## MUTICOR Twin Loft

# MUTICOR Twin Loft Bed Frame Instruction Manual

Model: Twin Loft

## INTRODUCTION

---

Thank you for choosing the MUTICOR Twin Loft Bed Frame. This manual provides essential information for the safe assembly, operation, and maintenance of your new loft bed. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

## SAFETY INFORMATION

---

Your safety is paramount. Adhere to the following guidelines to prevent injury and ensure proper use of the loft bed.

- **Assembly:** Always assemble this product with at least two people.
- **Mattress Requirements:** The recommended mattress thickness is between 4 and 6 inches. Ensure the top surface of the mattress is at least 5 inches below the top edge of the guardrail.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 400 pounds for the bed frame.
- **Guardrail:** The bed is equipped with a 13.8-inch full-length guardrail for safety. Do not remove or modify it.
- **Anti-Toppling Device:** Utilize the provided anti-toppling device to secure the bed frame to a wall, enhancing stability.
- **Ladder Safety:** Exercise caution when using the ladder. Ensure it is securely attached before climbing.
- **General Use:** Do not allow jumping on the bed. Periodically check all connections and tighten hardware as needed.

## PACKAGE CONTENTS

The MUTICOR Twin Loft Bed Frame is conveniently packed in one box. Please verify that all labeled pieces, necessary tools, and this instruction manual are present before beginning assembly.

- Bed Frame Components
- Metal Slats
- Assembly Hardware (screws, bolts, Allen wrench)
- Instruction Manual
- Anti-Toppling Device

## SETUP AND ASSEMBLY INSTRUCTIONS

---

Assembly is estimated to take approximately 40 minutes with two people. Follow these steps carefully.

1. **Unpack and Identify Parts:** Lay out all components on a clean, soft surface to prevent scratches. Refer to the parts list in the manual to identify each piece.
2. **Assemble Main Frame:** Connect the main frame sections according to the diagrams provided in the included manual. Ensure all connections are finger-tightened initially.
3. **Install Ladder:** Attach the ladder securely to the designated points on the bed frame. The ladder is designed with round tubes for comfortable climbing.
4. **Attach Slats:** Place the metal slats onto the bed frame. The plastic buckle design will fix the slats firmly, preventing noise.
5. **Install Guardrail:** Ensure the full-length guardrail is properly installed and secured on all sides of the sleeping area.
6. **Secure Anti-Toppling Device:** Attach the anti-toppling device to the bed frame and secure it to a wall as instructed in the detailed manual.
7. **Final Tightening:** Once all components are in place, systematically tighten all screws and bolts using the provided Allen wrench. Do not overtighten.

**FULL-LENGTH GUARDRAIL**  
13.8" Triple Safety Guardrail

**ROUND LADDER**  
Round Tube with No Corners

# EXPLORE SPACE POSSIBILITIES

.....

Office/ Study

Entertainment

Storage

Image: An exploded view diagram highlighting the structural integrity of the bed frame. It points out the anti-toppling device for wall attachment, the sturdy triangular construction for enhanced stability, and the thickened metal frame for durability.

## OPERATING AND USAGE INSTRUCTIONS

The MUTICOR Twin Loft Bed Frame is designed to maximize space in smaller rooms.

- **Space Utilization:** The area beneath the loft bed provides significant vertical space. This area can be used for various purposes such as:
  - Setting up a desk for an office or study area.
  - Creating an entertainment zone with a sofa or TV.
  - Adding storage units or another bed.
- **Noise-Free Design:** The plastic buckle design secures the metal slats, minimizing noise from movement and contributing to a quiet sleeping environment.

## RECOMMEND

Size: 75" x 38"

Hight: 4"-6"

>5"

Make sure the top of the mattress is at least 5" from the edge of the guardrail.

Image: A visual representation of how the space under the loft bed can be utilized. It shows examples of an office/study setup, an entertainment area, and a storage solution, demonstrating the versatility of the design.

## MAINTENANCE

Regular maintenance ensures the longevity and safety of your MUTICOR Twin Loft Bed Frame.

- **Cleaning:** Wipe down the metal frame with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Hardware Check:** Periodically inspect all bolts, screws, and connections to ensure they remain tight. Retighten any loose hardware to maintain stability.
- **Slat Inspection:** Check the metal slats and their plastic buckles for any signs of wear or damage. Replace any damaged components immediately.
- **Guardrail Integrity:** Ensure the guardrail remains firmly attached and free from damage.

## TROUBLESHOOTING

If you encounter any issues with your loft bed, refer to the following common solutions.

- **Bed Frame Wobbles:**

- Ensure all bolts and screws are securely tightened.
- Verify that the anti-toppling device is properly installed and secured to the wall.
- Check that the bed is placed on a level surface.

- **Noise from Slats:**

- Confirm that all plastic buckles are correctly engaged with the slats and frame.
- Inspect slats for any damage or bending.

- **Difficulty Assembling:**

- Review the assembly instructions carefully, paying attention to diagrams.
- Ensure you have all parts and tools as listed in the package contents.
- It is highly recommended to assemble with two people.
