## RENPHO R-HAP62

# RENPHO King Size Heating Pad (Model R-HAP62) Instruction Manual

For Back, Neck, and Shoulders

## 1. PRODUCT OVERVIEW

---

The RENPHO King Size Heating Pad is designed to provide targeted heat therapy for your back, neck, and shoulders. Measuring 24"x37", its extra-large size ensures comprehensive coverage for effective muscle relaxation and pain relief. Made from ultra-soft flannel material, it offers maximum comfort during use.

## 2. IMPORTANT SAFETY INFORMATION

Please read all safety instructions carefully before using your RENPHO Heating Pad. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- **CAUTION:** Avoid direct contact with bare skin. Always place a piece of clothing between the pad and your skin.
- Do not use while sleeping.
- Be cautious of sharp creases which may cause short circuits and burns. Do not bunch, sit on, lay on, or squeeze the pad.

- This product is ETL certified and includes built-in overheat protection for maximum safety.
- Do not use on infants, incapacitated persons, or persons insensitive to heat.
- Do not use pins or other metallic objects to fasten the pad.
- Never pull the heating pad by the supply cord.

### 3. PRODUCT COMPONENTS

Your RENPHO King Size Heating Pad package includes:

- 1 x King Size Heating Pad (24"x37")
- 1 x LED Controller with Power Cord (7-foot long)

Image: Close-up of the RENPHO Heating Pad's LED controller, showing buttons for temperature adjustment (+/-), timer, and

power, along with a digital display.

## 4. SETUP INSTRUCTIONS

---

1. **Unpack the Heating Pad:** Carefully remove the heating pad and its controller from the packaging.
2. **Connect the Controller:** Ensure the controller is securely plugged into the heating pad.
3. **Position the Pad:** Place the heating pad on the desired area of your body (back, neck, or shoulders). The design allows it to drape comfortably.
4. **Secure the Pad:** Use the integrated ties to secure the pad around your waist for a snug fit, ensuring it stays in place during use.
5. **Plug In:** Connect the power cord to a standard electrical outlet. The 7-foot cord provides ample movement.

## 5. OPERATING INSTRUCTIONS

### Power On/Off

Press the power button (**U**) on the LED controller to turn the heating pad on or off.

### Adjusting Heat Settings

The heating pad offers 6 heat settings:

- Level 1: 100°F (37.8°C)
- Level 2: 110°F (43.3°C)

- Level 3: 120°F (48.9°C)
- Level 4: 130°F (54.4°C)
- Level 5: 140°F (60°C)
- Level 6: 150°F (65.6°C)

Use the '+' and '-' buttons on the controller to cycle through the desired heat levels. The digital display will show the current temperature setting.

### Setting the Timer

The heating pad features 3 timer settings with automatic shut-off:

- 30 minutes
- 60 minutes
- 90 minutes

Press the timer button (**Clock icon**) to select your preferred duration. The pad will automatically turn off once the selected time has elapsed.

## 6. MAINTENANCE

---

### Cleaning and Care

The RENPHO Heating Pad is designed for easy cleaning:

- **Machine Washable:** Disconnect the controller completely from the heating pad before washing.
- Wash in cold water (40°C/104°F).
- Do not tumble dry.
- Do not iron at high temperature.
- Do not dry clean.
- Do not bleach.
- *Note:* Since the heating pad has built-in heating wires, avoid machine washing it frequently to prolong its lifespan.

## Easy to Clean

Image: A person placing the RENPHO Heating Pad into a washing machine, illustrating its machine-washable feature. Icons below indicate specific care instructions like 'Do not iron' and '40°C/104°F cold water'.

## 7. TROUBLESHOOTING

If you encounter any issues with your heating pad, refer to the following common solutions:

- **Display shows "F2":** This indicates that the cable of the hand controller is disconnected from the shawl. Simply plug the cable back in securely between the shawl and the hand controller.
- **Pad not heating:** Ensure the power cord is securely plugged into both the pad and the electrical outlet. Check if the power button on the controller is pressed and a heat setting is selected.
- **Uneven heating:** Ensure the pad is laid flat and not bunched, folded, or squeezed, as this can affect heat distribution and potentially damage the internal wiring.

## 8. SPECIFICATIONS

---
