

## Indian Motorcycle 2890532

# Indian Motorcycle USB Port Kit Instruction Manual

Model: 2890532

## 1. INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your Indian Motorcycle USB Port Kit. This kit is designed to provide a convenient USB charging point for your mobile devices while riding.

## 2. WHAT'S IN THE BOX

Verify that all components are present before beginning installation:

- USB Module
- Wire Harness
- Cable Tie

## 3. SETUP AND INSTALLATION

The Indian Motorcycle USB Port Kit is designed for easy installation and direct integration into your motorcycle's electrical system. Professional installation is recommended if you are unfamiliar with motorcycle electrical systems.

1. **Preparation:** Ensure the motorcycle's ignition is off and the battery is disconnected to prevent electrical shorts during installation.
2. **Locate Installation Point:** Identify a suitable location on your motorcycle for the USB module. Refer to your motorcycle's service manual for specific accessory port locations if available.
3. **Connect Wire Harness:** Connect the provided wire harness to the USB module. Ensure a secure connection.
4. **Integrate into Electrical System:** Connect the wire harness to the motorcycle's designated accessory power source. Follow the wiring diagram provided with your motorcycle or consult a qualified technician.
5. **Secure Components:** Use the provided cable tie to secure the wire harness and USB module, ensuring they are clear of moving parts and heat sources.

6. **Test Functionality:** Reconnect the battery and turn the ignition on. Plug a compatible USB device into the port to confirm it is receiving power.

## 4. OPERATING INSTRUCTIONS

---

Once installed, the USB Port Kit operates automatically when the motorcycle's ignition is on.

- **Charging Devices:** Connect your mobile device (e.g., smartphone, GPS) to the USB port using a compatible USB cable.
- **Power Indication:** The USB port may feature an indicator light (if applicable) to show that power is being supplied.
- **Ignition Dependent:** The USB port will only provide power when the motorcycle's ignition is in the ON position. It will cease to provide power when the ignition is turned OFF to prevent battery drain.

## 5. MAINTENANCE

---

The USB Port Kit requires minimal maintenance to ensure long-term performance.

- **Cleaning:** Keep the USB port clean and free of dust, dirt, and moisture. Use a dry, soft cloth for cleaning.
- **Inspection:** Periodically inspect the USB module and wire harness for any signs of wear, damage, or

loose connections.

- **Cover:** Ensure the protective cover (if present) is properly closed when the port is not in use to prevent water and debris ingress.

## 6. TROUBLESHOOTING

If the USB port is not functioning correctly, consider the following:

- **No Power to Device:**
  - Ensure the motorcycle's ignition is ON.
  - Check the USB cable for damage or proper connection to both the device and the port.
  - Verify that the wire harness connections are secure and free from corrosion.
  - Inspect any fuses in the motorcycle's electrical system that supply power to the accessory port.
- **Slow Charging:**
  - Ensure your device and cable are compatible with the USB port's output specifications.
  - Some devices may charge slower if they are in active use while connected.
- **Intermittent Connection:**
  - Check for loose connections at the USB module or within the wire harness.
  - Ensure the USB cable is not damaged or worn.

If issues persist, contact Indian Motorcycle customer support or a certified service technician.

## 7. SPECIFICATIONS

Feature	Detail
Manufacturer	Indian Motorcycle
Model Number	2890532
ASIN	B0CZXCJ775
Date First Available	April 25, 2024
Included Components	USB Module, Wire Harness, Cable Tie

## 8. WARRANTY AND SUPPORT

For warranty information and technical support, please refer to the official Indian Motorcycle website or contact your authorized Indian Motorcycle dealer. Keep your purchase receipt and model number (2890532) for any warranty claims or support inquiries.
