INSTRUCTION MANUAL FOR DELTA Q NDIQ7323 COFFEE MAKER

## Introduction

Thank you for choosing the Pwshymi Reusable Stainless Steel Coffee Capsules. This manual provides essential information for the proper use, maintenance, and care of your new coffee capsules. Designed for compatibility with Delta Q NDIQ7323 and EP MINI (Lavazza Point) coffee machines, these capsules offer an eco-friendly and convenient way to enjoy your favorite coffee.

## Product Overview

The Pwshymi Reusable Coffee Capsule system includes a durable stainless steel capsule, a measuring spoon, and a cleaning brush. This system is designed to provide a consistent coffee experience while reducing waste.

**Key Features:**

- **Eco-friendly:** Reusable design reduces waste from single-use pods.

- **Premium Material:** Crafted from food-grade stainless steel for safety and durability.
- **Perfect Compatibility:** Specifically designed for Delta Q NDIQ7323 and EP MINI (Lavazza Point) coffee machines.
- **Enhanced Coffee Flavor:** Helps protect the machine's filter layer, contributing to a richer coffee experience.

## Setup and Operating Instructions

---

Follow these steps to prepare and brew coffee using your reusable capsule:

1. **Fill the Capsule:** Use the provided spoon to fill the stainless steel capsule with your preferred coffee powder. Adjust the amount according to your taste and desired strength. Ensure the coffee grounds are not over-packed, as this can affect water flow.
2. **Seal the Capsule:** Securely close the capsule lid. Ensure it is properly aligned and sealed to prevent leaks during brewing.
3. **Insert into Machine:** Place the filled and sealed capsule into the designated capsule slot of your Delta Q NDIQ7323 or EP MINI coffee machine. Ensure the capsule sits correctly and is not forced.

4. **Brew Coffee:** Select your desired coffee capacity or brewing option on your coffee machine. Initiate the brewing process.
5. **Enjoy:** Once brewing is complete, carefully remove the capsule and enjoy your freshly brewed coffee.

## Maintenance and Cleaning

Regular cleaning ensures optimal performance and longevity of your reusable coffee capsule.

1. **Empty Used Grounds:** After each use, allow the capsule to cool slightly. Open the capsule and discard the used coffee grounds.

2. **Rinse Thoroughly:** Rinse the capsule and lid under running water.
3. **Use Cleaning Brush:** Utilize the provided cleaning brush to remove any remaining coffee residue from the capsule's interior, especially from the filter mesh and lid perforations.

4. **Dry:** Allow all components to air dry completely before reassembling or storing.

**Note:** The stainless steel capsule is dishwasher safe, but hand washing is recommended for best results and to prolong its lifespan.

## Troubleshooting

If you encounter issues while using your Pwshymi Reusable Coffee Capsules, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Capsule does not fit or falls down in the machine.	Improper alignment or incorrect capsule type for the machine model.	Ensure the capsule is correctly oriented and gently placed into the machine's slot. Verify your coffee machine is a Delta Q NDIQ7323 or EP MINI (Lavazza Point) model.

Problem	Possible Cause	Solution
Water leaks from the machine during brewing.	Capsule not sealed properly, over-filled with coffee, or capsule damage.	Check that the capsule lid is securely closed. Do not over-fill the capsule. Inspect the capsule for any visible damage.
Weak or watery coffee.	Insufficient coffee grounds, coarse grind, or improper tamping.	Increase the amount of coffee grounds. Use a finer grind suitable for espresso. Ensure the coffee is lightly tamped, not overly compressed.
No coffee dispenses or slow flow.	Capsule over-packed, too fine a grind, or clogged capsule filter.	Reduce the amount of coffee grounds. Use a slightly coarser grind. Clean the capsule thoroughly, especially the filter mesh, using the provided brush.
