Kozyard KZPHG1218

Kozyard Apollo 12'x14' Hardtop Gazebo Instruction Manual

Model: KZPHG1218 | Brand: Kozyard

1. INTRODUCTION

Thank you for choosing the Kozyard Apollo 12'x14' Hardtop Gazebo. This manual provides essential information for the safe assembly, operation, and maintenance of your new outdoor structure. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

Figure 1.1: The Kozyard Apollo 12'x14' Hardtop Gazebo provides a spacious outdoor living area.

2. SAFETY INFORMATION

To ensure safe use and prevent injury or damage, observe the following safety guidelines:

- Always follow the assembly instructions provided in the complete manual.
- This gazebo is heavy and large; ensure at least two people are present during assembly and disassembly.
- Exercise caution when handling the mosquito net to avoid injury.
- Do not exceed the specified weight limit of 2500 lbs for snow loads.
- Do not exceed the specified wind speed limit of 40 MPH.
- Secure the gazebo to a stable foundation to prevent it from tipping over in strong winds.

3. PACKAGE CONTENTS

Verify that all components are present and undamaged before beginning assembly. Refer to the detailed parts list in your physical

assembly manual for specific quantities and part numbers. Key components include:

- Aluminum Frame Components (wood-look finish)
- Galvanized Steel Double Roof Panels
- Mosquito Netting
- Hardware Kit (bolts, screws, washers, etc.)
- Tools for Assembly (basic tools may be included, but personal tools are recommended)

4. ASSEMBLY INSTRUCTIONS

Assembly of the Kozyard Apollo Gazebo requires careful attention to detail and adherence to the step-by-step instructions provided in the dedicated assembly guide included with your product. It is highly recommended to have at least two adults for the assembly process.

4.1 General Assembly Steps

1. **Unpack and Organize:** Lay out all parts and hardware. Verify against the parts list.
2. **Assemble Frame:** Connect the main aluminum frame components, ensuring all connections are secure but not fully tightened until the structure is complete.
3. **Install Roof Panels:** Carefully attach the galvanized steel double roof panels. The gutter system is integrated to direct rainwater efficiently.
4. **Attach Mosquito Netting:** Install the mosquito netting onto the designated tracks.
5. **Final Tightening and Anchoring:** Once the entire structure is assembled, tighten all bolts and screws. Securely anchor the gazebo to a stable ground surface using appropriate anchoring hardware (not always included, check your package).

IMITATION WOOD FRAME

All metal structure, Triangle support

4.2 Assembly Video Reference

Your browser does not support the video tag.

Video 4.1: An official Kozyard LLC video demonstrating features and aspects of the four-season hardtop gazebo, which can aid in understanding the assembly process.

5. OPERATING INSTRUCTIONS

5.1 Mosquito Netting

The gazebo includes a mosquito net to provide protection from insects. The netting runs on tracks integrated into the frame. To use, simply pull the netting closed and secure it with the zippers or ties provided. When not in use, the netting can be tied back to the posts.

Figure 5.1: The double track system allows for simultaneous use of mosquito nets and optional privacy curtains.

5.2 Optional Curtains

The gazebo frame is designed with double tracks to accommodate optional privacy curtains (sold separately). These can be installed on the outer track for added privacy or sun protection.

Figure 5.2: The gazebo supports the installation of privacy curtains for enhanced comfort.

6. MAINTENANCE

Regular maintenance will extend the life and appearance of your gazebo.

- **Cleaning:** Clean the frame and roof panels periodically with mild soap and water. Rinse thoroughly and dry to prevent water spots. Do not use abrasive cleaners or harsh chemicals.
- **Netting Care:** The mosquito net can be gently hand-washed with mild soap and water. Ensure it is completely dry before storing or reattaching.
- **Hardware Inspection:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten as necessary.
- **Snow Removal:** While the roof is designed to withstand snow loads up to 2500 lbs, it is recommended to remove heavy accumulations of snow to prevent excessive stress on the structure. Use a soft brush or broom to avoid damaging the roof panels.
- **Winter Storage (Optional):** If you live in an area with extreme winter conditions, consider disassembling and storing the gazebo indoors to prolong its lifespan.

7. TROUBLESHOOTING

If you encounter issues with your gazebo, refer to the following common solutions:

- **Wobbly Structure:** Ensure all bolts and screws are fully tightened. Verify that the gazebo is anchored securely to a level surface.
- **Water Leakage:** Check that all roof panels are correctly installed and overlapping as per the assembly instructions. Ensure the gutter system is clear of debris.
- **Difficulty with Netting/Curtains:** Inspect the tracks for any obstructions or damage. Ensure the netting/curtains are properly aligned on the tracks.

For further assistance, please contact Kozyard customer support.

8. SPECIFICATIONS

Feature	Specification
Model Number	KZPHG1218
Product Dimensions	168"L x 144"W x 120"H (12ft x 14ft)
Item Weight	369 pounds
Frame Material	Aluminum, Alloy Steel (Wood-look finish)
Roof Material	Galvanized Steel (Double Roof)
Water Resistance Level	Waterproof
Ultraviolet Light Protection	50
Snow Load Capacity	Up to 2500 lbs
Wind Resistance	Up to 40 MPH (when anchored)
Assembly Required	Yes

12' X 14' DIMENSIONS
