

Sondiko S8012

Sondiko Powerful Cooking Propane Torch

Model: S8012

Brand: Sondiko

1. INTRODUCTION

The Sondiko Powerful Cooking Propane Torch (Model S8012) is a versatile tool designed for various applications, including culinary tasks, igniting campfires, starting charcoal grills, and weed removal. It delivers a powerful flame with adjustable intensity, making it suitable for both professional and everyday use. This manual provides essential information for safe operation and maintenance.

2. SAFETY INFORMATION

WARNING: FOR SAFE SHIPPING, GAS IS NOT INCLUDED. ALWAYS USE IN A WELL-VENTILATED AREA.

- Read all instructions before use.
- Keep out of reach of children.

- Always wear appropriate safety gear, including eye protection.
- Ensure the torch is securely attached to the propane tank before ignition.
- Keep hands and flammable materials away from the nozzle and flame. The torch features an extended angled nozzle and a burn-free protective shield for safety.
- Do not point the torch at people, animals, or flammable objects.
- After use, ensure the flame is extinguished and remove the propane tank for storage.
- Store the torch and propane tanks in a cool, dry place away from direct sunlight and heat sources.

3. PACKAGE CONTENTS

Verify that all items are present in the package:

- Sondiko Powerful Cooking Propane Torch (Model S8012)
- Instruction Manual

Image: Exploded view showing key components like the Gas Valve Knob, Steel-Reinforced Nozzle, Piezo Igniter Button, Front Handle, and Propane Tank Connector.

4. SETUP

The Sondiko Propane Torch is designed to be powered by standard propane gas cylinders (not included). Ensure you have a compatible propane tank before proceeding.

1. **Prepare the Propane Tank:** Ensure the propane tank is upright and stable.
2. **Attach the Gas Cylinder:** Align the torch's propane tank connector with the valve on your propane gas cylinder. Screw the torch onto the cylinder clockwise until it is hand-tight. Do not overtighten. Ensure a secure, leak-free connection.

5. OPERATING INSTRUCTIONS

Follow these steps to safely operate your Sondiko Propane Torch:

Image: A visual guide demonstrating the four steps to operate the torch: attaching the gas cylinder, rotating the gas valve, pressing the ignition button, and adjusting the flame.

1. **Attach the Gas Cylinder:** (Refer to Section 4: Setup). Ensure the propane tank is securely attached.
2. **Rotate the Gas Valve:** Slowly rotate the gas valve knob (located on top of the torch) counterclockwise to allow a small amount of propane gas to flow. You may hear a faint hissing sound.

3. **Press the Ignition Button:** While gas is flowing, press the Piezo Igniter Button (located on the handle) to ignite the flame. If the flame does not ignite immediately, close the gas valve, wait a few seconds, and repeat the process.
4. **Adjust the Flame:** Once ignited, adjust the flame intensity by turning the fuel knob. Rotate counterclockwise to increase fuel flow and flame size, and clockwise to decrease fuel flow and flame size. The torch can reach temperatures exceeding 1800°C (3272°F).

Image: The flame intensity can be precisely adjusted using the control knob, allowing for various flame sizes.

Applications

The Sondiko Propane Torch is suitable for:

- **Culinary Use:** Caramelizing sugar on desserts, searing meats (sous vide), roasting vegetables.
- **Outdoor Activities:** Lighting charcoal, starting campfires, bonfires.
- **Gardening:** Weed removal.
- **DIY Projects:** Glass blowing, crafting, other tasks requiring high heat.

6. MAINTENANCE

Proper maintenance ensures the longevity and safe operation of your torch.

- **Cleaning:** After each use, ensure the torch is cool. Wipe down the exterior with a clean, damp cloth to remove any residue. Do not use abrasive cleaners or solvents.
- **Storage:** Always disconnect the propane tank from the torch after use. Store the torch in a dry, safe place away from extreme temperatures and direct sunlight.
- **Inspection:** Periodically inspect the torch for any signs of damage, wear, or gas leaks. If any damage is found, do not use the torch and contact customer support.

7. TROUBLESHOOTING

If you encounter issues with your Sondiko Propane Torch, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Torch does not ignite.	Gas valve is closed or not open enough. Igniter is faulty. Propane tank is empty or not connected properly.	Ensure gas valve is open. Check propane tank connection and gas level. If igniter is faulty, contact support.
Flame is weak or inconsistent.	Low propane level. Gas valve not fully open. Blockage in nozzle.	Replace propane tank. Open gas valve further. Inspect nozzle for obstructions (only when cool and disconnected from gas).
Gas leak detected (hissing sound without ignition, smell of gas).	Loose connection between torch and tank. Damaged O-ring.	Immediately turn off gas valve and disconnect tank in a well-ventilated area. Re-tighten connection. Inspect O-ring for damage. Do not use if leak persists.

8. SPECIFICATIONS

Feature	Detail
Brand	Sondiko
Model Number	S8012 (Manufacturer Part Number: GF-8012)
Colour	Camouflage
Item Weight	836 Grams
Product Dimensions (L x W x H)	20L x 5.8W x 62H centimetres
Material	Aluminium, Plastic
Maximum Temperature	1559.99 °C (3272 °F)
UPC	788505374542

9. WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the retailer's return policy or visit the official Sondiko website. Keep your purchase receipt as proof of purchase.

If you have any questions or require assistance with your Sondiko Propane Torch, please contact Sondiko customer service through their official channels.

Ask a question about this manual
