## AutoSky WCPAA-DUAL

# AutoSky Wireless CarPlay & Android Auto AI Box Lite Plus 2.0 Instruction Manual

Model: WCPAA-DUAL | Brand: AutoSky

## 1. INTRODUCTION

The AutoSky Wireless CarPlay and Android Auto AI Box Lite Plus 2.0 is designed to enhance your in-car infotainment experience. This device allows you to seamlessly switch between wireless Apple CarPlay or Android Auto and popular streaming services like Netflix and YouTube directly on your vehicle's factory-wired CarPlay screen. It offers a plug-and-play solution without requiring modifications to your car's stereo system.

## 2. KEY FEATURES

- **Dual WiFi Module:** Seamlessly switch between Wireless CarPlay/Android Auto and streaming services (Netflix, YouTube) without reconnecting.
- **Wireless Android Auto:** Enjoy all wired Android Auto functionalities wirelessly, eliminating cable clutter.
- **Wireless CarPlay:** Access all wired CarPlay features wirelessly for a convenient and cable-free experience.
- **Streaming Capabilities:** Stream Netflix and YouTube using a mobile hotspot. Supports local video and music playback via SD card slot.
- **Plug & Play Installation:** Designed for vehicles with built-in factory wired CarPlay. Simply plug into the USB port; no original car stereo dismantling required.

## 3. SETUP GUIDE

1. **Vehicle Compatibility:** Ensure your vehicle has a factory-installed wired CarPlay system. The AutoSky AI Box Lite Plus 2.0 is designed to work with existing wired CarPlay ports.
2. **Connect the Device:** Plug the AutoSky AI Box Lite Plus 2.0 into your car's wired CarPlay USB port. Use the

provided USB-C to USB-A cable or USB-C to USB-C cable depending on your car's port type. The device will power on automatically.

3. **Initial Boot-up:** The device will boot up and display its interface on your car's screen. You may see a caution message regarding video playback while driving; agree to proceed.

4. **Bluetooth Pairing (for Wireless CarPlay/Android Auto):**

- On your car's screen, select either 'Apple CarPlay' or 'Android Auto'.
- On your smartphone, go to Bluetooth settings and search for the AutoSky device (e.g., 'AutoSky-XXXX').
- Pair your phone with the AutoSky device. Confirm any pairing codes if prompted.
- Once paired, your phone will automatically connect wirelessly to CarPlay or Android Auto every time you start your car.

5. **Wi-Fi Connection (for Streaming Services):**

- To use streaming apps like Netflix or YouTube, the AutoSky device requires an internet connection.
- Go to the 'Settings' menu on the AutoSky device interface.
- Select 'Network & Internet' or 'Wi-Fi'.
- Turn on Wi-Fi and connect to your mobile phone's personal hotspot or another available Wi-Fi source.
- Ensure your mobile hotspot is active on your phone.

## 4. OPERATING INSTRUCTIONS

### 4.1. Using Wireless CarPlay / Android Auto

- After successful Bluetooth pairing, your smartphone's CarPlay or Android Auto interface will appear on your car's screen.
- Navigate through apps, make calls, send messages, and use navigation (e.g., Apple Maps, Google Maps, Waze) directly from your car's touchscreen or steering wheel controls.
- The device supports voice commands (Siri for CarPlay, Google Assistant for Android Auto) for hands-free operation.

### 4.2. Accessing Streaming Services (Netflix, YouTube)

- Ensure the AutoSky device is connected to a Wi-Fi source (e.g., mobile hotspot).
- From the main interface, tap on the Netflix or YouTube app icon.
- Log in with your existing account credentials.
- You can now browse and stream content. Remember that video playback while driving may be restricted by local laws and is not recommended for safety.

### 4.3. Playing Local Media

- Insert an SD card containing video or music files into the designated slot on the AutoSky device.
- Navigate to the 'Files' or 'Video' app on the device's interface to access and play your local media.

# Enjoy seamless entertainment with our Dual Wi-Fi Module

Seamlessly switch between Apple CarPlay or Android Auto to streaming services like Netflix or YouTube for on-the-go entertainment

Video: This video provides instructions on how to set up screen mirroring with the device.

## 6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the device. Avoid liquid cleaners or abrasive materials.
- **Software Updates:** Periodically check the device's settings for available software updates to ensure optimal performance and compatibility. Follow on-screen instructions for any updates.

- **Storage:** When not in use for extended periods, store the device in a cool, dry place away from direct sunlight and extreme temperatures.

## 7. TROUBLESHOOTING

- **Device Not Powering On:** Ensure the device is securely plugged into a functional USB port that supports wired CarPlay. Check your car's ignition status.
- **No CarPlay/Android Auto Connection:**
  - Verify your phone's Bluetooth is on and paired with the AutoSky device.
  - Ensure your car's factory wired CarPlay is active and recognized by the vehicle.
  - Restart both your phone and the AutoSky device (by unplugging and replugging).
- **Streaming Apps Not Working (Netflix/YouTube):**
  - Confirm the AutoSky device is connected to a stable Wi-Fi network (e.g., your mobile hotspot).
  - Check your mobile hotspot's data plan and signal strength.
  - Ensure you are logged into your streaming service accounts.
- **Screen Freezing or Lag:**
  - Restart the AutoSky device.
  - Check for any available software updates for the device.
  - Ensure your phone's operating system is up to date.
