Using the Lift Top Feature:

1. **To Lift:** Gently grasp the tabletop with both hands and lift upwards. The hydraulic mechanism will assist in raising the top to its elevated position.
2. **To Lower:** With both hands, gently push the tabletop downwards. Apply steady, even pressure until the top fully retracts into its closed position.

Important: Always use both hands when lifting or lowering the tabletop to ensure stability and prevent damage to the mechanism or injury. Avoid placing heavy objects on the lifted top that exceed the 22 lbs weight capacity.

Accessing Hidden Storage:

The hidden compartment beneath the lift top provides ample space for various items. Lift the tabletop as described above to access the divided storage area. This space is ideal for books, magazines, remote controls, blankets, or gaming accessories.
