### Water Resistance

Your Timex UFC Rush watch is water-resistant to 100 meters (330 feet). This rating means it is suitable for

showering, swimming, and snorkeling. It is **not** suitable for scuba diving or high-impact water sports where water pressure may exceed the rating.

- Do not operate buttons underwater.
- Avoid exposing the watch to extreme temperature changes, which can compromise water seals.
- After exposure to saltwater, rinse the watch with fresh water and dry thoroughly.

## **Cleaning**

Clean your watch regularly with a soft, damp cloth. For the strap, mild soap and water can be used, then rinse thoroughly. Avoid harsh chemicals or abrasive materials.

## **Battery Replacement**

The watch uses one CR2025 battery (included). When the display dims or functions become erratic, the battery may need replacement. It is recommended to have the battery replaced by a qualified watch technician to ensure proper sealing and water resistance integrity.

**Image 3:** Close-up view of the stainless steel back of the Timex UFC Rush watch, showing engraved details such as "UFC", "TIMEX", "WR 100M", "STAINLESS STEEL BACK", and "CR2025 CELL". This indicates the battery type and water resistance rating.
