1MORE EH608

1MORE Sleep Earbuds Z30 User Manual

Model: EH608

Brand: 1MORE

INTRODUCTION

The 1MORE Sleep Earbuds Z30 are designed to provide ultimate comfort and a peaceful listening experience, especially for sleep. These wireless Bluetooth headphones feature a mini invisible design, noise blocking capabilities, and built-in soothing sounds. They are equipped with Bluetooth 5.3 for stable connectivity and offer an ultra-thin, comfortable fit for extended wear.

Video 1: Unboxing and Initial Setup of 1MORE Sleep Earbuds Z30. This video demonstrates how to unbox the earbuds and perform the initial activation steps.

SETUP

1. Initial Activation

For first-time use, please remove the protective film from the earbuds. Place both earbuds into the charging case. Close the charging case, then open it again to activate the earbuds.

2. Charging

Ensure the charging case is adequately charged. The earbuds offer up to 6 hours of playtime in Bluetooth mode and 24 hours with the charging case. In local play mode with pre-downloaded white noise, they offer up to 8 hours of uninterrupted play, extending to 32 hours with the case. The charging case takes approximately 2 hours to fully charge.

3. Pairing

With the earbuds activated and in pairing mode, open the Bluetooth settings on your device (smartphone, tablet, or PC). Select "1MORE Z30" from the list of available devices to connect. The earbuds will indicate successful pairing.

4. Wearing

Choose the proper ear tips (XS, S, M, L) for your comfort. Identify the "L" (left) and "R" (right) markings on the earbuds. Gently insert the earbuds into your ears and adjust them until they feel secure and comfortable. The ultra-thin design and lightweight build (2.7 grams per earbud) are optimized for side sleepers.

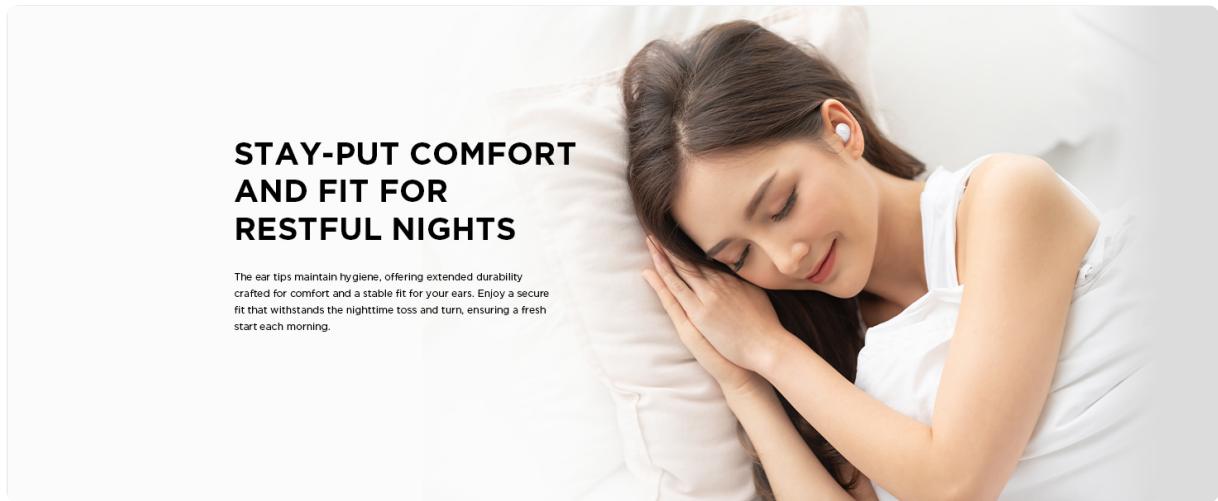

Figure 3: Proper wearing for comfortable sleep.

OPERATING

1. 1MORE MUSIC App

Download the 1MORE MUSIC App to unlock the full potential of your earbuds. The app allows you to switch between different listening modes and access a library of soothing sounds.

- **Listening Modes:** The app offers various listening modes to suit your preference.
- **Soothing Sounds:** Access 30 built-in calming sounds, including nature sounds, to aid in relaxation and sleep. You can set a timer for automatic playback stop (5 timer options available) or opt for continuous play by disconnecting from your device.
- **Sound Download:** You can download preferred soothing sounds directly to your earbuds for local playback, extending battery life.

2. Phone Call Functionality

Please note that the 1MORE Sleep Earbuds Z30 are specifically designed for boosting better sleep and do not feature a built-in microphone for phone calls. Therefore, the phone call function is not available on these earbuds.

MAINTENANCE

1. Cleaning

Regularly clean your earbuds and charging case with a soft, dry, lint-free cloth. For the ear tips, you may gently wipe them with a damp cloth and mild soap, then rinse and dry thoroughly before reattaching. Ensure no moisture enters the charging ports or speaker grilles.

2. Storage

When not in use, store the earbuds in their charging case to protect them and keep them charged. Store the case in a cool, dry place away from extreme temperatures and direct sunlight.

3. Water Resistance

The 1MORE Sleep Earbuds Z30 are rated as **Waterproof**. This means they are designed to withstand splashes and sweat, making them suitable for use during sleep or light exercise. However, they are not intended for submersion in water or use during swimming or showering.

TROUBLESHOOTING

1. Resetting Earbuds

If you experience connectivity issues or other malfunctions, you may need to reset the earbuds. Place both headphones into the charging case. Press and hold the pairing button on the case for 8 seconds to disconnect and reset them.

2. Low Volume on Android Devices

If the volume is too low on your Android device, ensure that "Bluetooth absolute volume" is enabled in your phone's Bluetooth settings. This setting can help increase the maximum volume output. Please consult your phone manufacturer's guide for specific settings related to Bluetooth volume control.

3. Pairing Issues

If the earbuds fail to pair, ensure they are fully charged and in pairing mode. Try turning off and on your device's Bluetooth. If the issue persists, perform a reset as described above and attempt pairing again.

4. Frequently Asked Questions (FAQ)

- Q: How do we refine our products?**
A: We have independent, professional laboratories dedicated to acoustics R&D, intelligent algorithms, ergonomics, RF testing, reliability, and environmental testing, all of which perform comprehensive product refinement and testing.
- Q: What are the characteristics of our products?**
A: Our self-developed diamond-like carbon (DLC) diaphragm dynamic driver delivers exceptional stability and superior sound quality. Equipped with QuietMax dual-feed intelligent active noise cancellation technology, it achieves noise reduction of up to -42dB for an immersive listening experience.
