## ASSEMBLY INSTRUCTIONS

Assembly of this loft bed requires two adults. Please refer to the separate illustrated installation manual included in your package for detailed, step-by-step instructions. Ensure you have ample space and all components are laid out before starting.

1. **Unpack Components:** Carefully remove all parts from both boxes and lay them out on a clean, soft surface to prevent scratches. Verify all parts against the parts list in the illustrated manual.
2. **Assemble Main Frame:** Follow the manual to connect the main bed frame components, ensuring all bolts are finger-tight initially.
3. **Install Desk and Storage Units:** Attach the desk, shelves, and drawers according to the manual's diagrams.
4. **Attach Ladder:** Securely fasten the 4-step ladder to the bed frame.
5. **Install Slats:** Place and secure the 14 bed slats onto the bed frame.
6. **Install LED Light:** Mount the LED light bar in the designated area, typically under the bed frame above the desk. Connect it as per the electrical instructions.

## **OPERATING INSTRUCTIONS**

### **Using the LED Light**

The integrated LED light bar provides illumination for the desk area. It is typically controlled by a switch located on the light bar itself or an accessible cord. Plug the light into a standard electrical outlet.

## MAINTENANCE

- **Cleaning:** Wipe the bed frame, desk, and storage surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Hardware Check:** Periodically inspect all bolts, screws, and connections. Tighten any loose hardware to maintain stability and safety.
- **LED Light:** Ensure the LED light bar is free from dust. If the light malfunctions, check the power connection. Do not attempt to repair electrical components if you are not qualified.
- **Drawer Glides:** If drawers become stiff, a small amount of silicone-based lubricant can be applied to the glides.

## TROUBLESHOOTING

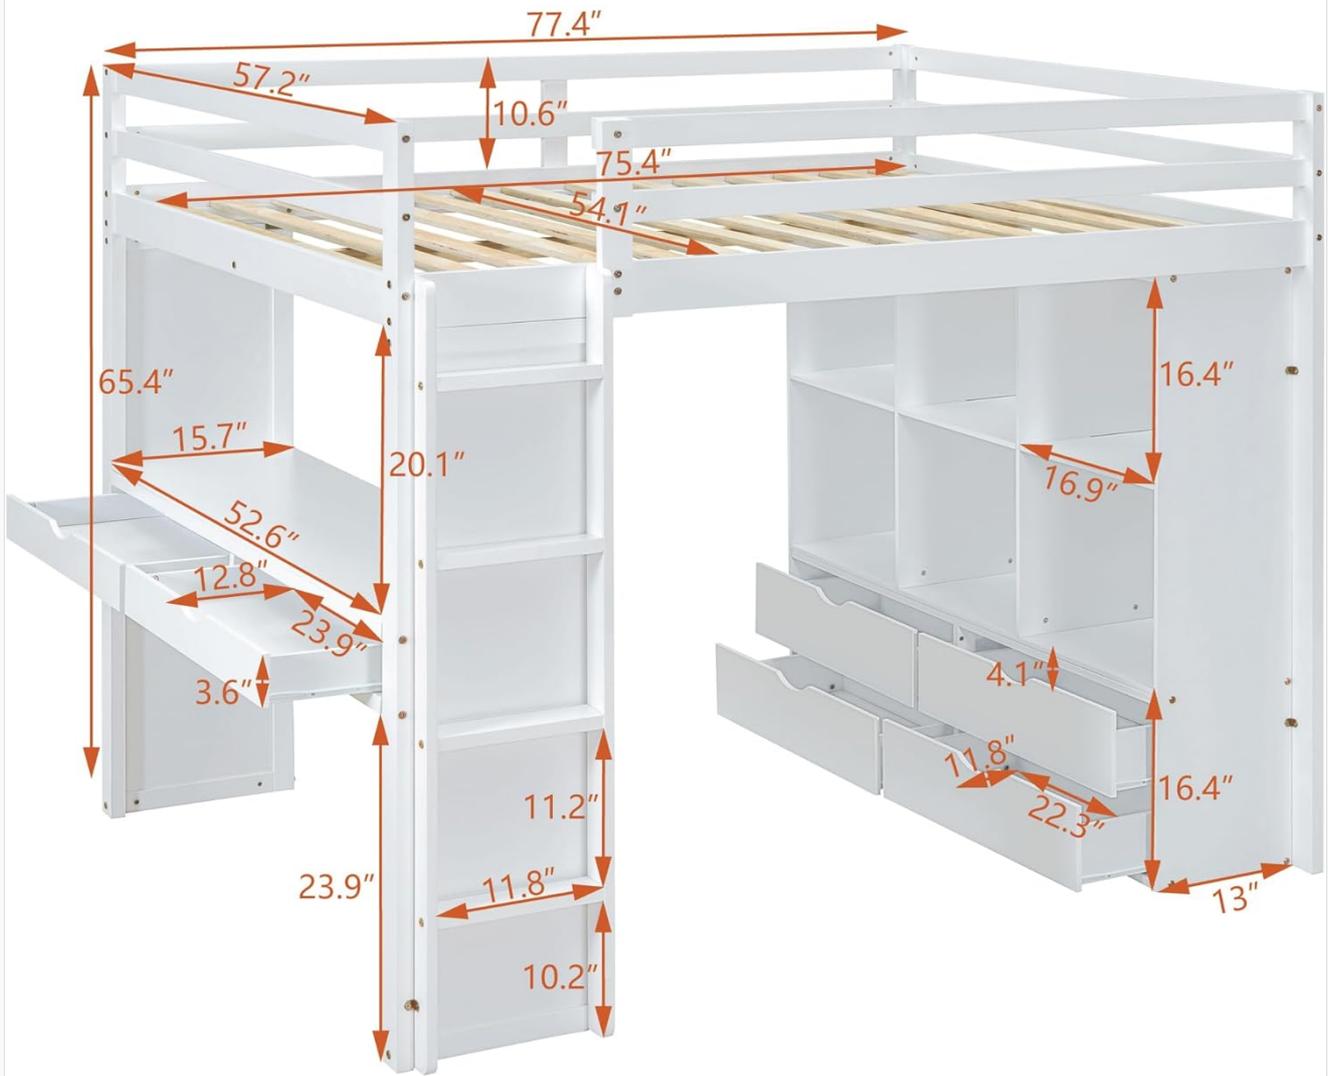

- **Bed Squeaks:** This often indicates loose hardware. Re-tighten all bolts and screws. Ensure the bed is on a level surface.
- **LED Light Not Working:** Check if the power cord is securely plugged into the outlet and the light bar. Ensure the outlet is functional. If issues persist, contact customer support.
- **Drawers Stick:** Check for any obstructions in the drawer glides. Ensure the drawer is properly aligned on its tracks.

- **Bed Feels Unstable:** Immediately cease use. Re-check all assembly steps and ensure all hardware is fully tightened. Verify the bed is on a flat, stable floor.
