## BOSRII Full Size Bed Frame

# BOSRII Full Size Bed Frame Instruction Manual

Model: Full Size Bed Frame

## INTRODUCTION

---

Thank you for choosing the BOSRII Full Size Bed Frame. This manual provides detailed instructions for the safe and efficient assembly, operation, and maintenance of your new bed frame. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

## SAFETY INFORMATION

To ensure safe use of your BOSR11 Full Size Bed Frame, please observe the following:

- **Weight Capacity:** Do not load more than 4000 pounds (approximately 1814 kg) onto the bed frame. Exceeding this limit may compromise the structural integrity and safety of the frame.
- Ensure all bolts and screws are securely tightened during assembly and periodically check for tightness during use.
- Keep small parts and packaging materials away from children to prevent choking hazards.
- Assemble the bed frame on a soft, clean surface (e.g., carpet) to prevent scratching components.
- Always lift, do not drag, the assembled bed frame to reposition it.

## PACKAGE CONTENTS

Before assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Headboard and Footboard sections

- Side Rails
- Support Legs
- Metal Slats
- Hardware Pack (bolts, washers, nuts, Allen wrench)
- Instruction Manual

## SETUP AND ASSEMBLY INSTRUCTIONS

---

Assembly of the BOSR11 Full Size Bed Frame is designed to be straightforward. All necessary tools are included, and parts are clearly labeled. It is recommended to have two people for assembly.

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a clean, soft surface. Refer to the parts list in your package to identify each piece.
2. **Assemble Headboard and Footboard:** Attach the horizontal bars to the vertical posts of the headboard and footboard using the provided hardware. Ensure all connections are snug but do not fully tighten yet.
3. **Connect Side Rails:** Attach the side rails to the assembled headboard and footboard sections. Align the holes and secure with bolts.
4. **Install Support Legs:** Position and attach the central support legs to the frame. The BOSR11 frame features internally placed support legs to prevent accidental bumps.
5. **Insert Metal Slats:** Place the metal slats across the frame. The slatted support system eliminates the need for a box spring. Ensure slats are evenly spaced and secured according to the specific design.
6. **Final Tightening:** Once all components are in place and aligned, systematically tighten all bolts and screws using the provided Allen wrench. Ensure all connections are firm and secure.

## internally Placed Support Legs

Enhanced safety and comfort with support legs strategically placed internally to prevent accidental bumps and provide a seamless sleeping experience

## Super Wider & Thicker

Crafted with wider and thicker tubing for a sleek and robust support system, offering superior stability and durability

Image: A close-up view illustrating the wider and thicker steel tubing used in the bed frame's construction, contributing to its superior stability and durability.

### OPERATING INSTRUCTIONS

Once assembled, your BOSR11 Full Size Bed Frame is ready for use.

- **Mattress Placement:** Carefully place your full-size mattress directly onto the metal slats. No box spring is required.
- **Under-Bed Storage:** Utilize the 14-inch ground clearance for convenient under-bed storage. This space is ideal for organizing boxes, bins, or other items.
- **Rounded-Corner Legs:** The cylinder-shaped corner design of the legs helps prevent scratching walls and protects toes from injury.

**Under Bed Storage**  
High raised design creates additional space, providing ample room for convenient storage solutions and organization options.

Image: A view beneath the bed frame demonstrating the generous 14-inch ground clearance, providing ample space for convenient under-bed storage solutions like baskets and luggage.

### MAINTENANCE

Regular maintenance will help prolong the life and performance of your bed frame.

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the powder-coated finish.
- **Hardware Check:** Periodically (e.g., every 3-6 months) inspect all bolts and screws to ensure they remain tight. Re-tighten if necessary to maintain stability and prevent squeaking.
- **Weight Distribution:** Distribute weight evenly across the bed frame to prevent undue stress on specific areas.

### TROUBLESHOOTING

If you encounter any issues with your BOSR11 Full Size Bed Frame, refer to the following common solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Bed frame squeaks	Loose hardware connections.	Tighten all bolts and screws. Ensure all parts are properly aligned.
Mattress slides on frame	Smooth surface of slats.	Consider placing a non-slip mat or carpet tape between the mattress and the slats to increase friction.
Frame feels unstable/rocks	Uneven floor or improperly installed support legs.	Ensure the bed frame is on a level surface. Check that all support legs are fully extended and making firm contact with the floor. Verify all assembly connections are secure.

## SPECIFICATIONS

---

- **Model:** Full Size Bed Frame
- **Brand:** BOSRIL
- **Product Dimensions:** 75"L x 54"W x 14"H
- **Color:** Black
- **Material:** Thickened and Reinforced Steel
- **Finish Type:** Powder Coated
- **Weight Capacity:** 4000 lbs
- **Ground Clearance:** 14 Inches
- **Special Feature:** Squeak Resistant, Rounded-Corner Leg Design, Under-bed storage
- **Assembly Required:** Yes
- **Compatible Mattress Size:** Full
