompatible key.

*Image: This diagram illustrates common locations where you can find your lock code. These include directly on the key itself (e.g., FR322), engraved on the lock face (e.g., FR322), on a label positioned inside or behind the lock mechanism (e.g., CODE: G38), or on a label affixed to the cabinet or door near the lock (e.g., HF321).*

### Important Notes for Code Identification:

- **Order by Manufacturer:** Lock codes are specific to their manufacturer. Always verify that the manufacturer of your lock matches the intended key.
- **Key Cuts Differ:** Even if lock codes appear similar across different brands, the actual key cuts can vary significantly. Ensure the key is specified for your lock's brand.

## USAGE INSTRUCTIONS

---

The EasyKeys Replacement Key CF67 is designed for straightforward operation with compatible Yale Locks.

1. **Insert Key:** Gently insert the replacement key into the keyway of the Yale Lock. Do not force the key.
2. **Turn Key:** Once fully inserted, turn the key clockwise or counter-clockwise, depending on the lock

mechanism, to engage or disengage the lock.

3. **Remove Key:** After operating the lock, return the key to its original position (usually vertical) and gently withdraw it.

If the key does not insert smoothly or turn easily, do not force it. Refer to the Troubleshooting section.

## MAINTENANCE

---

Proper care of your replacement key and lock can extend their lifespan and ensure reliable operation.

- **Keep Clean:** Keep the key free from dirt, debris, and moisture. Wipe with a dry cloth if necessary.
- **Avoid Bending:** Store the key in a manner that prevents it from bending or becoming damaged.
- **Lubrication (for lock):** If the lock mechanism becomes stiff, apply a small amount of graphite-based lubricant specifically designed for locks into the keyway. Avoid oil-based lubricants as they can attract dust.

## TROUBLESHOOTING

---

If you encounter issues with your EasyKeys Replacement Key, consider the following:

- **Key Does Not Insert Fully:**
  - Check for obstructions in the lock's keyway.
  - Ensure the key is oriented correctly.
  - Verify that the lock code on the key matches your lock.
- **Key Inserts but Does Not Turn:**
  - The lock mechanism might be jammed or require lubrication.
  - Confirm the key code and manufacturer compatibility.
  - Do not force the key, as this can damage both the key and the lock.
- **Key Feels Loose or Wobbly:**
  - This may indicate wear in the lock cylinder or an incorrect key cut. Re-verify the lock code and manufacturer.

If problems persist after following these steps, contact EasyKeys customer support for further assistance.

## PRODUCT SPECIFICATIONS

---

Feature	Detail
Brand	EasyKeys
Model Name	CF67
Compatible Manufacturer	Yale Lock
Key Blank Type	Y12
Material	Brass

Special Features	Custom Cut Key, Durable
Item Dimensions (L x W x H)	0.5 x 0.5 x 1 inches
Item Weight	0.25 Pounds

## WARRANTY AND SUPPORT

---

EasyKeys provides a replacement key that is custom-cut to your specified code. Please ensure the code provided is accurate as custom-cut keys are generally non-returnable unless there is a manufacturing defect or an error in the cutting process.

For support, questions, or to report an issue, please contact EasyKeys customer service through the retailer's platform or visit the official EasyKeys website. Have your order details and lock code ready for faster assistance.
