

## DORTALA GT-ZM84125VG

# DORTALA 14-inch Full Size Solid Wood Bed Frame Instruction Manual

Model: GT-ZM84125VG

## INTRODUCTION

---

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your DORTALA 14-inch Full Size Solid Wood Bed Frame. Please read all instructions carefully before assembly and use to ensure safe and proper operation of the product.

## SAFETY INFORMATION

---

**WARNING:** To prevent serious injury, always follow these safety guidelines:

- Do not load more than **500 lbs** onto the bed frame. Exceeding this weight limit may cause structural damage and injury.
- Exercise caution around legs during assembly to avoid pinch points.
- Assemble the bed frame strictly according to the provided instructions to ensure stability and prevent collapse.
- Ensure all bolts and screws are securely tightened before use and periodically check for tightness.
- Keep small parts away from children during assembly to prevent choking hazards.

## PACKAGE CONTENTS

---

Before beginning assembly, verify that all components are present and undamaged. If any parts are missing or damaged, do not proceed with assembly and contact customer support.

- Headboard and Footboard sections
- Side Rails (2)
- Center Support Beam(s)
- Support Legs (6 on sides, 4 in middle - total 10)

- Poplar Wood Slats (14)
- Hardware Pack (bolts, washers, Allen wrench)
- Instruction Manual

## SETUP AND ASSEMBLY

Assembly typically requires two adults. Clear a spacious area for assembly and keep all parts organized.

### Step 1: Unpack and Identify Components

Carefully remove all parts from the packaging. Lay them out on a soft, clean surface to prevent scratches. Refer to the parts list to ensure all components are present.

**Figure 1:** Exploded view of the DORTALA Full Size Solid Wood Bed Frame components, showing all parts required for assembly.

### Step 2: Assemble the Frame

Attach the side rails to the headboard and footboard sections using the provided bolts and Allen wrench. Do not fully tighten bolts until the entire frame is assembled.

# 100% Solid Rubber Wood Frame Built to Last

Natural  
Wood Material

Smooth Surface  
without Burrs

Exquisite  
Craftsmanship

**Figure 2:** Detail of the solid rubber wood construction, highlighting the smooth surface and craftsmanship of the frame components.

## Step 3: Install Support Legs and Center Beam

Secure the 6 side support legs and 4 middle support legs to the designated points on the frame and center beam. Ensure all legs are firmly attached and provide even support.

14 Solid Wooden Slats

Considerate Stickers  
to Retain Mattress

10 Stable Support Legs

## Rugged & Stable Construction

Noise Free Design

No Box Spring Needed

Strong Weight Capacity

**Figure 3:** Illustration of the 14 solid wooden slats and 10 stable support legs, demonstrating the robust construction for mattress support.

### Step 4: Place Slats

Lay the 14 poplar wood slats across the frame, ensuring they are evenly spaced. The slats are designed to provide direct support for your mattress, eliminating the need for a box spring. Some slats may include considerate stickers to help retain the mattress in place.

**Hoop & Loop Fasteners**  
Keep your mattress firm.

**Figure 4:** View of the bed frame with a mattress, highlighting the hoop and loop fasteners designed to keep the mattress firm and prevent shifting.

### Step 5: Final Tightening

Once all components are in place, fully tighten all bolts and screws. Ensure the frame is stable and level before placing your mattress.

### OPERATING INSTRUCTIONS

Your DORTALA bed frame is designed for optimal mattress support without a box spring.

- **Mattress Placement:** Place your full-size mattress directly onto the wooden slats. The frame is compatible with memory foam and traditional mattresses.
- **Weight Capacity:** The bed frame has a maximum weight capacity of **500 lbs**. Do not exceed this limit to maintain structural integrity and safety.
- **Under-bed Storage:** Utilize the 10.5-inch under-bed clearance for storage boxes or other items. This space also allows for easy cleaning underneath the bed.

**Figure 5:** Illustration of the 10.5-inch under-bed storage space, demonstrating its utility for storing items and allowing access for cleaning devices.

## MAINTENANCE

- **Cleaning:** Wipe the wooden frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the wood finish.
- **Tightness Check:** Periodically (e.g., every 3-6 months) check all bolts and screws to ensure they remain tight. Re-tighten if necessary to maintain stability.
- **Wood Care:** To preserve the natural wood finish, avoid prolonged exposure to direct sunlight or extreme humidity.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed frame wobbles or is unstable.	Loose bolts or screws. Uneven floor.	Ensure all bolts and screws are fully tightened. Move the bed to a level surface or use shims under legs if necessary.

Problem	Possible Cause	Solution
Squeaking noises.	Loose connections. Slats rubbing against frame.	Re-tighten all hardware. Check if slats are properly seated and not rubbing. Apply a small amount of wax or felt pads where wood meets wood if squeaking persists.
Mattress slides on slats.	Lack of friction between mattress and slats.	Ensure the "considerate stickers" (hoop & loop fasteners) on the slats are clean and making contact with the mattress. You can also place a non-slip mat between the mattress and slats.

## SPECIFICATIONS

Feature	Detail
Model Number	GT-ZM84125VG
Size	Full
Product Dimensions (L x W x H)	74.5" x 53.5" x 14"
Material	Solid Rubber Wood, Poplar Wood Slats
Weight Capacity	500 lbs
Under-bed Clearance	10.5 inches
Number of Slats	14
Number of Support Legs	10 (6 side, 4 middle)
Item Weight	61.5 lbs
UPC	685764546492
