ZINUS ABEL 14-Inch Queen Platform Bed Frame Instruction Manual

Model: OLB-QLSP-14QS | Brand: Zinus

INTRODUCTION

This manual provides comprehensive instructions for the assembly, use, and maintenance of your ZINUS ABEL 14-Inch Queen Platform Bed Frame. Designed for durability and ease of use, this steel frame offers robust mattress support without the need for a box spring, along with ample under-bed storage. Please read all instructions carefully before beginning assembly.

Important Safety Information:

- Always follow the assembly instructions carefully to prevent instability.
- Be cautious around sharp edges during assembly and use.
- Ensure all bolts are securely tightened before use. Periodically check and re-tighten all connections.
- Do not exceed the maximum weight capacity of 700 lbs (Queen size).

PACKAGE CONTENTS

Verify that all components are present before starting assembly. The ZINUS ABEL bed frame is shipped in a compact WonderBox™ packaging.

- Frame Components (labeled A, B, C, etc.)
- Steel Slats
- Support Legs
- Assembly Tools (e.g., Hex Wrench, Ratchet)
- Fasteners (bolts, washers)
- Non-slip strips for mattress (if included)

SETUP AND ASSEMBLY

The ZINUS ABEL bed frame features a Quick Lock assembly system designed for easy setup. It is recommended to have two people for assembly.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, soft surface to prevent scratches. Identify each part using the provided instruction diagram.

3. **Install Support Legs:** Attach the central support legs to the crossbars. These legs provide additional stability and weight distribution.
4. **Insert Steel Slats:** Place the steel slats across the frame. The slats are designed to fit securely into designated slots on the side rails. Some models may include plastic caps or inserts to prevent noise.

5. **Final Tightening:** Once all components are in place, go back and securely tighten all bolts. Avoid overtightening to prevent damage to the frame.
6. **Apply Non-Slip Strips:** If included, apply the non-slip strips to the top of the steel slats to help prevent mattress movement.
7. **Headboard Attachment (Optional):** The frame is designed to allow for headboard attachment. Locate the pre-drilled holes on the frame's legs for securing a compatible headboard (headboard not included).

OPERATING INSTRUCTIONS

Your ZINUS ABEL platform bed frame is designed to provide direct support for your mattress, eliminating the need for a box spring.

- **Mattress Placement:** Carefully place your Queen-sized mattress directly onto the assembled steel slats. Ensure the mattress is centered and evenly distributed on the frame.

- **Weight Capacity:** The Queen size frame supports up to 700 lbs. Do not exceed this weight limit to ensure safety and product longevity.

MAINTENANCE

- **Cleaning:** Spot clean the metal frame as needed. Use a soft, damp cloth and mild detergent. Avoid abrasive cleaners that may damage the painted finish.
- **Regular Inspection:** Periodically inspect all bolts and connections to ensure they remain tight. Re-tighten any loose fasteners to maintain the frame's stability and prevent squeaking.
- **Relocation:** If relocating the bed frame, it is recommended to disassemble it to prevent damage during transport.

TROUBLESHOOTING

- **Squeaking Noises:**

Ensure all bolts are securely tightened. Check that the plastic inserts (if applicable) are correctly placed on the slats to prevent metal-on-metal contact. Verify the mattress is properly seated on the frame.

• **Mattress Sliding:**

Confirm that the non-slip strips are correctly applied to the slats. If not included or worn, consider purchasing additional non-slip pads for the mattress.

• **Frame Instability:**

Double-check that all frame components are correctly assembled according to the instructions and that all fasteners are fully tightened. Ensure the bed is on a level surface.
