1. INTRODUCTION

Thank you for choosing the MOFII SK-09BT Ultra-Slim Bluetooth Wireless Keyboard. This manual provides essential information for setting up, operating, and maintaining your new keyboard. Please read it thoroughly before use to ensure optimal performance and longevity of your device.

The MOFII SK-09BT is designed for versatility and portability, offering seamless connectivity across various operating systems including iOS, Mac OS, Android, and Windows. Its compact and lightweight design makes it an ideal companion for your tablet, laptop, or smartphone, enhancing your typing experience on the go.

2. SETUP

2.1 What's in the Box

- MOFII SK-09BT Bluetooth Wireless Keyboard
- USB Cable (for charging, if applicable, or for wired connection if supported)
- User Manual (this document)

2.2 Battery Installation

The keyboard requires two AAA batteries for operation. To install the batteries:

1. Locate the battery compartment on the back of the keyboard.
2. Gently slide open the battery compartment cover.
3. Insert two AAA batteries, ensuring correct polarity (+/-).
4. Close the battery compartment cover securely.

2.3 Power On/Off

To power on the keyboard, slide the ON/OFF switch located on the back of the keyboard to the 'ON' position. To power off, slide the switch to the 'OFF' position.

2.4 Bluetooth Pairing

Follow these steps to pair your MOFII SK-09BT keyboard with your device:

1. Ensure the keyboard is powered on.
2. Press the 'Connect' button on the back of the keyboard. The Bluetooth indicator light (usually blue) will start flashing, indicating it's in pairing mode.
3. On your device (tablet, smartphone, laptop), navigate to the Bluetooth settings.
4. Turn on Bluetooth and search for available devices.
5. Select 'Bluetooth Keyboard' or 'SK-09BT' from the list of found devices.
6. If prompted, enter the pairing code displayed on your device's screen using the MOFII keyboard, then press Enter.
7. Once connected, the Bluetooth indicator light on the keyboard will stop flashing and remain solid or turn off, depending on the model.

2.5 System Compatibility

The keyboard is compatible with multiple operating systems. To optimize key functions for your specific system, use the following key combinations:

- **Fn + Q:** For iOS / Mac OS devices
- **Fn + W:** For Android devices
- **Fn + E:** For Windows devices

How to Connect Keyboard			
			
1 Switch ON the Keyboard (on the back)	2 Press the CONECT key on the back of keyboard	3 Turn Bluetooth ON the settings on your device	4 Successfully Connected

3.2 Multi-Function Keys

The keyboard includes 12 multimedia key combinations (F1-F12) that allow quick access to various functions such as home page, brightness control, search, media playback, volume control, and lock screen. These functions are typically accessed by pressing the 'Fn' key in combination with the desired F-key.

Multi Function Keys

 Esc	 F1	 F2	 F3	 F4	 F5	 F6
Home Page	Brightness-	Brightness+	Settings	Cut	Search	Net
 F7	 F8	 F9	 F10	 F11	 F12	 Del
Prev Track	Play/Pause	Next Track	Mute	Volume-	Volume+	Lock Screen

4. MAINTENANCE

4.1 Cleaning

To clean your keyboard, power it off and use a soft, lint-free cloth. For stubborn dirt, slightly dampen the cloth with water or a mild, non-abrasive cleaner. Avoid excessive moisture and do not spray liquids directly onto the keyboard.

4.2 Battery Replacement

When the keyboard's performance diminishes or the low battery indicator illuminates, it's time to replace the two AAA batteries. Refer to section 2.2 for battery installation instructions.

4.3 Storage

When not in use for extended periods, power off the keyboard to conserve battery life. Store it in a cool, dry place away from direct sunlight and extreme temperatures.

5. TROUBLESHOOTING

5.1 Keyboard Not Connecting

- Ensure the keyboard is powered on and has fresh batteries.
- Make sure Bluetooth is enabled on your device.
- Press the 'Connect' button on the back of the keyboard to enter pairing mode.
- Try unpairing and re-pairing the keyboard from your device's Bluetooth settings.
- Ensure your device is within the Bluetooth range (typically 10 meters or 33 feet).

5.2 Keys Not Responding

- Check battery levels and replace if necessary.
- Ensure the keyboard is properly connected via Bluetooth.
- Restart both the keyboard and your connected device.
- Verify that the correct system mode (iOS/Mac, Android, Windows) is selected using Fn + Q/W/E.

5.3 Frequent Disconnections

- Move closer to your device to ensure a strong Bluetooth signal.
- Avoid interference from other wireless devices operating on the same frequency.
- Ensure your device's Bluetooth drivers are up to date.
- The keyboard features an auto-sleep function after 30 minutes of inactivity to save battery life. Press any key to wake it up.
