NUNET ice maker 40

NUNET 3-in-1 Countertop Ice Maker and Water Dispenser User Manual

WELCOME TO YOUR NUNET APPLIANCE

This manual provides comprehensive instructions for the NUNET 3-in-1 Countertop Ice Maker and Hot/Cold Water Dispenser. It is designed to help you safely install, operate, and maintain your appliance for optimal performance and longevity. Please read this manual thoroughly before first use and keep it for future reference.

IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or injury, always follow these basic safety precautions:

- Read all instructions carefully before operating the appliance.
- Use only pure, potable water for all functions.
- Ensure the appliance is placed on a stable, level surface with adequate ventilation. Maintain at least 19 inches of clear space above the unit.
- Do not immerse the appliance, power cord, or plug in water or other liquids.
- Keep the appliance out of reach of children and supervise them when near the unit, especially when dispensing hot water.
- Unplug the appliance from the electrical outlet before cleaning, maintenance, or when not in use for extended periods.
- Do not operate the appliance with a damaged power cord or plug. Contact customer support for assistance.

- Do not attempt to repair or modify the appliance yourself. Refer all servicing to qualified personnel.

APPLIANCE COMPONENTS AND FEATURES

The NUNET 3-in-1 appliance integrates an ice maker with hot and cold water dispensing capabilities, providing convenience for various beverage needs.

Key Features

- **Efficient Hot & Cold Water Dispenser with Built-in Ice Maker:** Rapidly produces 0.8L hot water ($\geq 194^{\circ}\text{F}$) or 2.5L chilled water ($\leq 46^{\circ}\text{F}$). The ice maker produces up to 44 pounds of bullet ice daily, with a 4-pound storage capacity.
- **Integrated Hot, Cold, and Room Temperature Water Dispensing:** Features an easy-to-use touch panel with indicator lights for hot water, room temperature water, and cold water.
- **Two Water Supply Methods:** Supports manual water addition (up to 0.8 gallons) or direct connection to a water filtration system using the included 10ft PE water inlet hose (1/2" or 1/4" adapter).
- **Compact and Stylish Design:** Crafted with a sleek stainless steel finish, suitable for various kitchen, office, or home bar setups. Operates quietly (less than 46dB during compressor operation).
- **Energy Saving:** The water heater is rated at 320W, and ice making or water cooling functions are rated at an energy-saving 160W.

Control Panel

3-IN-1 WATER DISPENSER WITH ICE MAKER

(Note:use pure water only)

Hot water
temperature $\geq 194^{\circ}\text{F}$

Cold water
temperature $\leq 46.4^{\circ}\text{F}$

Ice block

Figure 2: Detailed view of the control panel with function indicators.

The control panel features intuitive touch buttons and indicator lights for various functions, including Power, Add Water, Child Lock, Hot Water, Ice Cube, and Cold Water. These indicators provide clear operational status.

Product Dimensions

Please make sure your countertop has at least 19" height clearance if you use it as a countertop water/ice dispenser.

Figure 3: Appliance dimensions and recommended clearance.

The appliance measures 16.8 inches deep, 10.9 inches wide, and 18.86 inches high. For proper ventilation and operation, ensure at least 19 inches of height clearance above the unit when placing it on a countertop.

INSTALLATION AND INITIAL SETUP

Unpacking

Carefully remove the appliance from its packaging. Inspect the unit for any signs of damage. Retain the packaging materials for future transport or storage.

Placement

Place the unit on a stable, level, and heat-resistant surface. Ensure adequate air circulation around the sides and back of the unit. As noted in the dimensions section, a minimum of 19 inches of clear space above the unit is required.

Water Supply Options

3 WAYS FOR WATER SUPPLY

Automatic Water Supply/Manually Add Water
(Pure Water Only)

Figure 4: Water supply methods for the NUNET dispenser.

Your NUNET dispenser offers two primary methods for water supply:

1. Manual Water Addition

Open the top cover of the appliance and pour pure water directly into the internal water tank. The tank has an approximate capacity of 0.8 gallons. The 'Add Water' indicator light on the control panel will illuminate when the water level is low.

2. Automatic Water Line Connection

Figure 5: Water inlet and connection accessories.

For continuous water supply, connect the included 10ft PE water inlet hose to your existing water filtration system. Use the provided 1/2" or 1/4" diameter hose adapter as needed to ensure a secure connection. Attach the other end of the hose to the water inlet port located at the back of the appliance.

Initial Rinse

Before consuming any water or ice, it is recommended to perform an initial rinse. Dispense and discard a few cups of hot water, cold water, and at least one batch of ice to flush the internal system and remove any manufacturing residues.

OPERATING YOUR NUNET DISPENSER

Powering On

Plug the appliance into a grounded electrical outlet. Press the 'Power' button on the control panel to turn the unit on. The power indicator light will illuminate.

Dispensing Hot Water

Place a heat-safe cup under the hot water faucet. Press the 'Hot Water' button on the control panel. The hot water indicator light will illuminate. The water temperature will be approximately 194°F (90°C). Exercise caution as the water is very hot.

Dispensing Cold Water

Place a cup under the cold water faucet. Press the 'Cold Water' button on the control panel. The cold water indicator light will illuminate. The cold water temperature will be approximately 46°F (8°C).

Making Ice

**6-8 MINUTES
PER CYCLE
12 PCS BULLET-SHAPED ICE CUBES
STORE & DISPENSE 4LBS
ICE MAX ONCE.**

Figure 6: Ice production details.

Ensure there is sufficient water in the reservoir. Press the 'Ice Cube' button on the control panel. The ice cube indicator light will illuminate. The unit will begin making bullet-shaped ice cubes, typically producing 12 pieces per cycle in 6-8 minutes. The internal ice storage capacity is 4 pounds.

Child Safety Lock

Water Reservoir

Touch Panel Display

Removable Drip Tray

Figure 7: Child safety lock and other features.

To prevent accidental dispensing of hot water, the hot water faucet is equipped with a child safety lock. To dispense hot water, first press the 'Unlock' button on the control panel, then press the 'Hot Water' button.

CLEANING AND CARE

Regular cleaning is essential to ensure optimal performance, hygiene, and longevity of your NUNET appliance. Always unplug the unit before cleaning.

Cleaning Steps

1/4" 10ft Water Inlet Hose

1/4" Tee 3 Way Tube Quick Connector

Figure 8: Step-by-step cleaning guide.

1. **Clean Water Tank:** Remove the top cover of the appliance. Use a long-handle brush (often included) to thoroughly clean the interior of the main water tank.
2. **Clean Internal Tray:** Locate the internal tray (often where ice is collected or water is chilled). Unlock and pull out this tray for separate cleaning.
3. **Remove Covers:** Remove any additional internal covers as instructed in the diagram to access all areas for thorough cleaning.
4. **Rinse Thoroughly:** Clean the water tank and removable components with a long-handle brush or rinse with high-pressure water to remove any residue or buildup.
5. **Drain Dirty Water:** Locate the drain plugs at the bottom of the unit for both the cool water tank and the hot water tank. Open these plugs to completely drain any dirty water. Close them securely after draining.

External Cleaning

Wipe the exterior surfaces of the appliance with a soft, damp cloth. Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish.

Drip Tray

The removable drip tray should be emptied and cleaned regularly to prevent overflow and maintain hygiene. Simply slide it out, empty, wash with mild soap and water, and replace.

COMMON ISSUES AND SOLUTIONS

If you encounter any problems with your NUNET appliance, refer to the following table for common issues and their solutions. If the problem persists, contact customer support.

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
No Power	Unit unplugged; power outlet not working; circuit breaker tripped.	Ensure unit is plugged in securely. Check power outlet with another appliance. Reset circuit breaker if necessary.
No Hot Water	Hot water function not activated; insufficient water in tank.	Press the 'Hot Water' button. Ensure water tank is filled.
No Cold Water	Cold water function not activated; insufficient water in tank.	Press the 'Cold Water' button. Ensure water tank is filled.
Ice Maker Not Producing Ice	Insufficient water; ice bin full; ambient temperature too high.	Add water to the reservoir. Empty the ice bin. Ensure unit is in a cool, well-ventilated area.
Water/Ice has Metallic Taste	New unit residue; improper cleaning; water quality.	Perform thorough initial cleaning as per maintenance section. Repeat cleaning if taste persists. Use only pure, filtered water.
Water Leaking	Loose connections; damaged hose; overfilled water tank.	Check all hose connections for tightness. Inspect hoses for damage. Do not overfill the water tank.

TECHNICAL SPECIFICATIONS

The following table outlines the technical specifications for your NUNET 3-in-1 Countertop Ice Maker and Water Dispenser:

Feature	Detail
Brand	NUNET
Model Number	ice maker 40
Color	Stainless Steel
Material	Plastic, Polyethylene (PE), Stainless Steel
Product Dimensions (D x W x H)	16.8" x 10.9" x 18.86"
Item Weight	32 pounds
Installation Type	Countertop
Water Heater Wattage	320 watts
Ice Making/Cooling Wattage	160 watts
Ice Production Capacity	Up to 44 lbs daily

Feature	Detail
Ice Storage Capacity	4 lbs
Hot Water Temperature	≥194 Degrees Fahrenheit (90°C)
Cold Water Temperature	≤46 Degrees Fahrenheit (8°C)
Water Tank Capacity (Manual Fill)	0.8 gallons (approx.)
Noise Level	Less than 46dB (during compressor operation)

WARRANTY AND CUSTOMER SUPPORT

All NUNET products are backed by a one-year warranty provided by a US-based company. This warranty covers defects in materials and workmanship under normal use.

For technical support, warranty claims, or any questions regarding your NUNET 3-in-1 Countertop Ice Maker and Water Dispenser, please contact Nuvending, the manufacturer. Refer to your purchase documentation for specific contact details or visit the official NUNET brand store online for assistance.
