# Belkin BoostCharge Pro Wireless Power Bank User Manual

Model: BPD007

## 1. INTRODUCTION

---

The Belkin BoostCharge Pro Wireless Power Bank is a portable charging solution designed for Qi2 and MagSafe compatible devices, including iPhone 16, 15, 14, and 13 series. It offers up to 15W fast wireless charging and features an integrated kickstand for convenient viewing. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your power bank.

*Image: The Belkin BoostCharge Pro Wireless Power Bank in black, shown with the included USB-C to USB-C cable.*

## 2. SETUP

---

### 2.1. Initial Charging

Before first use, fully charge your BoostCharge Pro Wireless Power Bank. Connect the included USB-C to USB-C cable to the power bank's USB-C port and to a compatible USB-C power adapter (not included). The LED indicator lights on the power bank will show the charging status.

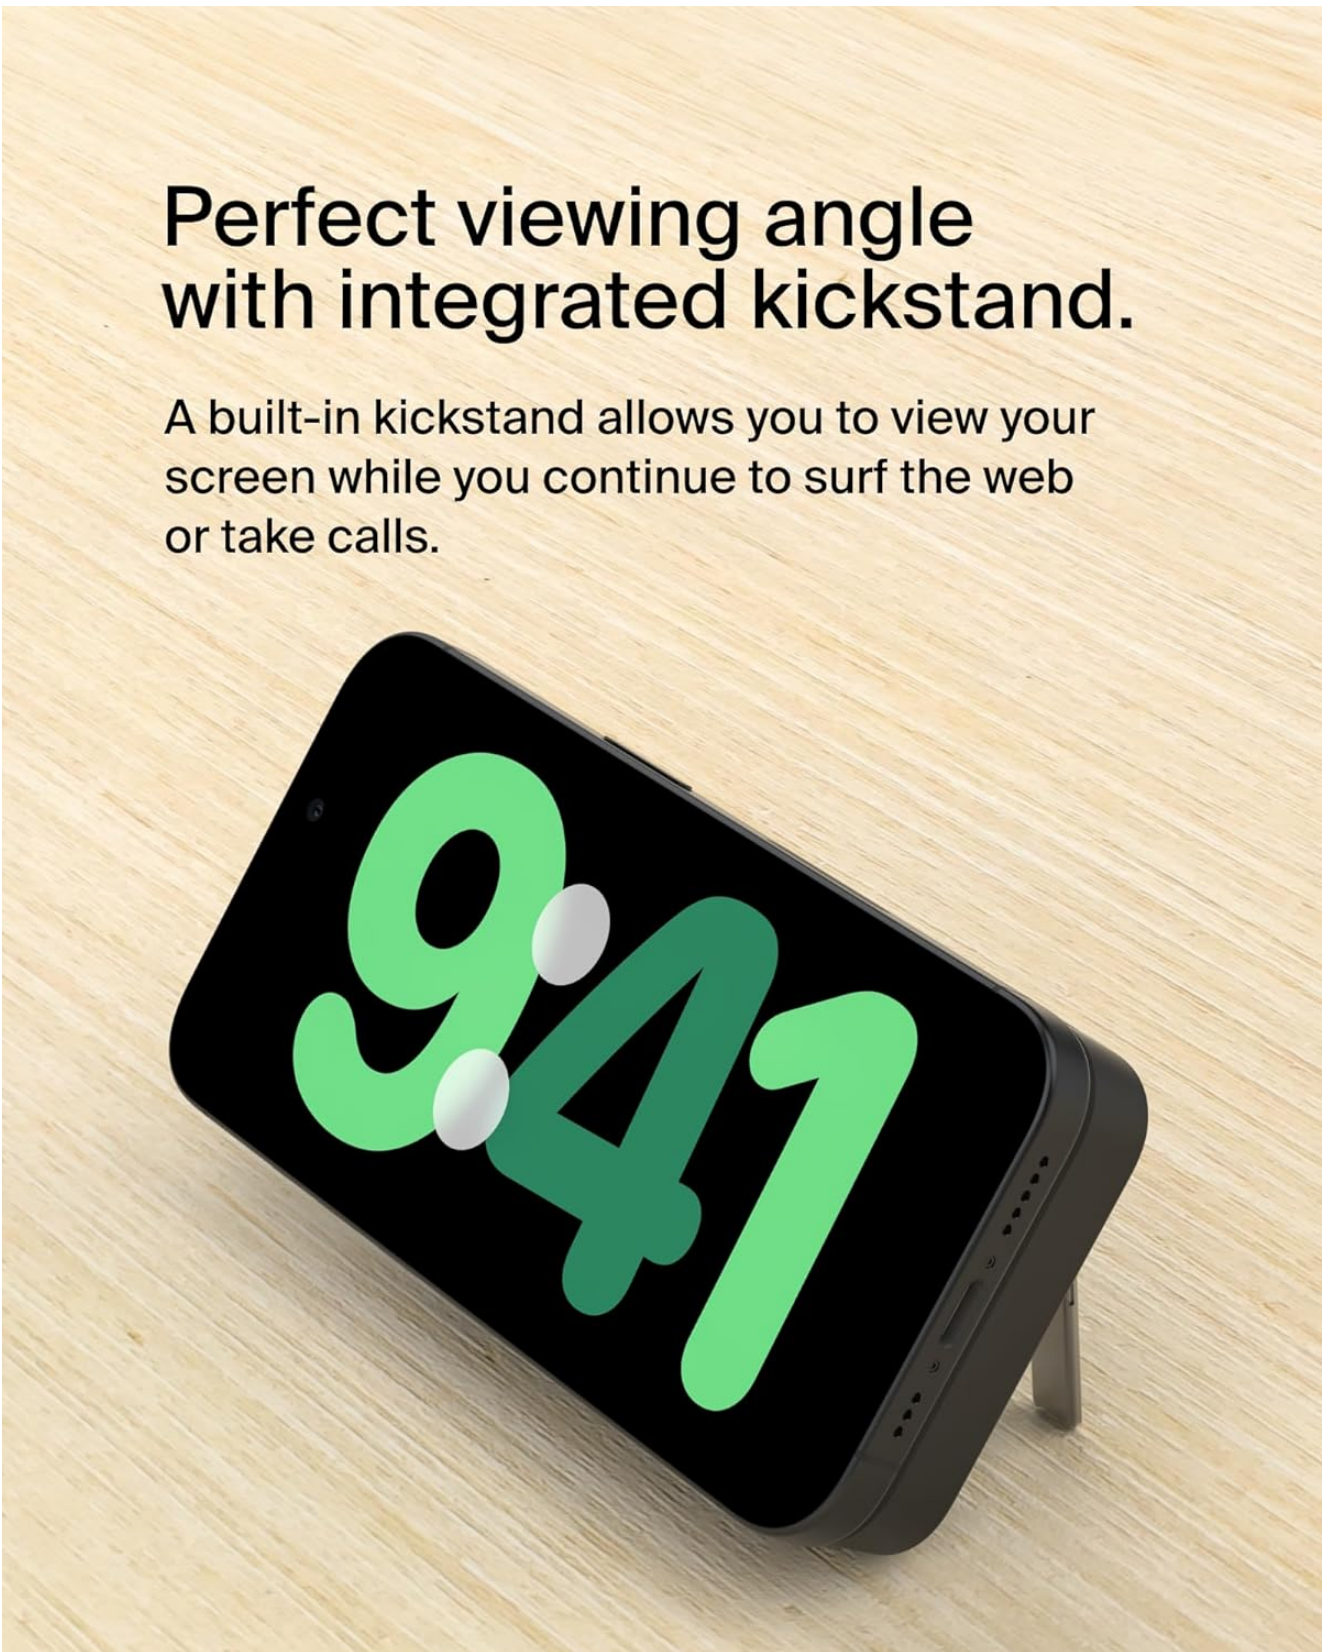

### 2.2. Connecting to Your Device

For wireless charging, align your Qi2 or MagSafe compatible device to the magnetic surface of the power bank. The magnetic attachment ensures proper alignment for optimal charging efficiency. For wired charging, connect your

device to the power bank's USB-C port using a compatible cable.

## Perfect viewing angle with integrated kickstand.

A built-in kickstand allows you to view your screen while you continue to surf the web or take calls.

*Image: A close-up view demonstrating the magnetic attachment of the power bank to the back of an iPhone, showing the secure connection.*

### **2.3. Using the Integrated Kickstand**

The power bank features a built-in pop-up kickstand. Extend the kickstand to prop up your device in either portrait or landscape mode, allowing for hands-free viewing while charging.

# Use as a standard charger.

Just plug into a wall outlet and the dual-purpose design will charge your device while recharging the power bank.

*Image: An iPhone standing upright, supported by the integrated kickstand of the attached power bank, displaying the time.*

## 2.4. Setup and Usage Demonstration Video

*Video: An official Belkin video demonstrating the magnetic attachment, kickstand functionality, and charging capabilities of the BoostCharge Pro Wireless Power Bank.*

## 3. OPERATING INSTRUCTIONS

---

### 3.1. Wireless Charging (Qi2 & MagSafe)

The power bank supports up to 15W fast wireless charging for Qi2 and MagSafe compatible devices. Simply attach your device to the magnetic surface. The power bank will automatically begin charging.

# Add hours of life to your device.

Get an additional 28 hours of battery  
life\* with this 8K power bank.

\*Maximum additional video playback hours calculated by comparing the cell capacity of this power bank with the maximum video playback hours achievable by the iPhone 15 Pro under normal conditions. Actual results will vary depending on varying factors for individual users.

*Image: An iPhone being wirelessly charged by the power bank, indicating 15W fast charging.*

### 3.2. Simultaneous Charging

You can charge two devices simultaneously. Wirelessly charge one device by attaching it to the power bank, and use the USB-C port with the included cable to charge a second device.

# Charge Two Devices Simultaneously

*Image: An iPhone wirelessly charging on the power bank while an Apple Watch is simultaneously charged via the power bank's USB-C port.*

### **3.3. Pass-Through Charging**

The power bank supports pass-through charging. You can plug the power bank into a wall outlet and simultaneously charge your device wirelessly while the power bank itself recharges.

# Belkin Connected Equipment Coverage

This Belkin product includes standard 2-year coverage and up to \$2,500 in connected equipment coverage.

**\$2,500  
CEW  
CONNECTED  
EQUIPMENT  
COVERAGE™**

Visit our website for detailed terms and conditions.

### 3.4. Battery Capacity and Indicators

The 8,000 mAh capacity provides significant additional battery life for your smartphone. The LED indicator lights on the power bank display the remaining battery level, allowing you to know when it's time to recharge.

# Portable and travel friendly.

Compliant with TSA airline safety standards for peace of mind while flying, our wireless power bank can be with you in your carry-on.

*Image: The power bank shown with an overlay indicating it adds 28 hours of battery life to a device.*

## **3.5. Travel Compliance**

The power bank is designed to be portable and travel-friendly, complying with TSA airline safety standards for carry-on luggage.

# Carry-On Safe

Our power bank features 29.6 Wh (watt hours) to be fully compliant with 100 Wh-limit TSA carry-on requirements.

## 4. MAINTENANCE

To ensure the longevity and optimal performance of your Belkin BoostCharge Pro Wireless Power Bank, follow these maintenance guidelines:

- Keep the power bank clean by wiping it with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- Store the power bank in a cool, dry place away from direct sunlight, extreme temperatures, and moisture.

- Avoid dropping the device or subjecting it to strong impacts.
- Do not attempt to disassemble or repair the power bank yourself. Refer to authorized service personnel for any repairs.

## 5. TROUBLESHOOTING

If you encounter issues with your power bank, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not charging wirelessly.	Misalignment, non-compatible device, thick phone case.	Ensure proper magnetic alignment. Verify device is Qi2/MagSafe compatible. Remove phone case if thicker than 3mm.
Power bank not charging.	Faulty cable or power adapter, power bank fully discharged.	Try a different USB-C cable and power adapter. Allow sufficient time for charging, especially if fully depleted.
Power bank or device gets hot during charging.	Normal operation, excessive load, poor ventilation.	Some warmth is normal. Ensure adequate ventilation. If excessively hot, disconnect and allow to cool. Reduce simultaneous charging if possible.
LED indicators not working.	Power bank off or depleted.	Press the power button to check status. Recharge the power bank.

If the problem persists after trying these solutions, please contact Belkin customer support.

## 6. SPECIFICATIONS

Feature	Detail
Model Number	BPD007
Battery Capacity	8,000 mAh
Wireless Output	Up to 15W (Qi2)
Wired Output	USB-C 20W max
Input	USB-C PD20W max (Pass-thru) / USB-C PD18W max (Power bank recharge)
Dimensions (L x W x H)	3.97 x 2.74 x 0.73 inches
Weight	6.7 ounces
Compatibility	Qi2-enabled devices, MagSafe compatible iPhones (iPhone 13, 14, 15, 16 series)
Included in Box	1 x BoostCharge Pro Wireless Power Bank 8K, 1 x 1M USB-C to USB-C cable
