4. SETUP AND ASSEMBLY

Assembly is required for this sofa. It is recommended that **two people** perform the assembly. All necessary tools are typically included, but a Phillips head screwdriver may be useful for some steps.

1. **Unpack Components:** Carefully remove all parts from the packaging. Place them on a soft, clean surface to prevent scratches. Ensure all packaging materials are removed from inside the sofa frame.
2. **Attach Legs:** Locate the sofa legs and the corresponding attachment points on the underside of the sofa frame. Align the bolts on the legs with the pre-drilled holes and tighten them securely using the provided Allen wrench. Do not overtighten.
3. **Position Sofa:** With assistance, carefully flip the sofa upright and place it in its desired location.
4. **Place Cushions:** Insert the seat cushions into their designated slots. The back cushions are typically integrated into the tufted design.

6. MAINTENANCE

Proper care will extend the life and appearance of your velvet sofa.

General Care:

- **Regular Vacuuming:** Gently vacuum the sofa regularly using a soft brush attachment to remove dust and debris.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading. Position your sofa away from direct sun or use curtains/blinds.
- **Rotate Cushions:** If applicable, rotate and flip removable seat cushions periodically to ensure even wear. The seat cushions on this model are attached, but the back cushions are removable.
- **Protect from Pets:** Keep pets off the sofa to prevent scratches and snags on the velvet fabric.

Cleaning Velvet Upholstery:

- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain and

damage the pile.

- **Mild Soap Solution:** For tougher stains, mix a small amount of mild, pH-neutral soap with distilled water. Dampen a clean cloth with the solution and gently blot the stained area. Follow with a clean, damp cloth to remove soap residue, then blot dry.
- **Brush the Pile:** After cleaning and drying, gently brush the velvet pile in its natural direction using a soft brush to restore its texture.
- **Professional Cleaning:** For deep cleaning or stubborn stains, consult a professional upholstery cleaner.

7. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Sofa feels wobbly	Loose legs or uneven floor.	Check and tighten all leg bolts. If the floor is uneven, place furniture pads or shims under the appropriate leg.
Cushions appear flattened	Normal compression over time.	Fluff and rotate removable cushions regularly. For attached cushions, gentle patting can help restore shape.
Squeaking noises	Loose frame connections or rubbing parts.	Ensure all assembly bolts are tight. If the issue persists, contact customer support.
Velvet looks matted or discolored	Pile direction disturbed or surface dirt.	Gently brush the velvet pile with a soft brush in one direction. For discoloration, refer to the cleaning instructions.
