4. SETUP

4.1 Charging the Camera

Before first use, fully charge the camera. Connect the provided USB charging cable to the camera's charging port and the other end to a USB power adapter (not included), computer, or power bank. The charging indicator light will show the charging status. A full charge typically takes a few hours and provides up to 4 hours of usage time.

4.2 Inserting the Memory Card

The camera comes with a 32GB memory card. Locate the memory card slot on the side of the camera. Insert the memory card with the gold contacts facing down until it clicks into place. To remove, gently push the card in until it springs out.

4.3 Loading Print Paper

The camera uses thermal print paper. Follow these steps to load the paper:

1. Open the paper slot cover on the front of the camera.
2. Insert a roll of thermal paper into the compartment, ensuring the paper feeds from the bottom and the leading edge is straight.

3. Pull a small length of paper (about 1-2 inches) out of the slot.

4. Close the paper slot cover firmly until it clicks.
