## AVENT SCD973/37

# Philips Avent Premium Connected Baby Monitor

Model: SCD973/37 | Brand: AVENT

## PRODUCT OVERVIEW

---

The Philips Avent Premium Connected Baby Monitor is a comprehensive solution designed to provide parents with peace of mind through advanced monitoring capabilities. This system includes a 1080p camera, a dedicated parent unit with a 5-inch HD screen, and connectivity to the Philips Avent Baby Monitor+ app. It features SenseIQ technology for wearable-free sleep and breathing rate tracking, cry detection and translation, two-way talk, and secure encrypted connections. This monitor is intended to help understand your baby's sleep, breathing, movement, and cries, but it is not a medical device and should not be used for diagnosis or treatment of health conditions.

## PACKAGE CONTENTS

Verify that all components are present in the package:

- 1x Parent Unit (screen)
- 1x Baby Unit (camera)
- 2x Power Supplies
- 1x 2-in-1 Wall and Crib Mount
- Philips Avent Baby Monitor+ App (available for download in USA, Canada, & Mexico)

## SETUP GUIDE

1. **Unpack and Inspect:** Carefully remove all components from the packaging. Inspect for any signs of damage.
2. **Power On:** Connect the provided power supplies to both the Parent Unit and the Baby Unit. Plug them into a power outlet. The units will automatically power on.

3. **Position the Baby Unit:** Place the Baby Unit (camera) in a location that provides a clear view of your baby's crib or sleeping area. Ensure it is at least 3 feet (1 meter) away from your baby to prevent entanglement with cables. The included 2-in-1 wall and crib mount can be used for versatile placement.
4. **Initial Pairing:** The Parent Unit and Baby Unit are pre-paired at the factory. They should automatically connect when powered on. If they do not connect, refer to the troubleshooting section.
5. **Install the App (Optional):** For advanced features and remote monitoring, download the Philips Avent Baby Monitor+ app from your smartphone's app store. Follow the in-app instructions to connect the Baby Unit to your Wi-Fi network and pair it with your smartphone.

## OPERATING INSTRUCTIONS

---

### Parent Unit Operation

- **Viewing Live Feed:** The 5-inch HD screen on the Parent Unit displays a live video feed from the Baby Unit. It offers clear visuals day and night, even without Wi-Fi connectivity.
- **Two-Way Talk:** Press and hold the talk button on the Parent Unit to speak to your baby through the Baby Unit's speaker. Release the button to hear your baby.

- **Adjust Volume/Brightness:** Use the dedicated buttons on the Parent Unit to adjust the volume of the audio and the brightness of the screen.
- **ECO Mode:** Activate ECO mode to conserve battery life. The Parent Unit's screen will turn off when no sound or movement is detected, reactivating when activity resumes.

**HD video and real-time alerts**  
keep you connected to your  
little one

### App Features (Philips Avent Baby Monitor+)

- **Remote Monitoring:** Access the live video feed and audio from your smartphone anywhere with an internet connection.
- **SenseIQ Sleep and Breathing Tracking:** The app provides insights into your baby's sleep patterns and breathing rate without any wearable accessories. It analyzes subtle movements to provide data.
- **Cry Detection & Translation:** Receive alerts when your baby cries. The app can interpret five distinct cry types using a scientifically proven algorithm, helping you understand your baby's needs.
- **Room Temperature Monitoring:** The built-in room thermometer alerts you to high or low temperatures in the nursery.
- **Lullabies and White Noise:** Play soothing lullabies or white noise directly from the app to comfort your baby. You can also record your own lullabies.
- **Personalized Notifications:** Customize alerts for sound, motion, and temperature changes.

# Understand baby's sleep patterns personalized insights, at your fingertips

## CARE AND MAINTENANCE

- **Cleaning:** Wipe the monitor units with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Battery Care:** The Parent Unit contains a rechargeable Lithium Ion battery. For optimal battery life, avoid extreme temperatures and fully charge the unit before first use.
- **Storage:** If storing the monitor for an extended period, ensure both units are fully charged and then powered off. Store in a cool, dry place.

## TROUBLESHOOTING

### Common Issues and Solutions

- **No Connection between Units:**
  - Ensure both units are powered on and within range (up to 1300ft / 400m in open space).
  - Check for obstructions or interference from other electronic devices.
  - Try restarting both the Parent Unit and Baby Unit.
- **No Video/Poor Video Quality:**

- Check the camera lens for dirt or obstructions.
- Ensure adequate lighting in the room for clear daytime video. Night vision activates automatically in low light.
- Verify strong Wi-Fi signal if using the app.
- **No Audio/Poor Audio Quality:**
  - Adjust the volume on the Parent Unit or within the app.
  - Ensure the Baby Unit's microphone is not obstructed.
  - Check for excessive background noise in the nursery.
- **App Connectivity Issues:**
  - Ensure your smartphone has a stable internet connection.
  - Verify the Baby Unit is connected to your home Wi-Fi network.
  - Restart the app or your smartphone.
  - Check for app updates in your app store.

## TECHNICAL SPECIFICATIONS

---
