1. SETUP AND ASSEMBLY

This section provides detailed instructions for assembling your BIADNBZ Wooden Full Size Loft Bed. Please read all steps carefully before beginning assembly.

1.1 Package Contents

The loft bed is delivered in multiple packages. Due to shipping logistics, these packages may arrive separately over several days. Please ensure all packages have arrived before starting assembly.

- Loft Bed Frame Components (Plywood, MDF, Pinewood)
- Staircase Components
- Desk Components
- Wardrobe Components
- Bookshelf and Drawer Components
- Hardware Pack (screws, bolts, nuts, etc.)
- Assembly Instructions Manual

1.2 Tools Required

All necessary tools for assembly are included in the hardware pack. Please avoid using power tools as they may damage the wood components.

- Hex Key (Allen Wrench)
- Screwdriver

1.3 Assembly Steps

Estimated Assembly Time: 60 minutes. Suggested Number of People: 2.

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a clean, soft surface to prevent scratches. Compare all parts against the included parts list to ensure nothing is missing.
2. **Assemble the Main Bed Frame:** Follow the diagrams in the separate assembly instruction booklet to connect the main bed frame posts and side rails. Ensure all connections are secure.
3. **Install Bed Slats:** Place the plywood bed slats onto the designated supports within the bed frame. These slats provide mattress support; no box spring is needed.
4. **Assemble the Staircase:** Construct the staircase unit, ensuring the storage boxes and doors are correctly installed. Attach the staircase securely to the main bed frame as indicated in the instructions.
5. **Assemble the Desk and Shelves:** Attach the desk surface and supporting shelves to the bed frame. Ensure the desk is level and stable.
6. **Assemble the Wardrobe:** Construct the wardrobe unit, including the door and any internal shelving or hanging rods. Securely attach it to the bed structure.
7. **Install Drawers:** Assemble and install any drawers included with the unit, such as those under the wardrobe or within the staircase.
8. **Final Inspection:** Once assembly is complete, double-check all screws, bolts, and connections to ensure they are tight and secure. Verify the stability of the entire structure.

2. OPERATING INSTRUCTIONS

The BIADNBZ Wooden Full Size Loft Bed is designed to maximize space and provide multiple functionalities within a compact footprint. This section details the proper use of its various features.

2.1 Loft Bed Usage

- **Mattress Compatibility:** The upper bed requires a full-size mattress with a recommended thickness of 4-6 inches. No box spring is necessary.
- **Weight Capacity:** The upper bed has a maximum weight capacity of 350 lbs. Do not exceed this limit.
- **Safety Guardrails:** The loft bed is equipped with extra-high guardrails for enhanced safety. Always ensure these guardrails are properly installed and maintained.
- **Age Recommendation:** This loft bed is recommended for users over 6 years of age.

SIZE: INCH

2.2 Integrated Desk and Shelves

The integrated desk provides a dedicated workspace for studying, reading, or other activities. The adjacent shelves offer convenient storage for books, stationery, and personal items.

- **Desk Surface:** Utilize the desk for tasks requiring a flat surface. Avoid placing excessively heavy objects on the desk.
- **Shelving:** Organize books, decorative items, or supplies on the open shelves. Distribute weight evenly to maintain stability.

2.3 Staircase with Storage

The staircase provides safe and easy access to the loft bed. Each step also functions as a storage compartment, with some featuring doors for concealed storage.

- **Access:** Use the staircase for ascending and descending the loft bed. Always use the handrails for support.
- **Storage:** Utilize the compartments within the stairs for storing smaller items, toys, or clothing. Ensure doors are closed securely after use.

2.4 Wardrobe and Drawers

The integrated wardrobe offers space for hanging clothes, while the drawers provide additional storage for folded garments or other personal belongings.

- **Wardrobe:** Use the wardrobe for hanging clothes. Do not overload the hanging rod.
- **Drawers:** Pull drawers out smoothly and push them back completely to prevent obstruction. Avoid placing excessive weight in the drawers.

3. MAINTENANCE

Proper maintenance ensures the longevity and safety of your BIADNBZ Wooden Full Size Loft Bed.

3.1 Cleaning Instructions

- **Dusting:** Regularly dust all wood surfaces with a soft, dry cloth.
- **Spot Cleaning:** For spills or marks, wipe immediately with a damp cloth and a mild, non-abrasive cleaner. Dry thoroughly with a clean cloth.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, ammonia-based products, or silicone-based polishes, as these can damage the wood finish.

3.2 Structural Integrity Check

- **Fastener Tightness:** Periodically (e.g., every 3-6 months) check all screws, bolts, and connections. Tighten any that have become loose to maintain stability and prevent wobbling.
- **Wood Condition:** Inspect the wood for any signs of damage, cracks, or splinters. Address any issues promptly to prevent further deterioration or injury.

- **Guardrails:** Ensure guardrails are always securely attached and free from damage.

4. TROUBLESHOOTING

This section addresses common issues you might encounter with your loft bed.

4.1 Bed Feels Wobbly

- **Check All Fasteners:** The most common cause of wobbling is loose connections. Re-tighten all screws, bolts, and nuts throughout the entire structure, including the bed frame, staircase, desk, and wardrobe.
- **Ensure Level Surface:** Verify that the bed is placed on a flat, level surface. Uneven flooring can contribute to instability.
- **Proper Assembly:** Review the assembly instructions to ensure all components were installed correctly. Incorrectly assembled parts can affect overall stability.

4.2 Missing or Damaged Parts

- **Inspect All Packages:** Before assembly, thoroughly check all boxes and packaging materials for small parts that might be overlooked.
- **Contact Customer Support:** If you discover any missing or damaged parts, do not proceed with assembly. Contact BIADNBZ customer support immediately with your product model number and a description of the missing/damaged item.

4.3 Drawers or Doors Not Closing Properly

- **Check Alignment:** Ensure drawers are properly aligned on their glides and doors are correctly hinged. Adjust if necessary.
- **Obstructions:** Remove any items that might be obstructing the drawer or door path.
- **Hardware:** Check that all drawer slides and door hinges are securely fastened and not bent or damaged.
