Outsunny Outdoor Rattan Storage Box 75x75x70 cm

Model: IT865-020V00KK0631

INTRODUCTION

Thank you for purchasing the Outsunny Outdoor Rattan Storage Box. This manual provides essential information for the safe assembly, operation, and maintenance of your new storage solution. Please read these instructions carefully before use and retain them for future reference.

SAFETY INSTRUCTIONS

- Ensure all components are present and undamaged before assembly. Do not proceed with assembly if any parts are missing or broken.
- Assembly requires at least two adults.
- Keep children and pets away from the assembly area. Small parts can be a choking hazard.
- Place the storage box on a flat, stable, and level surface to prevent tipping.
- Do not overload the storage box. The maximum recommended weight capacity is 50 kg.
- Do not allow children to play inside the box to avoid entrapment.
- Exercise caution when opening and closing the lid, especially with the pneumatic bar mechanism. Keep hands clear of pinch points.
- While the box is weather-resistant, prolonged exposure to extreme weather conditions (heavy rain, snow, strong winds) may require additional protection.

PACKAGE CONTENTS

Please verify that all the following components are included in your package:

- PE Rattan panels (sides, front, back, bottom, lid)
- Powder-coated steel frame components
- Oxford fabric inner liner
- Pneumatic lift bar mechanism
- Assembly hardware (screws, bolts, washers, etc.)

- Assembly tool (e.g., Allen key)

SETUP AND ASSEMBLY

Assembly is required for this product. Follow the steps below carefully. It is recommended to have at least two people for assembly.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, soft surface to prevent scratches.
2. **Assemble the Frame:** Connect the steel frame components according to the diagram provided in your separate assembly guide. Ensure all connections are secure but do not overtighten screws until the frame is fully assembled.
3. **Attach Rattan Panels:** Secure the PE rattan side, front, and back panels to the assembled steel frame using the provided hardware. Ensure the rattan weave is facing outwards.
4. **Install Bottom Panel:** Place and secure the bottom rattan panel into the frame.
5. **Insert Inner Liner:** Position the Oxford fabric inner liner inside the assembled box. Ensure it fits snugly and covers the interior surfaces. This liner provides additional protection for your stored items.
6. **Attach Lid and Pneumatic Bar:** Attach the lid to the main body of the storage box using the hinges. Then, install the pneumatic lift bar mechanism as shown in the diagram. Test the opening and closing action to ensure smooth operation.
7. **Final Tightening:** Once all components are in place and aligned, carefully tighten all screws and bolts. Do not overtighten.

OPERATING INSTRUCTIONS

Opening the Lid

Gently lift the lid. The pneumatic bar will assist in raising the lid and holding it open, providing convenient access to the contents. Ensure the lid is fully open before reaching inside.

Closing the Lid

To close, gently push the lid downwards. The pneumatic bar will control the descent, preventing it from slamming shut. Ensure the lid is fully closed to protect the contents from elements.

Storage Use

This storage box is ideal for organizing various outdoor items such as gardening tools, pool accessories, cushions, and toys. The internal Oxford fabric liner offers an additional layer of protection for your stored items.

MAINTENANCE

- **Cleaning:** Wipe the PE rattan surfaces with a soft, damp cloth and mild soap. Rinse with clean water and dry thoroughly. Avoid harsh chemicals or abrasive cleaners.
- **Liner Care:** The Oxford fabric liner can be wiped clean with a damp cloth. Ensure it is dry before closing the lid to prevent mold or mildew.
- **Frame Inspection:** Periodically check the steel frame for any signs of rust or damage. Touch up any scratches on the powder coating to prevent rust.
- **Hardware Check:** Regularly inspect all screws and bolts to ensure they remain tight. Retighten if necessary.
- **Pneumatic Bar:** Keep the pneumatic bar clean and free of debris. Do not apply excessive force when opening or closing the lid.
- **Winter Storage:** While weather-resistant, consider storing the box indoors or covering it during harsh winter conditions to prolong its lifespan.

Figure 4: The durable PE rattan material is easy to clean and maintain.

TROUBLESHOOTING

- **Lid not opening/closing smoothly:** Check if the pneumatic bar is properly installed and free of obstructions. Ensure hinges are not bent or damaged.
- **Box feels unstable:** Verify that all assembly hardware is securely tightened. Ensure the box is placed on a flat, level surface.
- **Water inside the box:** While designed to be weather-resistant, heavy rain or prolonged exposure can lead to some moisture. Ensure the lid is fully closed. Consider using an additional waterproof cover in extreme weather. Check for any gaps or damage to the rattan or liner.
- **Rattan damage:** Small damages to the rattan can sometimes be repaired with appropriate outdoor furniture repair kits. For significant damage, contact customer support.

SPECIFICATIONS

Brand	Outsunny
Model Number	IT865-020V00KK0631

Color	Sand
Material	PE Rattan, Powder-coated Steel Frame, Oxford Fabric Liner
Overall Dimensions (L x W x H)	75 cm x 75 cm x 70 cm
Internal Dimensions (L x W x H)	70 cm x 70 cm x 64 cm
