## Machenike K500A-B84

# Machenike K500A 75% Mechanical Keyboard User Manual

Model: K500A-B84

## INTRODUCTION

The Machenike K500A is a compact 75% mechanical keyboard designed for gaming and general use. It features 84 keys, hot-swappable tactile brown switches, and vibrant Rainbow LED backlighting. The keyboard is built with durable double-shot PBT keycaps and connects via a wired USB connection, ensuring stable and lag-free performance.

## SETUP GUIDE

### Package Contents

- Machenike K500A Mechanical Keyboard
- USB Cable

### Connecting the Keyboard

1. Locate the USB-C port on the back or side of the Machenike K500A keyboard.
2. Insert one end of the provided USB cable into the keyboard's USB-C port.

3. Insert the other end of the USB cable (USB-A) into an available USB port on your computer or gaming console.
4. The keyboard will be automatically recognized by your operating system. No additional drivers are typically required for basic functionality.

### Hot-Swappable Switches

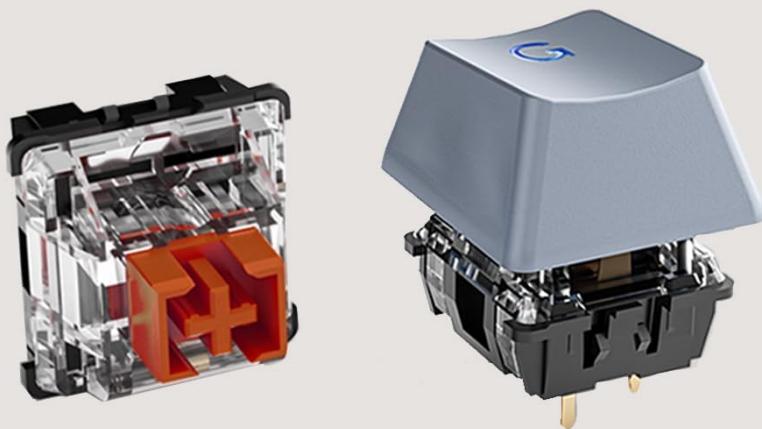

This keyboard is equipped with hot-swappable sockets, allowing users to change mechanical switches without soldering. The pre-installed switches are tactile brown switches, offering a balanced typing experience with a noticeable bump.

- **Brown Switch Specifications:**
- Actuation Force: 60g
- Actuation Distance: 2.4mm
- Travel Distance: 4.4mm

HUANO® HOT-SWAPPABLE SWITCHES

## QUICK, PRECISE EXECUTION

Choose between these switches that offer their own distinct feel—clicky, linear, tactile.

### LED Backlight Control

The keyboard features Rainbow LED backlighting with 9 preset marquee lighting effects. Use the function keys (Fn) combined with specific keys to cycle through lighting modes and adjust brightness.

- **Fn + \|**: Cycle through different lighting effects.
- **Fn + ↑**: Increase backlight brightness.
- **Fn + ↓**: Decrease backlight brightness.
- **Fn + ←**: Slow down lighting effect speed.
- **Fn + →**: Speed up lighting effect speed.

## LED BACKLIGHT

## Advanced Features

- Anti-ghosting & N-key Rollover:** Ensures all key presses are registered accurately, even during rapid typing or complex gaming commands.
- Adjustable Anti-slip Feet:** Provides stability and allows for ergonomic angle adjustment.
- EVA Foam:** Integrated EVA foam helps reduce hollow sounds produced by the keyboard, improving typing acoustics.

## MAINTENANCE

### General Cleaning

- Disconnect the keyboard from your computer before cleaning.
- Use a can of compressed air to remove dust and debris from between the keycaps.
- Wipe the keycaps and keyboard surface with a soft, slightly damp cloth. Avoid excessive moisture.
- Do not use harsh chemicals or abrasive cleaners.

## Keycap and Switch Removal (for Hot-Swappable Models)

- Use a keycap puller to gently remove keycaps. Pull straight up to avoid damaging the switch stem.
- Use a switch puller to remove switches. Insert the puller's prongs into the clips on the top and bottom of the switch, squeeze, and gently pull the switch straight up. Apply even pressure to avoid bending pins.
- When inserting new switches, align the pins carefully with the sockets and press down firmly until the switch clicks into place. Do not force switches if they do not align.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Keyboard not responding	Loose USB connection; Incorrect USB port; Driver issue.	Ensure USB cable is securely connected. Try a different USB port. Restart your computer.
LED backlight not working or inconsistent	Backlight turned off; Brightness set to minimum; Software conflict.	Press Fn + ↑ to increase brightness. Cycle through lighting modes using Fn + \ . Ensure no conflicting software is running.
Specific keys not working	Debris under keycap; Faulty switch; Keycap not seated properly.	Remove keycap and clean. If hot-swappable, try reseating or replacing the switch. Ensure keycap is pressed down fully.
Difficulty removing switches	Switches are tightly seated; Incorrect switch puller usage.	Ensure the switch puller is correctly engaging both clips of the switch. Apply firm, even pressure. Avoid excessive force to prevent damage.

## SPECIFICATIONS
