ASSEMBLY INSTRUCTIONS

Assembly is designed to be straightforward and typically requires two people. All necessary tools are included.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft

surface to prevent scratches. Refer to the parts list in your included manual to identify each piece.

2. **Assemble the Main Frame:** Connect the side rails and support beams according to the numbered labels on each part. Ensure all connections are secure but do not fully tighten bolts until the frame is fully assembled.

CARE AND MAINTENANCE

Proper care will ensure the longevity of your bed frame.

- **Cleaning:** Wipe the steel frame with a dry cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the finish.
- **Regular Inspection:** Periodically check all bolts and connections to ensure they remain tight. Re-tighten if necessary to maintain stability and prevent squeaks.
- **Slat Care:** Ensure wooden slats remain properly seated and attached to the Velcro strips.

TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common solutions:

- **Squeaking Noises:** Squeaking is often caused by loose connections. Re-tighten all bolts on the frame. Ensure the

wooden slats are firmly pressed onto their Velcro strips.

- **Instability/Wobbling:** Check that all frame components are correctly aligned and all bolts are fully tightened. Ensure the bed frame is on a level surface.
- **Mattress Sliding:** The frame includes rubber strips to help prevent mattress movement. Ensure these are properly placed. If sliding persists, consider using a non-slip mattress pad.
- **Missing Parts:** If any parts are missing upon unboxing, contact Zinus customer support immediately for assistance.
