MEWOOFUN ZXX-QM124

MEWOOFUN ZXX-QM124 4-Tier Wooden Wall-Mounted Cat Shelf Instruction Manual

Model: ZXX-QM124

Introduction

This manual provides detailed instructions for the assembly, installation, operation, and maintenance of your MEWOOFUN ZXX-QM124 4-Tier Wooden Wall-Mounted Cat Shelf. Please read this manual thoroughly before installation and retain it for future reference.

Safety Information

- Ensure all components are securely fastened during assembly and installation.
- Do not exceed the maximum load capacity of 30 kg (66 lbs).
- Regularly inspect the shelf for any loose parts, damage, or instability. Tighten fasteners as needed.
- Install the product on a sturdy door that meets the specified thickness and gap requirements.
- Keep children away from the product during assembly to prevent injury.

Package Contents

Verify that all the following components are present before beginning assembly:

- Main vertical wooden support beam
- 4 wooden platforms/perches
- 2 fluffy cat hammocks with removable soft covers
- Mounting hardware (screws, brackets, silicone protection pads)
- Assembly tools (if included, otherwise standard household tools like a screwdriver will be needed)
- Instruction manual (this document)

Setup and Installation

The MEWOOFUN ZXX-QM124 cat shelf is designed for easy over-the-door installation. Ensure your door meets the following specifications:

- **Door Thickness:** 40mm to 45mm
- **Door Gap:** Greater than 3mm (space between door and frame)

Figure 1: Door compatibility requirements. Ensure your door's thickness is between 40-45mm and the gap between the door and frame is greater than 3mm for proper installation.

Assembly Steps:

1. **Attach Platforms:** Securely attach the wooden platforms and hammocks to the main vertical support beam using the provided screws and brackets. Ensure the triangular supports are firmly in place for stability.
2. **Apply Protection:** Affix the silicone protection pads to the parts of the mounting brackets that will contact your door. This prevents scratches and provides a seamless fixation.
3. **Mount to Door:** Carefully hang the assembled cat shelf over the top edge of your door. Ensure it sits flush and is stable.
4. **Final Check:** Verify that all connections are tight and the entire structure is stable before allowing your cat to use it.

Figure 2: Key installation features including seamless fixation, silicone protection for the door, and stable triangular supports for the platforms.

Operating and Usage

The MEWOOFUN cat shelf provides multiple levels for your cat to climb, perch, and rest. It is suitable for both active and older cats.

Chic Design & Cat's Delight

Figure 3: The MEWOOFUN cat shelf in use, showcasing its chic design and providing delight for cats.

- **Climbing and Playing:** Cats can use the various platforms for vertical exploration and exercise.
- **Resting Spots:** The fluffy hammocks offer cozy spots for napping and relaxation.
- **Viewing Perches:** Elevated platforms allow cats to observe their surroundings from a higher vantage point.

Figure 4: Cats utilizing the various features of the shelf, including perches for viewing and hammocks for resting.

Figure 5: Detail of the fluffy cat hammock, featuring a removable soft cover and washable cushion for hygiene.

Maintenance

- **Cleaning:** Clean the wooden surfaces with a dry or slightly damp cloth. Avoid harsh chemicals.
- **Cushion Care:** The soft covers of the hammocks are removable and washable. Follow care instructions on the fabric tag if available, typically machine wash cold on a gentle cycle and air dry.
- **Storage:** Store the product indoors and away from excessive humidity to preserve the wood and fabric components.
- **Regular Inspection:** Periodically check all screws and connections to ensure they remain tight and secure.

Troubleshooting

Issue: Shelf swings or moves when cat jumps on it.

Possible Cause: The door may not be perfectly stable, or the shelf's over-door hooks might have slight play.
Solution: Ensure the door is fully closed and latched. If movement persists, consider adding double-sided adhesive strips or Velcro to the back of the over-door hooks where they contact the door to minimize movement. Ensure this does not impede

door function or damage the door surface.

Issue: Door does not close properly after installation.

Possible Cause: The door gap is insufficient, or the over-door hooks are too thick for your door frame.
Solution: Re-check your door's gap measurement. It must be greater than 3mm. If the gap is too small, this product may not be suitable for your door. Do not force the door closed as this can damage the door or frame.

Issue: Components feel loose after assembly.

Possible Cause: Screws or fasteners are not fully tightened.
Solution: Carefully re-tighten all screws and connections. Do not overtighten, as this can strip the wood. If a component remains loose, contact customer support.

Specifications

Model Number	ZXX-QM124
Dimensions (L x W x H)	70 cm x 40 cm x 166 cm (27.5" x 15.7" x 65.3")
Weight	6.35 kg (14 lbs)
