3. SETUP

3.1 Unboxing

1. Carefully remove the outer packaging sleeve.
2. Gently slide the inner display box containing the model out of the sleeve.
3. Open the display box and carefully remove the model from its protective casing and display base.

3.2 Displaying the Model

The model comes with a dedicated display base. Ensure the model is securely placed on this base for stability. Choose a flat, stable surface for display to prevent accidental falls.

Materials

Environmental Protection Materials | 3C Certification

The spray painting process involves using ABB robotic arms in the automotive manufacturing industry to ensure uniform and consistent paint colors on each vehicle model. Additionally, the use of electroplating technology ensures long-lasting and fade-resistant paint surfaces. All paint materials used for spraying are safe and non-toxic.

5. MAINTENANCE

5.1 Cleaning

To clean the model, use a soft, dry, lint-free cloth. Gently wipe the surfaces to remove dust. For stubborn dirt, a

slightly damp cloth can be used, followed immediately by a dry cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the paint finish or decals.

5.2 Storage

When not on display, store the model in its original packaging or a suitable display case to protect it from dust and potential damage. Keep it in a cool, dry place away from direct sunlight and extreme temperature fluctuations.
